HONEYWHALE 6088 Electric Motorcycle  
USER INSTRUCTION MANUAL

- Assembly
- Operation
- Introduction
- Maintenance
- Safety Guidelines
- Troubleshooting
- Setup & Specifications
- Warranty & Support

1. Introduction

Thank you for choosing the HONEYWHALE 6088 Electric Motorcycle. This manual provides essential information for the safe assembly, operation, and maintenance of your new electric motorcycle. Designed for children aged 6 to 12 years, this model offers an engaging riding experience with features like a 300W motor, two-speed modes, Bluetooth connectivity, and a robust suspension system. Please read this manual thoroughly before first use to ensure proper function and safety.

## 2. Safety Guidelines

---

**WARNING:** Failure to follow these safety instructions may result in serious injury or death. Adult supervision is required at all times.

- Always wear a helmet, knee pads, and elbow pads when riding.
- Ensure the rider's age and weight are within the recommended limits (6-12 years, max 60 kg).
- Do not ride on public roads, near motor vehicles, or on steep inclines.
- Avoid riding in wet conditions, at night, or in areas with poor visibility.
- Regularly inspect the motorcycle for loose parts, damaged components, or low tire pressure before each use.
- Keep hands and feet away from moving parts.
- Only use the provided charger for battery charging.

### 3. Setup and Assembly

The HONEYWHALE 6088 Electric Motorcycle requires some assembly upon receipt. A basic installation tool kit is included. For detailed visual guidance, please refer to the official installation video available on the product page or manufacturer's website.

#### 3.1 Initial Charging

1. Connect the charger to the motorcycle's charging port.
2. Plug the charger into a standard electrical outlet.
3. Allow 8-9 hours for a full charge. The charger indicator light will turn green when charging is complete.
4. Do not overcharge the battery.

### 4. Operation

---

## 4.1 Powering On/Off

- To power on, insert the key into the ignition and turn it to the ON position.
- To power off, turn the key to the OFF position and remove it.

## 4.2 Speed Modes

The motorcycle features two selectable speed modes:

- **Low Speed:** Approximately 15 km/h. Recommended for beginners.
- **High Speed:** Approximately 24 km/h. For experienced riders.

Use the speed mode button on the handlebar control panel to switch between modes.

## 4.3 Accelerator and Braking

- **Accelerator:** Twist the right handlebar grip to accelerate.
- **Braking:** The motorcycle is equipped with efficient disc brakes. Squeeze the brake levers on the handlebars to engage the brakes.

## 4.4 Multifunctional Display Panel & Bluetooth

The intelligent display panel shows real-time battery level and mileage. It also supports Bluetooth connectivity for music playback.

- **Bluetooth Connection:** Activate Bluetooth on your mobile device and connect to the motorcycle's system.
- **Music Control:** Use the buttons on the control panel to change music tracks and adjust volume.

## 4.5 LED Lighting

The integrated LED headlights enhance visibility during use. Ensure they are functioning correctly before riding, especially in low-light conditions.

## 5. Maintenance

### 5.1 Battery Care

- Charge the battery fully after each use, even if only used for a short period.
- If storing the motorcycle for an extended period, charge the battery at least once a month to prolong its lifespan.
- Do not expose the battery to extreme temperatures.

### 5.2 Cleaning

Wipe the motorcycle with a damp cloth. Avoid using harsh chemicals or direct water spray, which can damage electrical components.

5.3 Tire Maintenance

Regularly check the 14.1-inch tires for proper inflation and signs of wear or damage. Maintain recommended tire pressure for optimal performance and safety.

6. Troubleshooting

If you encounter issues with your HONEYWHALE 6088 Electric Motorcycle, please refer to the following common solutions:

| Problem | Possible Cause | Solution |
|---------|----------------|----------|
|---------|----------------|----------|

| Problem                       | Possible Cause                                                           | Solution                                                                               |
|-------------------------------|--------------------------------------------------------------------------|----------------------------------------------------------------------------------------|
| Motorcycle does not power on. | Battery is low or not charged; key not in ON position; loose connection. | Charge the battery fully; ensure key is turned to ON; check all connections.           |
| Reduced speed or power.       | Low battery; rider weight exceeds limit; riding on difficult terrain.    | Recharge battery; ensure rider is within weight limit; ride on appropriate surfaces.   |
| Brakes not effective.         | Brake pads worn; brake cable loose.                                      | Inspect brake pads and cables. Contact support if adjustment or replacement is needed. |
| Bluetooth not connecting.     | Bluetooth on device is off; motorcycle's Bluetooth is off; interference. | Ensure Bluetooth is active on both devices; try reconnecting.                          |

If the problem persists after attempting these solutions, please contact HONEYWHALE customer support.

## 7. Product Specifications

| Feature                | Detail                                        |
|------------------------|-----------------------------------------------|
| Model                  | 6088                                          |
| Dimensions (L x W x H) | 125 cm x 56 cm x 81 cm                        |
| Recommended Age        | 6-12 years                                    |
| Recommended Height     | 120-150 cm                                    |
| Maximum Load Capacity  | 60 kg                                         |
| Product Weight         | 20 kg                                         |
| Chassis Material       | Iron + PP Plastic                             |
| Motor Power            | 300 W                                         |
| Maximum Speed          | 24 km/h                                       |
| Rated Voltage          | 24 V                                          |
| Battery Type           | Lead-acid battery                             |
| Battery Capacity       | 8 AH                                          |
| Estimated Range        | 22 kilometers                                 |
| Estimated Usage Time   | 70 minutes                                    |
| Charging Time          | 8-9 hours (green light indicates full charge) |
| Tire Type              | Pneumatic tires                               |
| Tire Size              | 14.1 inches                                   |
| Throttle Control       | Twist grip accelerator                        |
| Braking System         | Disc brakes                                   |

| Feature  | Detail                                                                          |
|----------|---------------------------------------------------------------------------------|
| Features | Bluetooth music, LED lights, Rear shock absorber, Multifunctional display panel |
