CAMECHO Android Car Radio Instruction Manual

FOR HYUNDAI SANTA FE IX45 (2013-2018)

1. Setup

1.1 Pre-Installation Check

Before proceeding with installation, verify that your vehicle's model, year, and central console shape match the product specifications. This unit is designed for Hyundai Santa Fe IX45 models from 2013 to 2018. Ensure your car's central control panel matches Option A as shown in the image below.

For Hyundai Santa Fe IX45 2013-2018

Before purchasing, please select the product based on your original car's central control panel. This product only supports Option A. If you require Option B, please contact us for suitable recommendations.

1.3 Wiring and Installation

Refer to the provided wiring diagram for correct connection of all cables, including power, RCA, USB, GPS antenna, reversing camera, and radio antenna. Ensure all connections are secure before powering on the device.

2. Operating Instructions

2.1 Wireless CarPlay & Android Auto

Connect your smartphone wirelessly via Bluetooth to enable CarPlay or Android Auto. This allows access to navigation, music, calls, messages, and other apps directly from the car stereo's 9-inch touch screen. Voice control is supported for hands-free operation.

2.2 GPS Navigation & WiFi Connectivity

The head unit features built-in GPS with preloaded offline maps, allowing navigation without a smartphone connection. For online navigation and app downloads, connect to a WiFi hotspot. The device supports various navigation apps and social platforms via the Play Store.

GPS Navigation

Support online and offline GPS. Real-time road conditions help avoid traffic jams and getting lost.

WiFi Connection

High-speed Internet access, download apps, shop online, and play music, so you won't be tired of driving.

2.3 Bluetooth 5.0 & FM/RDS Radio

Utilize Bluetooth 5.0 for hands-free calling and intelligent music playback from your phone. The integrated FM/RDS radio allows tuning into 18 preset stations for real-time traffic, news, and weather updates.

Steering Wheel Control

Quickly switch songs/answer calls, etc., allowing you to concentrate more on driving

Rear View Image Input

With backup camera, automatically switch to reserve images while you shift the reserve gear.

Image: Bluetooth and FM/RDS Radio functions.

2.4 Split Screen Function

The split screen feature allows you to run two applications simultaneously on the 9-inch display, such as navigation and music, for convenient multitasking.

Split Screen Function

Split screen display, simple and convenient operation.

Image: Split screen functionality demonstration.

2.5 Steering Wheel Control & AHD Rear View Camera

The unit supports steering wheel controls, enabling you to manage music and calls without diverting attention from the road. It is compatible with an AHD rear view camera, which automatically displays the backup image when reversing.

Bluetooth

Through BT, we can listen to music or answer hands-free calls while navigating, which greatly reduces driving risks.

FM/RDS Radio

Online music can be transmitted to the car stereo through FM/RDS radio to enjoy the original car stereo.

3. Maintenance

To ensure optimal performance and longevity of your CAMECHO Android Car Radio, follow these maintenance guidelines:

- Screen Cleaning:** Use a soft, lint-free cloth slightly dampened with water or a screen cleaner. Avoid harsh chemicals or abrasive materials.
- Software Updates:** Periodically check for software updates through the device's settings to ensure you have the latest features and security patches.
- Environmental Conditions:** Avoid exposing the unit to extreme temperatures, direct sunlight for prolonged periods, or excessive moisture.

4. Troubleshooting

If you encounter issues with your CAMECHO Android Car Radio, refer to the following common problems and solutions:

- **No Power:** Check all power connections and ensure the vehicle's ignition is on. Verify the fuse is intact.
- **No Sound:** Check speaker connections, volume levels, and audio settings. Ensure the correct audio output mode is selected.
- **Bluetooth/CarPlay/Android Auto Connectivity Issues:** Ensure Bluetooth is enabled on both the radio and your phone. Try unpairing and re-pairing the devices. For wireless CarPlay/Android Auto, ensure your phone's hotspot is active and connected to the radio.
- **GPS Signal Loss:** Ensure the GPS antenna is properly installed and has a clear view of the sky.
- **Touch Screen Unresponsive:** Try restarting the device. If the issue persists, a touch screen recalibration might be necessary (refer to advanced settings).

For persistent issues or technical assistance, please contact CAMECHO customer support.
