## Garvee BLOWERS-M

# Garvee 20V Cordless Leaf Blower Instruction Manual

Model: BLOWERS-M

## 1. INTRODUCTION

Thank you for choosing the Garvee 20V Cordless Leaf Blower. This manual provides essential information for the safe and efficient operation, maintenance, and troubleshooting of your new tool. Please read this manual thoroughly before initial use and retain it for future reference.

## 2. SAFETY INFORMATION

Always prioritize safety when operating power tools. Failure to follow these instructions may result in serious injury or property damage.

## General Safety Guidelines:

- Read all instructions before operating the leaf blower.
- Wear appropriate personal protective equipment (PPE), including eye protection, hearing protection, and sturdy footwear.
- Keep children, bystanders, and pets at a safe distance (at least 15 meters / 50 feet) from the operating area.
- Do not operate the blower in wet conditions or near flammable liquids or gases.
- Inspect the blower for any damage before each use. Do not operate if damaged.
- Ensure all vents are clear of debris to prevent overheating.

## Battery Safety:

- Use only the specified Garvee 20V 4.0Ah battery and charger.
- Do not expose the battery to water, extreme temperatures, or direct sunlight.
- Store the battery in a cool, dry place away from metal objects.
- Do not short-circuit the battery terminals.
- If the battery is damaged or leaking, discontinue use immediately and dispose of it properly according to local regulations.

## 3. WHAT'S IN THE BOX

---

Your Garvee 20V Cordless Leaf Blower package includes the following components:

- Garvee Cordless Leaf Blower Unit
- 20V 4.0Ah Li-ion Battery
- Fast Charge Base
- User Manual (this document)

## 4. SETUP AND ASSEMBLY

---

The Garvee Leaf Blower is designed for quick and easy assembly.

1. **Attach the Blower Tube:** Align the blower tube with the main unit's outlet. Push firmly until it clicks into place, ensuring a

secure connection.

2. **Insert the Battery:** Slide the 20V 4.0Ah battery into the battery slot on the main unit until it locks securely. Ensure the battery is fully charged before first use.

## 5. CHARGING THE BATTERY

The included 4.0Ah battery features fast-charging technology, allowing for a full charge in approximately 60 minutes.

1. **Remove Battery:** Press the battery release button and slide the battery out of the blower unit.
2. **Connect Charger:** Plug the fast charge base into a standard electrical outlet.
3. **Charge Battery:** Slide the battery onto the fast charge base. The LED indicator on the charger will show the charging status. A full charge is indicated when all lights are solid green.

## 6. OPERATING INSTRUCTIONS

Operating your Garvee Leaf Blower is straightforward. Always ensure the area is clear of people and obstacles before starting.

### Powering On and Speed Modes:

- **Start:** Press and hold the trigger to start the blower.
- **Speed Adjustment:** The blower features two speed modes. Use the speed selector switch (often located near the handle) to toggle between Speed 1 (100 MPH) for lighter debris and Speed 2 (200 MPH) for heavier, wet leaves or stubborn debris.
- **Stop:** Release the trigger to turn off the blower.

Image 5: Illustration of the 2-speed adjustment and battery status display on the leaf blower.

## Usage Tips:

- Work in sections, blowing debris into manageable piles.
- For optimal performance, hold the blower at an angle to the ground to lift and move debris effectively.
- Avoid blowing directly into flowerbeds or delicate plants.

## 7. MAINTENANCE

Regular maintenance ensures the longevity and optimal performance of your leaf blower.

- **Cleaning:** After each use, wipe down the exterior of the blower with a damp cloth. Ensure all air vents are free from dust and debris. Do not use harsh chemicals.
- **Storage:** Store the leaf blower and battery in a cool, dry place, away from direct sunlight and moisture. Detach the battery from the blower for long-term storage.
- **Battery Care:** For extended battery life, fully charge the battery before storing it for long periods and recharge it every 3-6 months if not in use.

## 8. TROUBLESHOOTING

If you encounter issues with your Garvee Leaf Blower, refer to the following common troubleshooting steps:

Problem	Possible Cause	Solution
Blower does not start	Battery not inserted correctly or not charged.	Ensure battery is fully charged and securely inserted.
Reduced airflow	Air intake or blower tube blocked.	Clear any debris from the air intake and blower tube.

Problem	Possible Cause	Solution
Blower stops unexpectedly	Battery overheated or low charge.	Allow battery to cool down or recharge. Check for proper ventilation.

If the issue persists after attempting these solutions, please contact Garvee customer support.

## 9. SPECIFICATIONS

---

Key technical specifications for the Garvee 20V Cordless Leaf Blower:

- **Brand:** Garvee
- **Model Name:** BLOWERS-M
- **Power Source:** Battery Powered
- **Voltage:** 20 Volts (DC)
- **Battery Capacity:** 4.0Ah Li-ion
- **Max Airflow:** 650 CFM
- **Max Wind Speed:** 200 MPH
- **Speed Modes:** 2 (100 MPH, 200 MPH)
- **Charging Time:** Approximately 1 hour (with fast charger)
- **Runtime:** 30-40 minutes (depending on speed mode and usage)
- **Item Weight:** 4 Pounds
- **Product Dimensions:** 36"L x 7"W x 12"H
- **Special Feature:** Portable, Ergonomic Design, Overheat Protection
