2. Setup

2.1 What's in the Box

- vivo V60e 5G Smartphone
- USB Cable
- SIM Tray Ejector
- Phone Case
- Power Adapter
- Screen Protector (pre-applied or in box)

2.2 SIM Card Installation

1. Locate the SIM card tray on the side of your device.

2. Insert the SIM tray ejector tool into the small hole next to the tray and press gently until the tray pops out.
3. Place your Nano SIM cards (up to two) into the designated slots on the tray. Ensure the gold contacts face downwards.
4. Carefully reinsert the SIM tray into the phone until it clicks into place.

The vivo V60e 5G supports 5G + 5G Dual SIM Dual Standby.

2.3 Initial Power On and Setup

1. Press and hold the Power button until the vivo logo appears.
2. Follow the on-screen instructions to select your language, connect to Wi-Fi, and set up your Google account.
3. Configure security features such as the in-display optical fingerprint sensor.

3. Operating Your Device

3.1 Display Features

The vivo V60e 5G features a 17.20 cm (6.77″) Slim Quad Curved AMOLED display with a 2392 × 1080 resolution and 120Hz refresh rate. It offers 387 PPI pixel density and 1600 nits peak local brightness for a vibrant viewing experience.

4. Maintenance

4.1 Water and Dust Resistance

The vivo V60e 5G boasts top-grade IP68 and IP69 water resistance, allowing it to be submerged in still fresh water up to 1.5 meters deep for up to 120 minutes. While resistant, it is not waterproof. Avoid intentional submersion and exposure to saltwater, chlorinated water, or other liquids. Damage caused by liquid exposure is not covered under warranty.

4.2 General Care

- Clean the screen and body with a soft, lint-free cloth.
- Avoid exposing the phone to extreme temperatures or direct sunlight for prolonged periods.
- Do not use harsh chemicals or abrasive materials for cleaning.
- Keep the device away from strong magnetic fields.

5. Troubleshooting

5.1 Common Issues and Solutions

Issue	Solution
Phone not turning on	Ensure the battery is charged. Connect to the charger for at least 10 minutes, then try powering on. If unresponsive, perform a force restart (refer to device-specific instructions if available).
Battery drains quickly	Close unused apps, reduce screen brightness, disable unnecessary features like GPS or Bluetooth when not in use. Check battery usage in settings to identify power-hungry apps.
Apps crashing or freezing	Clear the app's cache and data in settings. Update the app to the latest version. If the issue persists, uninstall and reinstall the app.
Poor network signal	Check if SIM card is properly inserted. Try restarting the phone. Ensure you are in an area with network coverage. Contact your service provider if the issue persists.

Issue	Solution
Fingerprint sensor not working	Ensure your finger and the sensor are clean and dry. Re-register your fingerprints in the security settings.

For more complex issues, consider performing a factory reset (back up your data first) or contacting customer support.
