Inefala Inefala-A4123H6MI260US

Inefala Android Car Radio User Manual

Model: Inefala-A4123H6MI260US

For Toyota RAV4 (2001-2008), 4Runner (2002-2009), Camry (2002-2006), Tundra (2003-2006), Sequoia (2003-2007), Fortuner (2008-2011), FJ Cruiser (2003-2010), Hilux (2001-2011), Prado (1996-2009), Alphard (2008-2015), Terios (2006-2010), Echo (2000-2005), Land Cruiser 100 (1998-2007)

1. Introduction

This manual provides detailed instructions for the installation, operation, and maintenance of your Inefala Android Car Radio. Please read this manual thoroughly before using the product to ensure proper functionality and safety. This device features a 7-inch HD touchscreen, Wireless CarPlay/Android Auto, GPS navigation, Wi-Fi connectivity, Bluetooth 5.0, and FM/RDS radio.

2. Product Overview and Features

The Inefala Android Car Radio is designed to enhance your in-car entertainment and navigation experience. Key features include:

- **7-inch HD Touchscreen:** A responsive, scratch-resistant 2.5D tempered glass display with 1024*600 resolution.
- **Wireless CarPlay & Android Auto:** Seamless integration with your smartphone for navigation, calls, messages, and music.
- **Mirror Link:** Display your phone's screen directly on the car radio.
- **GPS Navigation:** Built-in GPS chip supports both online and offline navigation.
- **Wi-Fi Connectivity:** Access online maps, download apps, and browse the internet.
- **Bluetooth 5.0:** For hands-free calling and wireless audio streaming with an external microphone for clear audio.
- **FM/RDS Radio:** High-quality radio tuner with automatic channel search and station presets.
- **EQ Audio Customization:** Personalize sound effects with various equalizer presets (Pop, Rock, User Defined).
- **Split Screen Functionality:** Run two applications simultaneously, such as navigation and music.
- **Customizable UI Themes:** Choose from multiple desktop themes.

4. Setup and Installation

4.1 Vehicle Compatibility

This car radio is compatible with various Toyota models. Please ensure your vehicle's dashboard matches the examples provided. It is important to note that this unit is **not compatible with JBL sound systems**.

- Toyota RAV4 (2001-2008)
- Toyota 4Runner (2002-2009)
- Toyota Camry (2002-2006)
- Toyota Tundra (2003-2006)
- Toyota Sequoia (2003-2007)

- Toyota Fortuner (2008-2011)
- Toyota FJ Cruiser (2003-2010)
- Toyota Hilux (2001-2011)
- Toyota Prado (1996-2009)
- Toyota Alphard (2008-2015)
- Toyota Terios (2006-2010)
- Toyota Echo (2000-2005)
- Toyota Land Cruiser 100 (1998-2007)

4.2 Wiring Diagram

Refer to the following diagram for proper connection of all cables. Ensure all connections are secure before powering on the unit.

Image: Stereo wiring diagram illustrating connections for power, RCA, USB, GPS antenna, and camera input.

4.3 Backup Camera Connection

Follow these steps to connect the included backup camera:

Your browser does not support the video tag.

Video: Demonstration of how to connect the included backup camera to the car radio unit. This video guides you through the wiring process for the camera.

4.4 Steering Wheel Control (SWC) Setup

To enable steering wheel controls, you will need to perform a button learning process through the unit's settings. This allows the car radio to recognize and respond to your vehicle's steering wheel buttons.

- Navigate to **Settings > Car Settings > Factory**.

- Enter the password (usually **000000**).
- Select **Physical Learning** or **SWC Learning**.
- Follow the on-screen prompts to assign functions to each steering wheel button.

5. Operating Instructions

5.1 Wireless CarPlay / Android Auto & Mirror Link

Connect your smartphone wirelessly to access navigation, make calls, send messages, and play music directly from your phone on the car radio display. Mirror Link allows you to cast your phone's screen to the unit.

Your browser does not support the video tag.

Video: Demonstration of connecting and using Wireless CarPlay, Android Auto, and Mirror Link features.

- **Wireless Connection:** Ensure your phone's Bluetooth and Wi-Fi are enabled. Follow the on-screen instructions on the car radio to pair your device.
- **Mirror Link:** For some devices, a USB connection may also be required in addition to Wi-Fi.

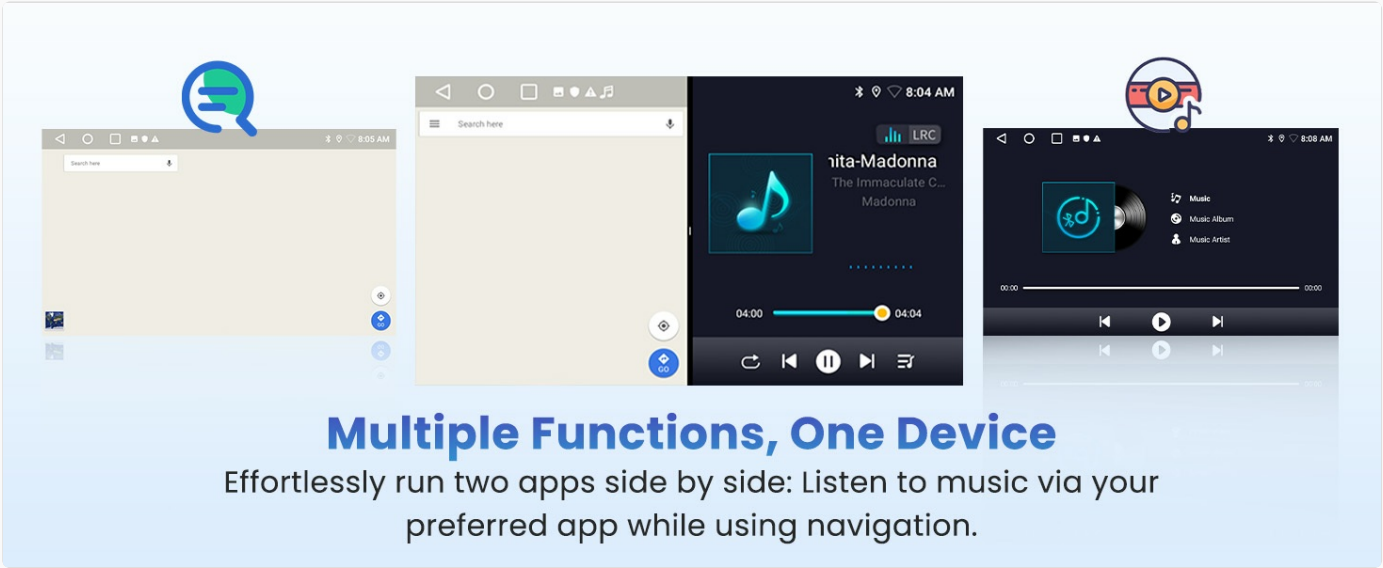

Image: Wireless CarPlay and Android Auto functionality with various applications.

5.2 GPS Navigation

The unit supports both online and offline navigation. For offline navigation, ensure maps are downloaded to the device. For online navigation, connect to Wi-Fi.

- **Offline Navigation:** Ideal for areas with no signal, tunnels, or remote locations.
- **Online Navigation:** Provides real-time traffic updates and points of interest. Requires Wi-Fi connection.

Image: GPS navigation in action, showing a route on the display.

5.3 Wi-Fi Connectivity & App Downloads

Connect the car radio to a Wi-Fi hotspot (e.g., from your smartphone) to access online features and download applications from the app store.

- Go to **Settings > Network & Internet > Wi-Fi**
- Select your desired Wi-Fi network and enter the password.
- Once connected, you can use online navigation, stream media, and download apps.

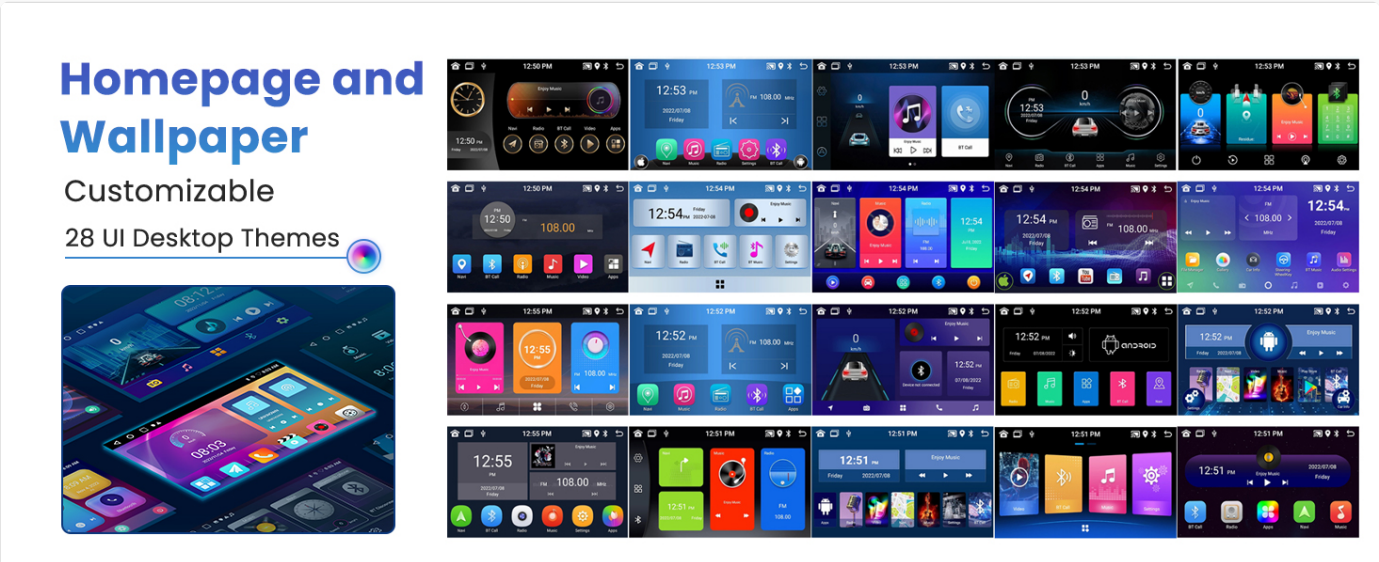

Image: Wi-Fi connectivity enabling access to various online applications.

5.4 Bluetooth 5.0

Pair your phone via Bluetooth for hands-free calling and music streaming. The external microphone ensures clear call quality.

- Enable Bluetooth on your phone and the car radio.

- Search for available devices on the car radio and select your phone.
- Confirm the pairing code on both devices.

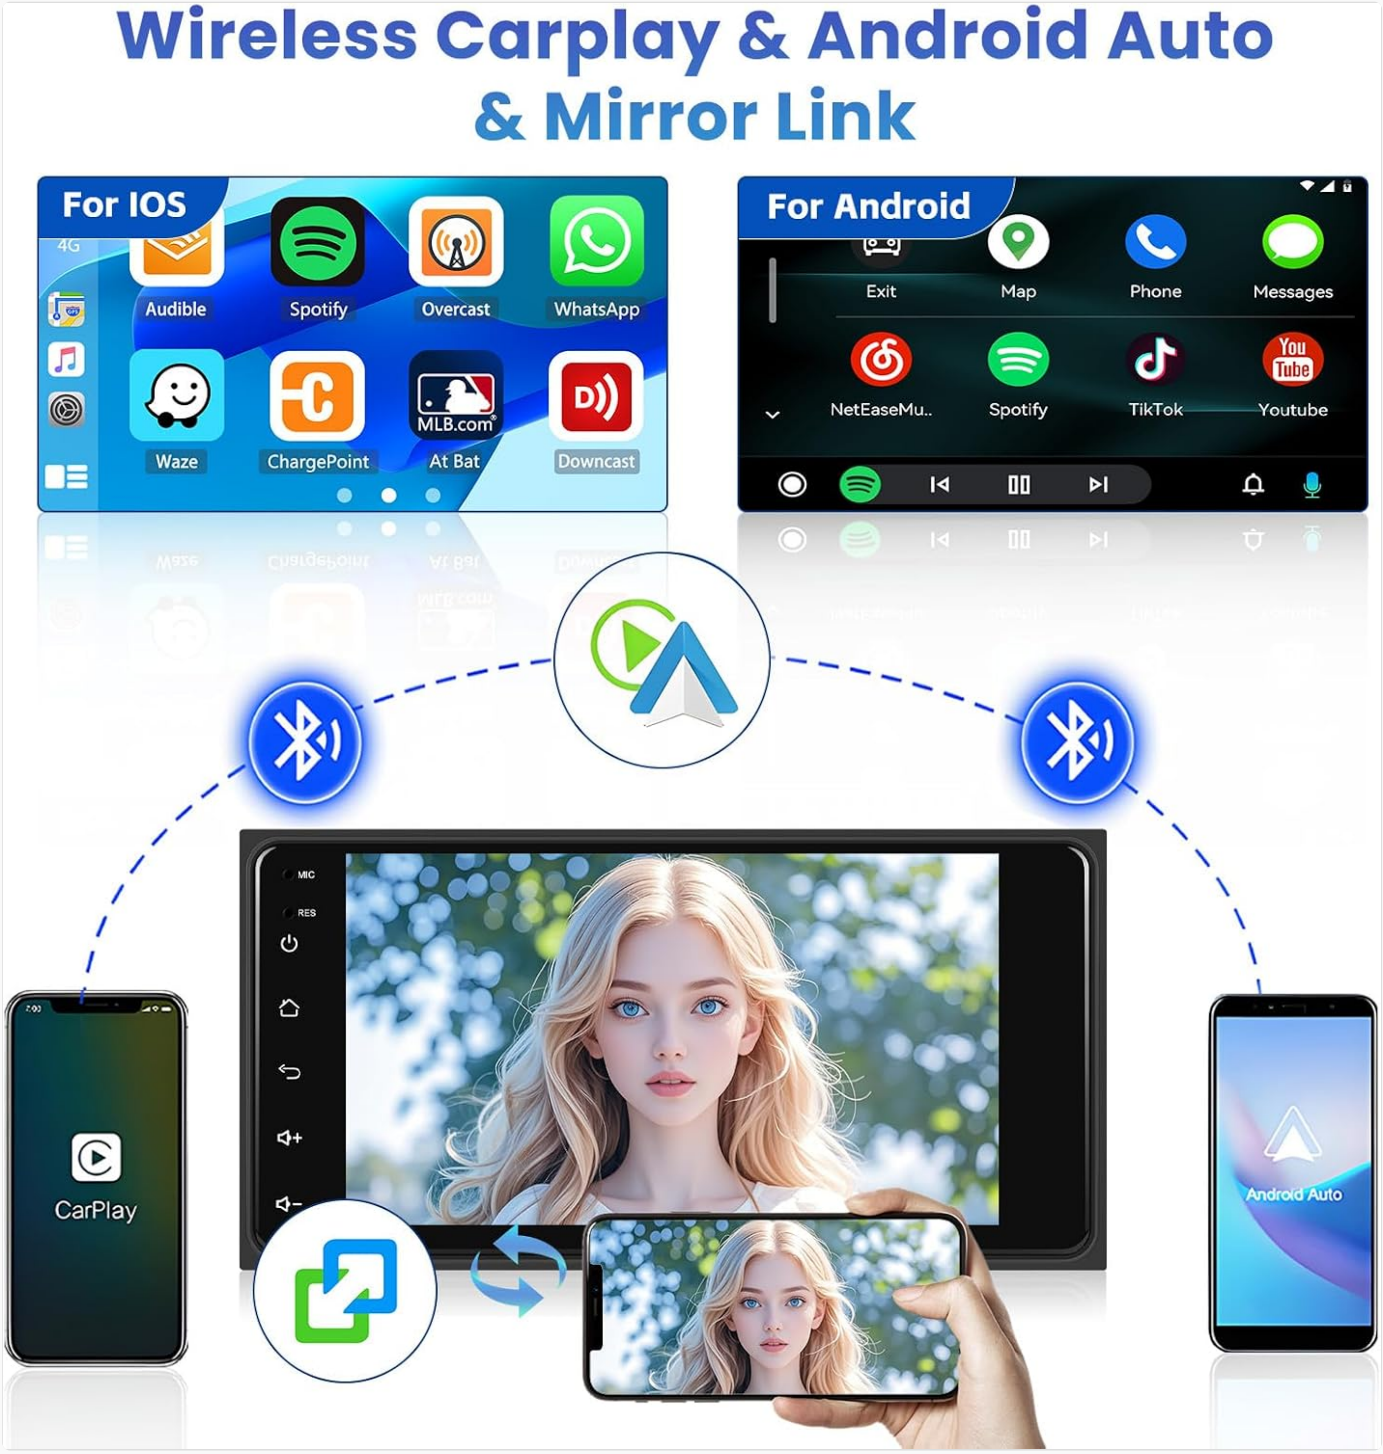

Image: Bluetooth hands-free calling and music playback interface.

5.5 FM/RDS Radio

Access your favorite radio stations with the built-in FM/RDS tuner.

- Select the 'Radio' application from the main menu.
- Use the scan function to find available stations or manually tune to a frequency.
- Save frequently used stations as presets.

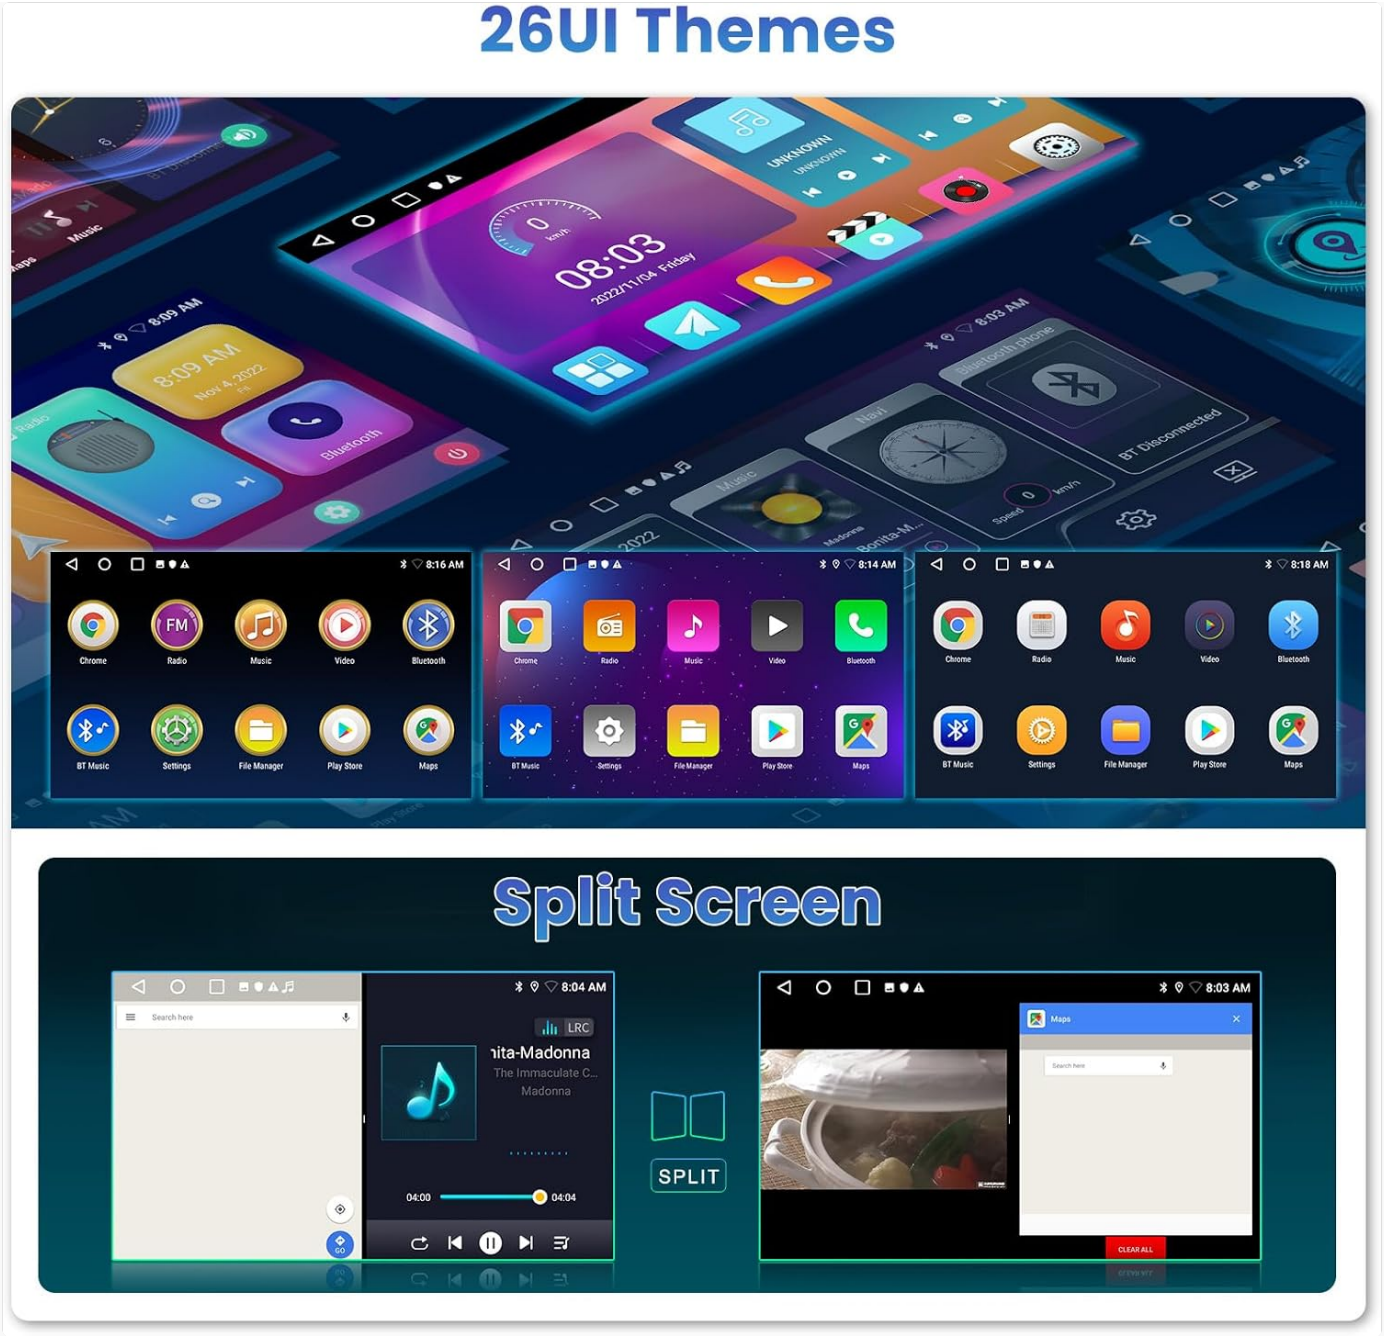

Image: FM/RDS radio interface with frequency and preset options.

5.6 EQ Audio Settings

Customize your audio experience using the equalizer settings.

- Access the 'EQ' or 'Sound Settings' application.
- Choose from predefined modes like Pop, Rock, or create your own custom profile.

Image: Equalizer settings for personalized audio output.

5.7 Split Screen Functionality

The split-screen feature allows you to use two applications simultaneously, such as navigation and music playback.

- Open the first application.
- Long-press the recent apps button or follow specific UI gestures to activate split-screen mode.
- Select the second application to display alongside the first.

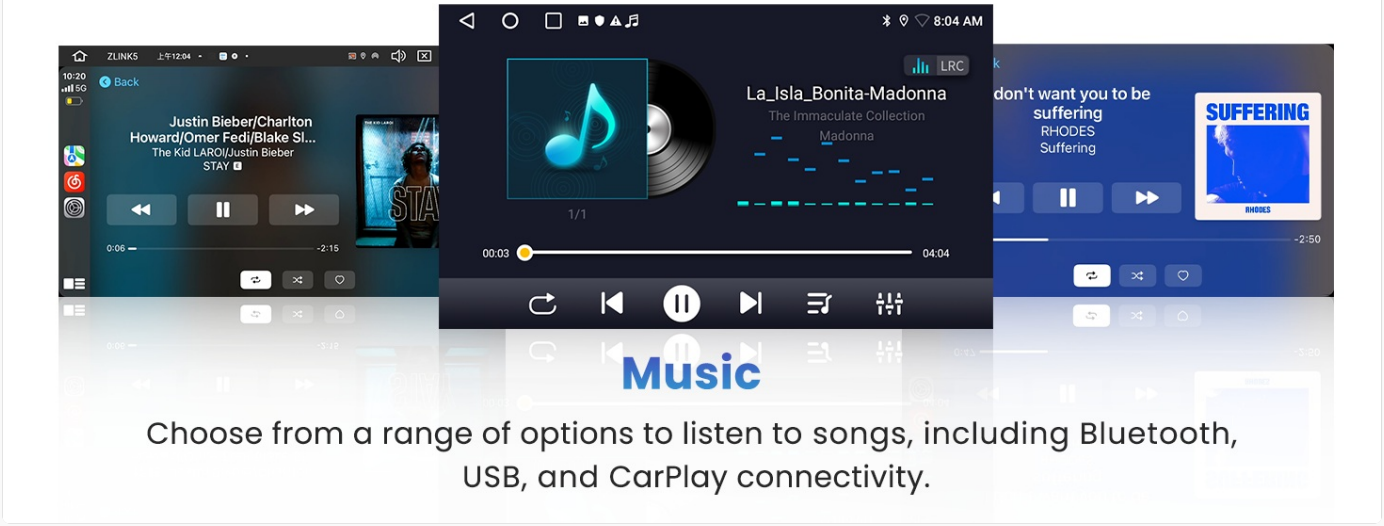

Image: Split-screen mode displaying two applications concurrently.

5.8 General Function Operation

For a comprehensive overview of the unit's functions and operations, refer to the following video demonstration:

Your browser does not support the video tag.

Video: A detailed demonstration of various functions and operations of the Inefala Android Car Radio.

6. Maintenance

- **Cleaning the Screen:** Use a soft, lint-free cloth to clean the touchscreen. Do not use abrasive cleaners or solvents.
- **Software Updates:** Periodically check for software updates through the system settings to ensure optimal performance and access to new features.
- **Environmental Conditions:** Avoid exposing the unit to extreme temperatures, direct sunlight for prolonged periods, or excessive moisture.

7. Troubleshooting

If you encounter any issues, please refer to the following common troubleshooting steps:

- **No Power:** Check all power connections and ensure the vehicle's ignition is on. Verify fuses are intact.
- **No Sound:** Check volume settings, audio source selection, and speaker connections. Ensure the mute function is not active.
- **GPS Signal Issues:** Ensure the GPS antenna is properly installed and has a clear view of the sky.
- **Bluetooth Pairing Failure:** Ensure both devices are in pairing mode and within range. Try restarting both the car radio and your phone.
- **Touchscreen Unresponsive:** Try restarting the unit. If the issue persists, a factory reset might be necessary (note: this will erase all user data).
- **Backup Camera Not Displaying:** Verify the camera's power and video signal connections. Ensure the reverse gear signal wire is correctly connected.

For persistent issues, please contact customer support.
