

SEHMUA B0FR9HZ2C6

SEHMUA Solar Security Camera Instruction Manual

Model: B0FR9HZ2C6

INTRODUCTION

This manual provides detailed instructions for the installation, operation, and maintenance of your SEHMUA Solar Security Camera. Designed for outdoor use, this wireless camera features 2K resolution, 360° pan and tilt capabilities, 500-lumen LED spotlights for color night vision, PIR motion detection, and two-way audio communication. Please read this manual thoroughly before using the product to ensure proper function and safety.

PRODUCT FEATURES

- **2K Full HD Resolution:** Captures clear images and videos day and night.
- **360° Panoramic View:** Pan and tilt functionality for comprehensive area coverage.
- **500-Lumen Super-Bright LED Spotlights:** Activated by motion, providing bright illumination and enabling color night vision.
- **PIR Motion Detection & Alerts:** Advanced motion and AI human detection with real-time app notifications, siren, and spotlight alarms.
- **Two-Way Audio:** Allows real-time communication with visitors or to deter intruders.
- **Solar Powered & Wireless:** Equipped with a large capacity rechargeable battery and solar panel for continuous operation without wired power.
- **IP65 Waterproof Rating:** Designed to withstand rain, snow, and various harsh weather conditions.
- **Flexible Storage Options:** Supports local storage via Memory Card (up to 128GB, not included) and cloud storage (30-day trial available).
- **2.4GHz WiFi Connectivity:** Ensures stable wireless connection for remote monitoring.

PACKAGE CONTENTS

Upon opening the box, you will find the following items:

- SEHMUA Solar Security Camera Unit
- Solar Panel (integrated or separate with cable)
- Mounting Bracket(s) and Hardware (screws, anchors)
- USB Charging Cable
- User Manual (this document)

Note: Memory Card is not included and must be purchased separately if local storage is desired.

SETUP GUIDE

1. **Charge the Camera:** Before initial use, fully charge the camera's internal battery using the provided USB cable.
2. **Download the App:** Search for the companion mobile application (e.g., "UBox" as seen in product images) on your smartphone's app store and install it.
3. **Register Account:** Open the app and follow the on-screen instructions to create a new user account.
4. **Add Device:** In the app, select "Add Device" or a similar option. The app will guide you through connecting the camera to your 2.4GHz Wi-Fi network. Ensure your Wi-Fi signal is strong at the installation location.
5. **Insert Memory Card (Optional):** If using local storage, carefully insert a compatible Memory Card (up to 128GB) into the designated slot on the camera.
6. **Mount the Camera:**
 - Choose a location with ample sunlight exposure for the solar panel and a clear view of the area you wish to monitor.
 - Use the provided mounting bracket and hardware to securely attach the camera to a wall or other stable surface.
 - Adjust the solar panel to maximize sun exposure. The camera's design allows for flexible positioning of the solar panel relative to the camera unit.
7. **Test Functionality:** After mounting, use the app to verify live view, motion detection, two-way audio, and pan/tilt functions.

Safe & Stable WiFi Signal

OPERATING INSTRUCTIONS

Live View and Recording

Access the live video feed through the mobile app. You can manually initiate recordings or rely on motion-activated recording settings.

Capture Every Detail

Image: A smartphone displaying the 2K HD live feed from the SEHMUA camera, showing clear details of a child on a swing.

Pan, Tilt, and Zoom (PTZ)

Use the controls within the mobile app to remotely adjust the camera's viewing angle. The camera supports 360° horizontal pan and vertical tilt, along with digital zoom, to cover a wide area without blind spots.

Image: An illustration of the SEHMUA camera's 360° pan and tilt capabilities, showing a wide backyard view and a zoomed-in detail of a dog, indicating 4X digital zoom.

Motion Detection and Alerts

The camera utilizes PIR motion detection and AI human detection to minimize false alarms. When motion is detected, you will receive instant notifications on your phone. The camera can also activate its 500-lumen spotlights and a 110 dB siren to deter intruders.

Image: The SEHMUA camera's spotlight illuminating an area where a person is detected, with icons for 110 dB Security Siren, Motion-Activated Light, and Real-Time App Notification.

Color Night Vision

The integrated 500-lumen LED spotlights enable full-color night vision, providing clear and detailed images even in low-light conditions. You can switch between infrared mode (spotlight off) and color mode (spotlight on) via the app.

Image: A side-by-side comparison showing a backyard scene in Infrared Mode (Spotlight Off) and Color Mode (Spotlight On), demonstrating the enhanced visibility with color night vision.

Two-Way Audio

Utilize the built-in microphone and speaker for two-way communication. This allows you to speak to individuals near the camera, such as delivery personnel or family members, directly from your smartphone.

Two-Way Audio

Listen and talk to someone from anywhere through the app.

Image: A visual representation of the two-way audio feature, showing a child in a yard and speech bubbles indicating communication through the camera.

Multi-User Sharing

The camera system supports multi-user sharing, allowing you to grant access to family members or trusted individuals to view live feeds and receive alerts through their own devices.

Multi-user Sharing

Easy to share the camera with your family members whether at home or abroad.

Image: An illustration showing various individuals (family members) viewing the security camera feed on their smartphones, demonstrating the multi-user sharing capability.

MAINTENANCE

- **Cleaning:** Regularly wipe the camera lens and solar panel with a soft, damp cloth to remove dust and debris. Avoid abrasive cleaners.
- **Solar Panel Efficiency:** Ensure the solar panel is free from obstructions (leaves, snow, etc.) to maintain optimal charging efficiency.
- **Battery Life:** While solar-powered, prolonged periods of low sunlight may require manual charging via the USB port. Monitor battery status through the app.
- **Firmware Updates:** Check the mobile app periodically for firmware updates to ensure your camera has the latest features and security enhancements.
- **Weather Protection:** The IP65 rating provides protection against most weather conditions. However, in extreme weather events, consider additional protection if possible.

IP65 Waterproof

Never Miss a Moment, No Matter the Weather

Image: The SEHMUA camera depicted in snowy and rainy environments, emphasizing its IP65 waterproof rating and ability to operate in temperatures from -4°F to 122°F.

TROUBLESHOOTING

Problem	Possible Solution
Camera not connecting to Wi-Fi	◦ Ensure your Wi-Fi is 2.4GHz. The camera does not support 5GHz networks. ◦ Check Wi-Fi signal strength at the camera's location. ◦ Restart your router and the camera. ◦ Perform a factory reset on the camera (refer to the app for instructions).
Poor battery life	◦ Verify the solar panel is receiving direct sunlight for several hours daily. ◦ Reduce motion detection sensitivity or frequency of recordings. ◦ Manually charge the camera via USB if solar charging is insufficient.
Motion alerts not received	◦ Check app notification settings on your phone and within the camera app. ◦ Ensure the camera is connected to Wi-Fi. ◦ Adjust motion detection zones and sensitivity.
Unclear video quality	◦ Clean the camera lens. ◦ Ensure adequate lighting, especially at night (check spotlight function). ◦ Verify your internet connection speed.

SPECIFICATIONS

Feature	Detail
Recommended Uses	Outdoor Security
Connectivity Technology	2.4Ghz WiFi
Special Feature	500-LUMEN super-bright LED spotlights
Indoor/Outdoor Usage	Outdoor
Compatible Devices	Smartphone
Color	White
Power Source	Solar Powered
Batteries Required	Yes
Waterproof Rating	IP65
Storage	Memory Card (up to 128GB, not included), Cloud Storage
