

invens Note 12P

invens Note 12P Smartphone User Manual

Model: Note 12P | Brand: invens

1. GETTING STARTED

1.1 Package Contents

Verify that your package contains the following items:

- invens Note 12P Smartphone
- USB Cable
- Charger
- Protective Case
- User Manual (this document)
- SIM Ejector Pin

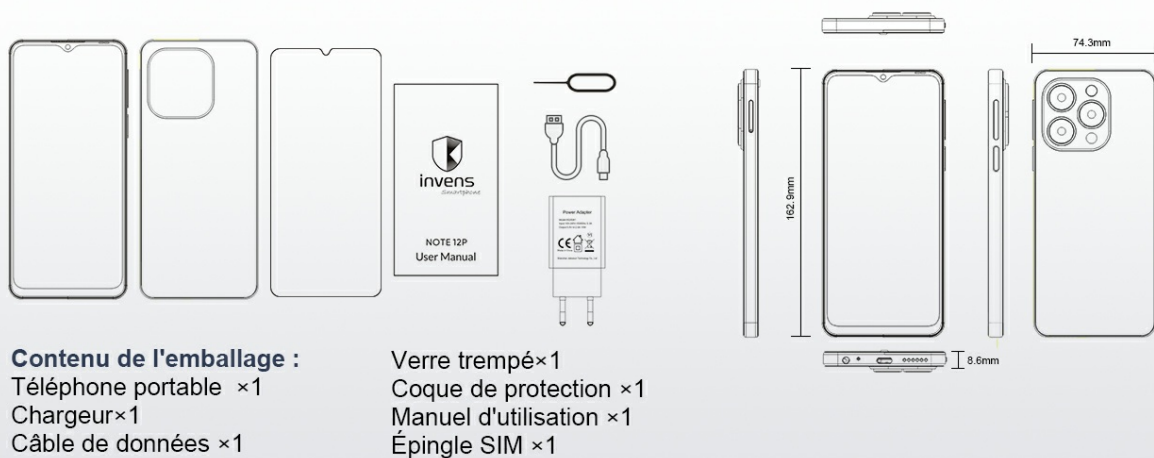

Image: Contents of the invens Note 12P retail package.

1.2 SIM Card and TF Card Installation

The invens Note 12P supports dual Nano-SIM cards and one TF (microSD) card for expandable storage. Follow these steps to

install them:

1. Locate the SIM card tray on the side of your phone.
2. Insert the SIM ejector pin into the small hole next to the tray and press gently until the tray pops out.
3. Place your Nano-SIM cards (SIM1 and SIM2) and the TF card into their respective slots on the tray. Ensure the gold contacts face downwards.
4. Carefully push the tray back into the phone until it clicks into place.

Plus de Mémoire, Plus de Liberté

Gérez les applications, jeux et médias sans effort avec **16 Go** (4+12) de RAM, **128 Go** de stockage et une mémoire extensible de **256 Go**.

2.6 Battery Management

The 5000mAh battery provides reliable all-day power. Optimize battery life using the built-in battery saver modes and monitor usage through the settings.

Image: Battery saving and usage features.

2.7 Security Features

Unlock your phone quickly and securely using Face ID or the side-mounted fingerprint sensor.

- **Face ID:** Register your face for convenient unlocking.
- **Fingerprint Sensor:** Register your fingerprint for quick and secure access.

Image: Face ID and Fingerprint sensor for secure unlocking.

2.8 Connectivity

The invens Note 12P offers multiple connectivity options:

- **Dual SIM:** Use two Nano-SIM cards simultaneously.
- **Wi-Fi:** Supports 2.4GHz and 5GHz Wi-Fi for fast internet access.
- **Bluetooth 5.0:** For connecting wireless accessories.
- **USB Type-C:** For charging and data transfer.

- **3.5mm Headphone Jack:** For wired audio.
- **GPS:** Supports GPS, GLONASS, Beidou, and Galileo for accurate navigation.
- **OTG:** On-The-Go functionality for connecting USB devices.

3. MAINTENANCE

3.1 Charging Your Device

Use the provided USB cable and charger to charge your invens Note 12P. Connect the USB-C end to your phone and the other end to the power adapter, then plug it into a wall outlet. Avoid using damaged chargers or cables.

3.2 Software Updates

Regularly check for software updates to ensure your device has the latest features, security patches, and performance improvements. Go to **Settings > System > System update** to check for available updates.

3.3 Cleaning and Care

To clean your phone, use a soft, lint-free cloth. Avoid using harsh chemicals, abrasive materials, or excessive moisture. The device is not waterproof, so keep it away from liquids.

3.4 Storage Management

To maintain optimal performance, regularly manage your phone's storage. Delete unnecessary files, uninstall unused apps, and move large media files to the TF card or cloud storage.

4. TROUBLESHOOTING

If you encounter issues with your invens Note 12P, try the following troubleshooting steps:

- **Device not turning on:** Ensure the battery is charged. Connect the charger and wait a few minutes before attempting to power on again.
- **Screen unresponsive:** Try restarting the device by holding the power button for about 10-15 seconds until it reboots.
- **Apps crashing or freezing:** Close the problematic app and reopen it. If the issue persists, clear the app's cache (**Settings > Apps > [App Name] > Storage & cache > Clear cache**).
- **Poor battery life:** Check battery usage in settings to identify power-hungry apps. Reduce screen brightness, disable unnecessary features like GPS or Bluetooth when not in use, and enable battery saver mode.
- **Network connectivity issues:** Toggle Airplane Mode on and off. Check your SIM card installation. Reset network settings (**Settings > System > Reset options > Reset Wi-Fi, mobile & Bluetooth**).
- **Device running slow:** Free up storage space, close background apps, and restart your phone.
- **Factory Reset:** As a last resort, you can perform a factory data reset. **WARNING: This will erase all data on your phone. Back up important data before proceeding.** Go to **Settings > System > Reset options > Erase all data (factory reset)**.

For further assistance, please refer to the support section.
