## SETUP

### 1. Charging the Headphones and Case

Before first use, fully charge the headphones and the charging case.

- Place the earbuds into the charging case.
- Connect the USB-C charging cable to the charging port on the case and to a power source.
- The display on the charging case will indicate the charging status.
- A full charge provides up to 5 hours of earbud autonomy, extendable with the charging case.

## 2. Pairing with a Device

1. Ensure the earbuds are in the charging case and the case is open.
2. On your device (smartphone, tablet, etc.), enable Bluetooth.
3. Search for "Trevi EAR 100 AID" in the list of available Bluetooth devices.
4. Select it to pair. A voice prompt will confirm successful connection.
5. The headphones use Wireless V5.4 technology for a fast and reliable connection.

## 3. AI COOL App Installation

For AI simultaneous translation and advanced features, download the AI COOL app.

- Scan the QR code found on the charging case or in the product packaging.
- Alternatively, visit <https://www.xuanjjai.cn/app/download> to download the app.
- Follow the on-screen instructions to install and set up the app.

## OPERATING INSTRUCTIONS

---

### 1. Wearing the Earbuds

Select the appropriate ear tips for a comfortable and secure fit. Insert the earbuds gently into your ears and adjust them until they feel snug.

## RIDUZIONE ATTIVA PROFONDA DEL RUMORE ANC

Cancellazione intelligente del rumore esterno fino a **35 dB**, con efficacia di schermatura fino al **99,44%**.

Image: A woman wearing Trevi EAR 100 AID earbuds comfortably while relaxing in a park. This illustrates the in-ear fit and comfort of the headphones.

## 2. Touch Controls on Charging Case Display

The charging case features a touch display for smart controls.

- **Music Playback:** Control play, pause, skip tracks directly from the display.
- **Call Management:** Answer, end, or reject calls.
- **Audio Modes:** Switch between ANC, Transparency, and Normal modes.
- **Equalizer (EQ):** Adjust sound profiles.
- **Find Earbuds:** Use this function to locate misplaced earbuds.

Image: Customizable screen options for the Trevi EAR 100 AID charging case. This image shows four dynamic and one static high-quality display options that can be changed at any time.

### 3. Active Noise Cancellation (ANC) and Transparency Mode

The headphones offer two distinct audio modes for different environments:

- **Active Noise Cancellation (ANC):** Eliminates external noise, providing a quiet listening experience. This mode is ideal for travel or noisy environments, reducing external noise by up to 35 dB with an effectiveness of up to 99.44%.
- **Transparency Mode:** Allows you to hear your surroundings while still enjoying your audio. This is useful for situations where you need to be aware of your environment, such as walking in a city or listening to announcements.

Switch between these modes using the touch controls on the charging case or through the connected app.

Image: A person using Trevi EAR 100 AID earbuds on an airplane, demonstrating the deep active noise reduction (ANC) feature. The image highlights the intelligent external noise cancellation up to 35 dB.

### 4. AI Simultaneous Translation

Utilize the AI COOL app for real-time language translation.

1. Ensure the AI COOL app is installed and connected to your headphones.
2. Open the app and select the desired translation mode (e.g., conversation mode, interpreter mode).
3. Speak into your device's microphone or the earbud's microphone, and the translation will be provided in real-time through the earbuds.
4. This feature is designed for seamless communication across language barriers during travel, work, or multilingual conversations.

## 5. Clear Calls with ENC Technology

The headphones feature Environmental Noise Cancellation (ENC) technology for clear voice calls.

- ENC reduces background noise during calls, making your voice clearer to the person on the other end.
- This technology is optimized for crowded environments, ensuring conversations are clear and free from interference.

Image: A man making a phone call using Trevi EAR 100 AID earbuds. This image illustrates the ENC (Environmental Noise Cancellation) technology for clear calls, optimized for crowded environments.

## MAINTENANCE

- **Cleaning:** Regularly clean the earbuds and charging case with a soft, dry, lint-free cloth. Do not use abrasive cleaners or solvents.
- **Ear Tips:** Remove and clean the ear tips with mild soap and water, then dry thoroughly before reattaching.
- **Storage:** When not in use, store the headphones in their charging case to protect them from dust and damage.
- **Battery Care:** To preserve battery life, avoid fully discharging the battery frequently. Charge the device regularly, even if not in use for extended periods.

## TROUBLESHOOTING

Problem	Possible Solution
Headphones do not turn on.	Ensure the charging case and earbuds are fully charged. Place earbuds in the case and close it, then open again.
Cannot pair with device.	Make sure Bluetooth is enabled on your device. Ensure earbuds are in pairing mode (usually by opening the case). Forget the device from your Bluetooth list and try pairing again.
No sound or low volume.	Check volume levels on both your device and the headphones. Ensure earbuds are properly seated in your ears. Reconnect the Bluetooth connection.
AI Translation not working.	Verify the AI COOL app is installed, updated, and properly connected to the headphones. Check your internet connection for translation services.
Charging issues.	Check the USB-C cable and power adapter. Ensure the charging contacts on the earbuds and case are clean and free of debris.
