## 1. INTRODUCTION

This manual provides detailed instructions for the Generic Portable Voice Language Translator Device. This device is designed for instant two-way translation across 35 languages, facilitating communication in various scenarios such as travel, business, and learning. It features real-time and accurate audio translation with a long standby time.

Key features include:

- Real-time two-way translation in 35 languages.
- Support for Wi-Fi and mobile hotspot connections.
- Long standby time of approximately 144 hours.
- Clear and accurate human voice output.
- Portable design for convenience.

## 2. SETUP

### 2.1. Charging the Device

Before initial use, fully charge the translator device. Connect the provided USB charging cable to the device's charging port and a compatible USB power adapter. A full charge typically takes approximately 2 hours. The device offers 8-12 hours of continuous use and up to 144 hours of standby time on a single charge.

### 2.2. Powering On/Off

- **To Power On:** Press and hold the Power button (usually located on the side or top) for a few seconds until the screen illuminates.
- **To Power Off:** Press and hold the Power button until a power-off option appears on the screen. Select "Power Off" to shut down the device.

### 2.3. Network Connection

The translator requires an internet connection for real-time translation. You can connect it via Wi-Fi or a mobile hotspot.

1. From the main menu, navigate to "Settings".
2. Select "Wi-Fi" or "Hotspot".
3. For Wi-Fi: Turn on Wi-Fi, select your desired network from the list, and enter the password if prompted.
4. For Hotspot: Turn on the hotspot feature on your mobile phone and connect the translator to it following the on-screen instructions.

## 3. OPERATING INSTRUCTIONS

### 3.1. Language Selection

The device supports 35 languages for instant translation. To select languages:

1. On the main translation screen, you will see two language indicators, typically labeled "A" and "B".
2. Tap on either language indicator to open the language selection menu.
3. Scroll through the list and select your desired source and target languages. Ensure the correct languages are set for each button.

### 3.2. Two-Way Instant Translation

The device facilitates instant two-way translation. Each side of the conversation speaks into the device, and it translates in real-time.

- **For Language A to B:** Press and hold the designated button for Language A (e.g., the left button). Speak clearly into the microphone. Release the button when you finish speaking. The device will translate and play the audio in Language B.
- **For Language B to A:** Press and hold the designated button for Language B (e.g., the right button). Speak clearly into the microphone. Release the button when you finish speaking. The device will translate and play the audio in Language A.

**Figure 1:** Demonstrating instant mutual translation. The image shows the device being held by two hands, with text bubbles illustrating a two-way conversation being translated between Chinese and English. This highlights the device's core functionality for real-time communication.

### 3.3. Usage Scenarios

This portable translator is an effective tool for various situations:

- **Travel:** Communicate with locals, ask for directions, or order food.
- **Business:** Facilitate negotiations and meetings with international partners.
- **Learning:** Practice speaking and understanding foreign languages.
- **Shopping:** Understand product descriptions and prices in foreign markets.

**Figure 2:** Multi-scene application of the translator. This image illustrates the versatility of the device across different environments, including shopping, business interactions, and travel, demonstrating its utility in daily life and professional settings.

## 4. MAINTENANCE

Proper care ensures the longevity and optimal performance of your translator device.

- **Cleaning:** Use a soft, dry, lint-free cloth to clean the device. Do not use liquid cleaners or aerosols.
- **Storage:** Store the device in a cool, dry place away from direct sunlight and extreme temperatures.
- **Water Resistance:** The device is not waterproof. Avoid exposure to water or high humidity.
- **Battery Care:** To maintain battery health, avoid fully discharging the battery frequently. Charge the device regularly, even if not in use for extended periods.

## 5. TROUBLESHOOTING

Problem	Possible Cause	Solution
Device does not power on.	Low battery or device frozen.	Charge the device for at least 30 minutes. If still unresponsive, perform a hard reset (refer to device manual for specific instructions, usually holding power button for 10+ seconds).
Translation is inaccurate or slow.	Poor internet connection, unclear speech, or incorrect language settings.	Ensure a stable Wi-Fi or hotspot connection. Speak clearly and at a moderate pace. Verify that the correct source and target languages are selected.
Cannot connect to Wi-Fi.	Incorrect password, out of range, or network issue.	Double-check the Wi-Fi password. Move closer to the Wi-Fi router. Restart the Wi-Fi router and the translator device.
No audio output.	Volume too low or muted.	Check the device's volume settings and ensure it is not muted.

## 6. SPECIFICATIONS

- **Model:** Instant Two-Way Portable Translator
- **Supported Languages:** 35 languages for real-time translation
- **Connectivity:** Wi-Fi, Mobile Hotspot
- **Battery Life:** Approximately 8-12 hours continuous use, 144 hours standby
- **Charging Time:** Approximately 2 hours
- **Manufacturer:** Ixianlanmee
- **ASIN:** B0FRFZ2797
