AWESAFE B0FRMK4C1F

AWESAFE 2DIN Car Stereo User Manual

Model: B0FRMK4C1F

INTRODUCTION

Thank you for choosing the AWESAFE 2DIN Car Stereo. This manual provides essential information for the proper installation, operation, and maintenance of your new car stereo system. Please read this manual thoroughly before use to ensure optimal performance and safety. This unit features a 7-inch HD touchscreen, wireless CarPlay and Android Auto, Bluetooth connectivity, FM radio, and supports a reversing camera.

WHAT'S IN THE BOX

Verify that all items listed below are included in your package:

- AWESAFE 2DIN Car Stereo Unit
- External Microphone
- Reversing Camera
- Power Cable Harness
- Mounting Brackets (2)
- Screwdriver
- Pry Tool
- Mounting Screws

INSTALLATION

General Installation Notes

- Ensure the vehicle's battery is disconnected before starting installation.
- Refer to your vehicle's specific dashboard removal instructions.
- Use appropriate tools to avoid damage to your vehicle's interior.
- Professional installation is recommended if you are unfamiliar with car audio wiring.

This visual comparison demonstrates how the AWESAFE 2DIN car stereo integrates into a standard car dashboard, showing the transformation from an older unit to the new touchscreen system.

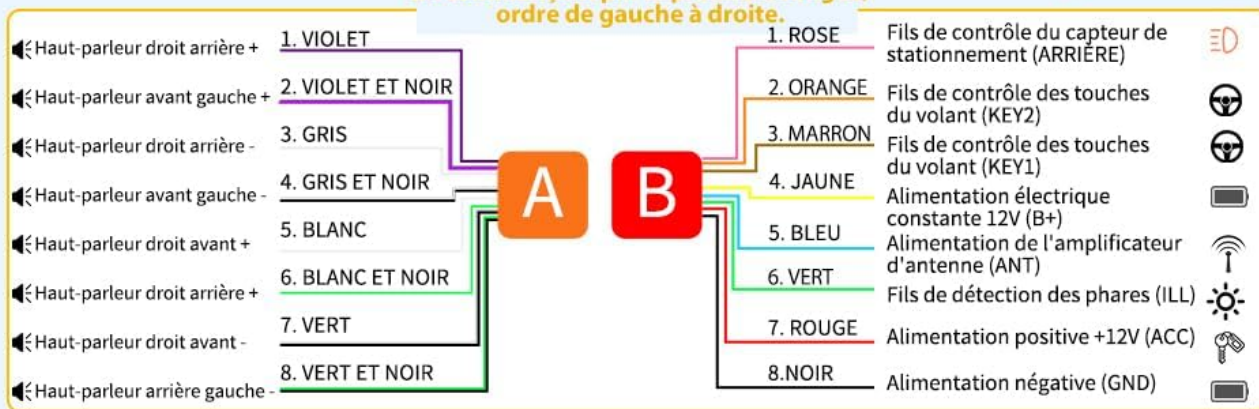

Wiring Diagram

Carefully follow the wiring diagram for correct connections. Incorrect wiring can damage the unit or your vehicle's electrical system.

Diagramme de définition de câble

En commençant par la première rangée,
ordre de gauche à droite.

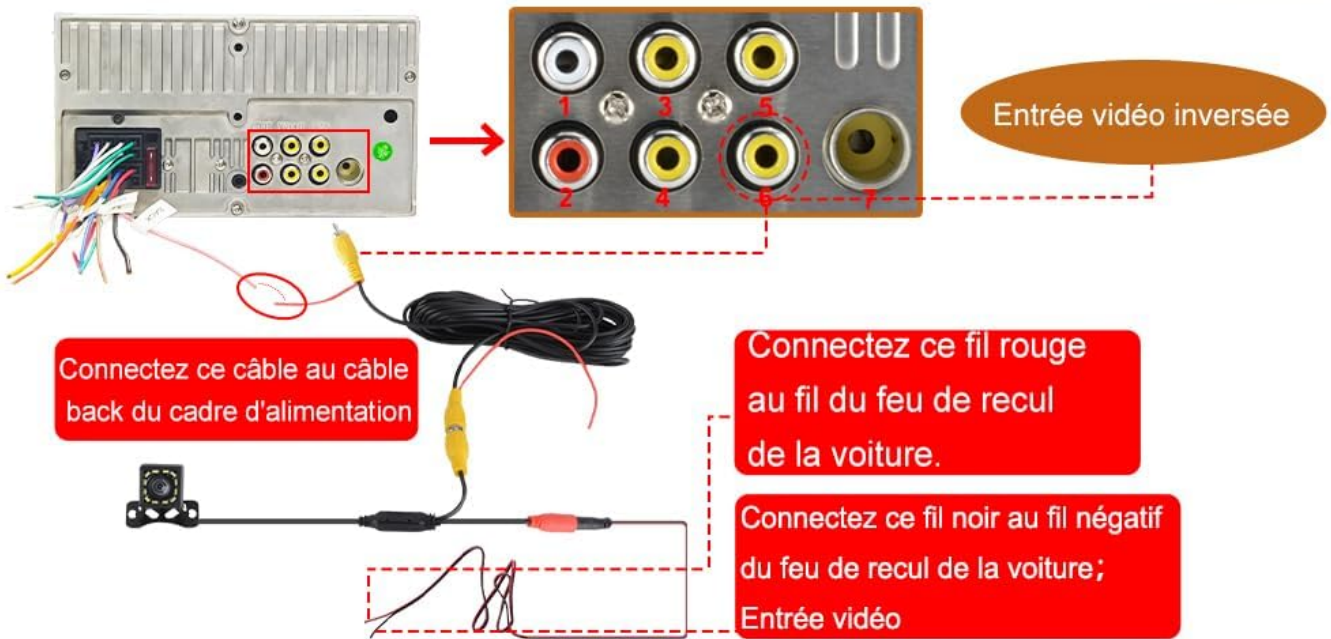

This diagram provides a detailed guide for connecting the car stereo, including power, speakers, and auxiliary inputs/outputs. Ensure each wire is connected to its corresponding function.

Reversing Camera Installation

The included reversing camera provides parking assistance. Connect the camera's video output to the 'Video In' port on the stereo. The camera's power wire (red) should connect to the vehicle's reverse light power, and the ground wire (black) to a chassis ground.

Caméra de recul et assistance de recul

When reversing, the screen automatically displays the rear camera feed, providing parking assistance. The image also details the wiring connections for the camera.

Steering Wheel Control Connection

Connect the steering wheel control wires (Key-1, Key-2) from the stereo harness to your vehicle's steering wheel control wires. Configuration may be required in the stereo's settings menu. This unit does not support CANbus systems.

OPERATING INSTRUCTIONS

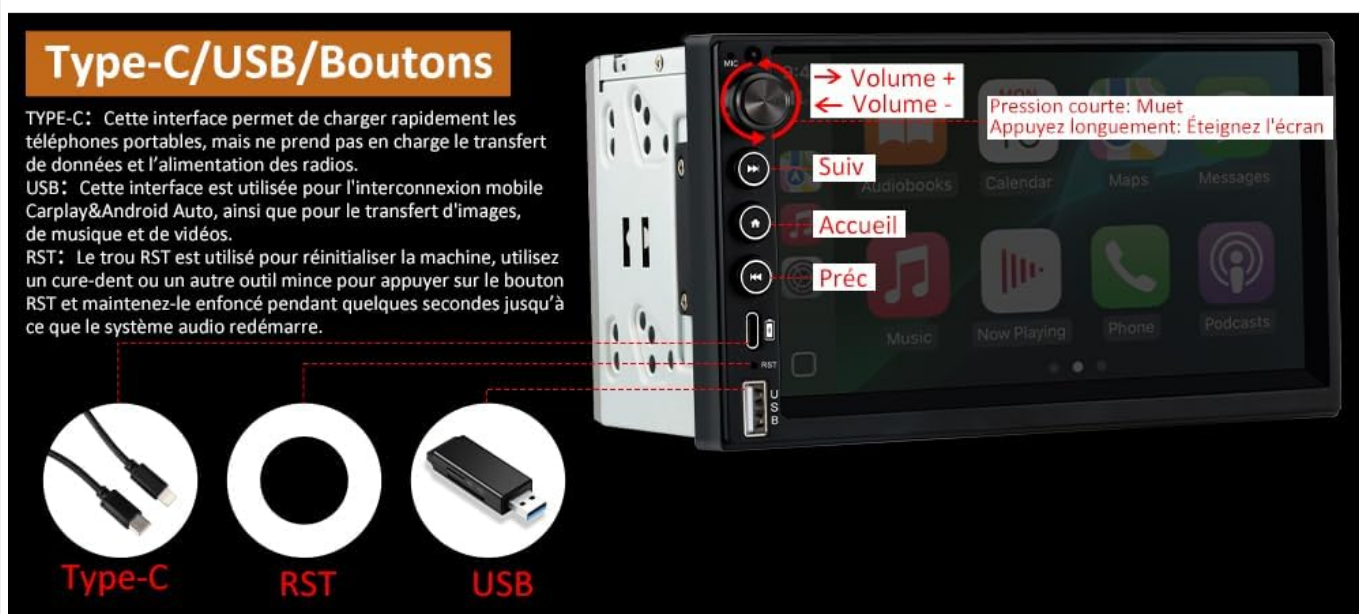

Basic Controls

The unit features a responsive 7-inch HD touchscreen for most operations. A physical rotary knob allows for quick volume adjustments and menu navigation. Side buttons provide shortcuts for common functions like Home, Back, and Mute.

FM radio

L'antenne radio n'est pas incluse dans l'emballage, veuillez utiliser l'antenne radio de la voiture d'origine. Choisissez parmi une variété de groupes et d'effets sonores (jazz, classique, rock, pop, pastel)

The physical buttons on the side provide quick access to volume, track changes, and menu navigation. The USB and Type-C ports are also visible for media playback and charging.

Wireless CarPlay & Android Auto

Connect your iPhone or Android smartphone wirelessly via Bluetooth and Wi-Fi for seamless access to CarPlay or Android Auto. This allows you to use navigation, make calls, send messages, and listen to music directly from your phone's interface on the stereo screen. Wired connection via USB is also supported for stable performance.

Carplay & Android Auto Sans fil

This image illustrates the wireless CarPlay and Android Auto functionalities, allowing seamless integration of your smartphone for navigation, music, and calls.

Bluetooth Connectivity

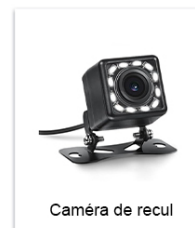

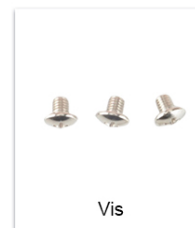

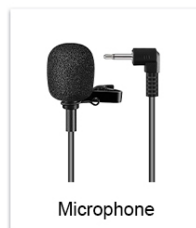

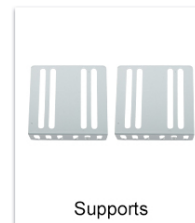

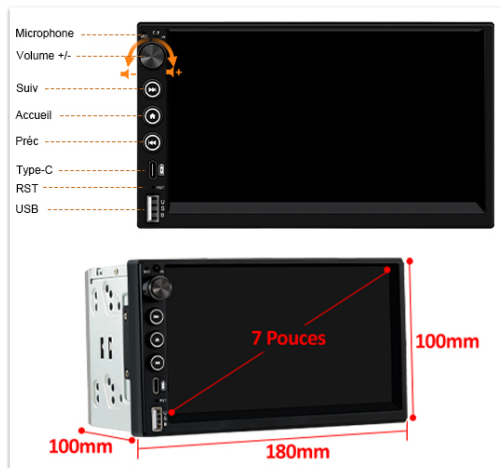

Pair your smartphone via Bluetooth for hands-free calling and audio streaming. The external HD microphone ensures clear call quality. Access your phone's contacts and call history directly from the stereo. Voice assistant (Siri) is accessible for music, calls, and navigation.

The stereo supports Bluetooth for hands-free calling and music streaming. It also shows the menu for configuring steering wheel controls.

FM Radio

The built-in AM/FM tuner allows you to listen to your favorite radio stations. Save up to 18 preset stations for quick access. Stay updated with live traffic and weather information. The multi-style equalizer allows you to customize your audio experience with modes like Rock, Jazz, Pop, and Classical.

The image displays the FM radio tuning screen alongside the multi-style equalizer, which allows users to customize audio output with presets like Rock, Jazz, Pop, and Classical.

Mirror Link (iOS Airplay & Android Mirror Link)

Mirror Link functionality allows you to display your smartphone's screen directly onto the car stereo. This is useful for viewing videos, maps, and other applications not natively supported by CarPlay or Android Auto.

iOS Airplay

To use iOS Airplay, open the 'Conn.Mob' application on the stereo, activate Wi-Fi on your iPhone, and connect to the stereo's Wi-Fi network (e.g., Carplay_wifi_xxxx). Then, select the stereo from your iPhone's screen mirroring options.

Mirror Link d'Android

1 Ouvrez « Application » et cliquez sur « Conn.Mob »

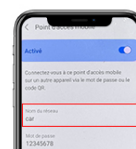

2 Cliquez sur cette icône.

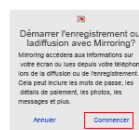

3 Scannez le code QR pour télécharger ce logiciel.

4 Désactivez le WiFi de votre téléphone et activez le point d'accès de votre téléphone.

5 Réglez le nom du point d'accès sur « Voiture »

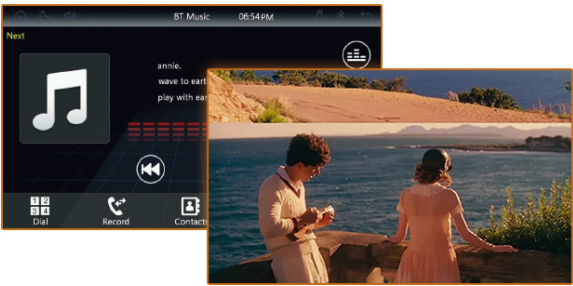

6 Ouvrez le logiciel que vous venez de télécharger sur votre téléphone et cliquez sur Connecter.

A step-by-step guide illustrating how to connect an iOS device to the car stereo using Airplay for screen mirroring, allowing content from your iPhone to be displayed on the stereo screen.

Android Mirror Link

For Android Mirror Link, open the 'Conn.Mob' application, scan the QR code to download the necessary software on your phone. Disable your phone's Wi-Fi and activate its hotspot. Set the hotspot name to 'Car' and then open the downloaded software on your phone to connect.

Lecture d'images audio-vidéo ainsi que des lumières à sept couleurs

USB : L'appareil peut lire des vidéos/photos/musique via USB.
TYPE-C : Cette interface est limitée aux appareils de charge tels que les téléphones portables et ne peut pas être utilisée pour transmettre des informations

lumières à sept couleurs: Vous pouvez choisir une couleur comme couleur de la lumière principale dans les paramètres à volonté, ou vous pouvez parcourir sept couleurs. Les touches éclairées vous offrent un grand confort d'utilisation la nuit

A step-by-step guide demonstrating how to connect an Android device to the car stereo using Mirror Link, enabling screen mirroring for various applications.

Ambient Lighting

Customize the aesthetic of your car's interior with 7-color ambient lighting options. Choose your preferred backlight color or activate the 7-color cycle mode. The illuminated buttons enhance usability during night driving.

TROUBLESHOOTING

- **No Power:** Check all power connections, including the fuse. Ensure the ACC wire is correctly connected to a switched 12V source.
- **No Sound:** Verify speaker connections. Check the volume level and mute settings. Ensure the correct audio source is selected.
- **Bluetooth Connection Issues:** Ensure Bluetooth is enabled on both the stereo and your phone. Delete previous pairings and try reconnecting.
- **CarPlay/Android Auto Not Connecting:** For wireless, ensure Bluetooth and Wi-Fi are active. For wired, try a different USB cable (preferably the original phone cable). Some Android phones may require specific settings or may not be fully compatible.
- **Poor Microphone Quality:** Ensure the external microphone is properly connected and positioned away from air vents or other noise sources.
- **Rear Camera Not Displaying:** Check the video input connection and ensure the camera's power and ground wires are correctly connected to the reverse light circuit.
- **Micro-cuts in Radio Reception:** Ensure the antenna is properly connected. In some cases, an antenna amplifier may be needed for improved reception.
