ZERTRAN Android Car Stereo for Renault OROCH 2023

ZERTRAN Android Car Stereo User Manual

FOR RENAULT OROCH 2023 (2G 64G)

1. Introduction

This manual provides detailed instructions for the installation, operation, and maintenance of your ZERTRAN Android Car Stereo. This unit is designed specifically for the Renault OROCH 2023 model and features a 9-inch touchscreen, 2GB RAM, and 64GB ROM, offering advanced functionalities like CarPlay, Android Auto, GPS navigation, FM radio, and backup camera support. Please read this manual thoroughly before using the product to ensure proper operation and to maximize your user experience.

2. Safety Information

- Always operate the device responsibly and in accordance with local traffic laws. Distracted driving can lead to accidents.
- Ensure the vehicle is parked safely before attempting any complex operations on the stereo system.
- Professional installation is recommended to prevent damage to the unit or your vehicle's electrical system.
- Do not attempt to disassemble or modify the unit. This may void the warranty and pose safety risks.
- Keep the unit away from water, moisture, and extreme temperatures.
- **Important Note:** If your car has an original factory amplifier, contact the seller before installation. Additional components (CANBUS) may be required for proper functionality, which may incur an extra fee.

3. Package Contents

Verify that all items listed below are included in your package:

- 1x ZERTRAN Android Head Unit (including plastic frame)
- 1x GPS Antenna
- 1x Power Cable
- 2x USB Port Cables
- 1x RCA Expand Cable
- 1x RCA Connector for Backup Camera
- 1x Backup Camera Set

4. Product Features

The ZERTRAN Android Car Stereo offers a range of features to enhance your driving experience:

- **Operating System:** Android System
- **Processor:** Quad Core CPU
- **Memory:** 2GB RAM, 64GB ROM
- **Display:** 9-inch Capacitive IPS Full HD Multi-touch Screen
- **Smartphone Integration:** Built-in Wireless CarPlay & Android Auto
- **Navigation:** GPS Navigation with real-time location capabilities
- **Connectivity:** Internal WiFi, Bluetooth for hands-free calling and audio streaming
- **Multimedia:** Supports 1080P hardware decoding and various audio formats
- **USB Support:** 2 USB input ports, supports USB interface camera and USB DVR
- **Mirror Link:** Supports screen mirroring for Android phones and iPhones
- **Radio:** FM Radio with improved reception
- **Rear View:** Supports car rear view camera input (universal camera included)
- **Control:** Steering Wheel Control (SWC) compatibility
- **Language Support:** OSD language support for over 20 languages including English, French, German, Spanish, Italian.

5. Setup and Installation

Installation of the ZERTRAN Android Car Stereo requires technical knowledge and experience with car electronics. It is highly recommended to have the unit installed by a qualified professional to ensure correct wiring and functionality, and to avoid any damage to your vehicle or the stereo system.

- **Pre-Installation Check:** Before beginning installation, ensure the vehicle's battery is disconnected.
- **Wiring:** Carefully follow the provided wiring diagram (if applicable, typically included with the power cable) to connect the power, speaker, and accessory wires.
- **Antenna Connections:** Connect the GPS antenna and FM radio antenna to their respective ports on the head unit.
- **USB and RCA Connections:** Connect the USB cables and RCA expand cable as needed for external devices and the backup camera.
- **Backup Camera:** Install the backup camera according to its specific instructions and connect its RCA cable to the head unit.
- **Fitment:** Secure the head unit within the vehicle's dashboard using the provided plastic frame.
- **Initial Power-Up:** Reconnect the battery and power on the unit to perform initial tests and configuration.

Note: For vehicles with an original factory amplifier, a CANBUS adapter may be necessary. Please consult with the seller or a professional installer.

6. Operating Instructions

6.1. CarPlay & Android Auto

This feature allows seamless integration of your iOS or Android smartphone with the car stereo. Access navigation, music, messages, and calls directly from the head unit's display.

- **Connection:** Connect your smartphone via USB or wirelessly (if supported by your phone and the unit).
- **Activation:** Once connected, the CarPlay or Android Auto interface will automatically launch or can be selected

from the main menu.

- **Voice Assistant:** Use voice commands (e.g., "Hey Siri" or "OK Google") to control functions without diverting attention from the road.

Image: The car stereo display showing the CarPlay interface with various app icons like Phone, Maps, Messages, and Music. An iPhone is shown connected to CarPlay, and an Android device is shown connected to Android Auto.

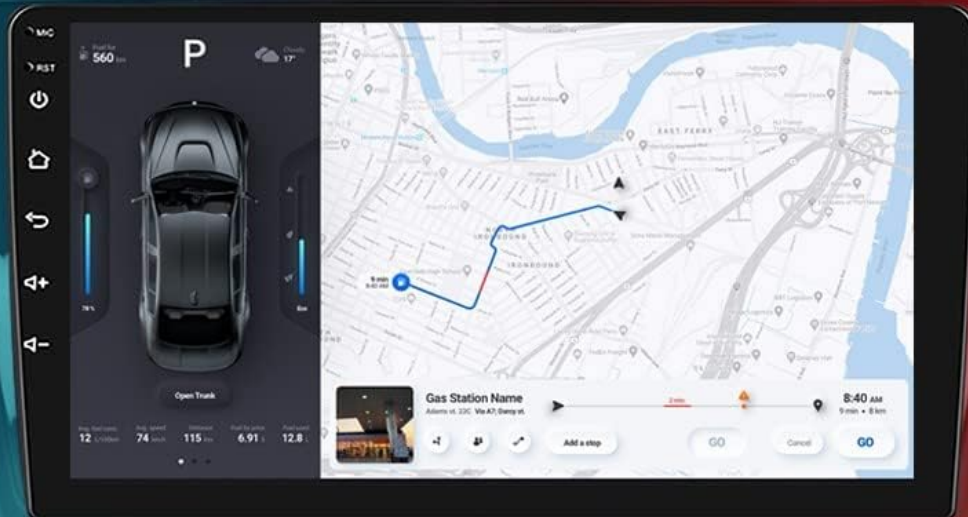

6.2. GPS Navigation

The unit features built-in GPS for real-time navigation. With a WiFi connection, you can access online maps and traffic information.

- **Access:** Select the "Navigation" or "Maps" icon from the main menu.
- **Destination Input:** Enter your destination using the touchscreen keyboard or voice commands.
- **Map Updates:** Connect to WiFi to download map updates or use online navigation services.

GPS Navigation

Satellite GPS can locate in real time without network. With wifi connected, you can use navigation in real time

6.3. FM Radio

Tune into your favorite FM radio stations with clear reception.

- **Access:** Tap the "Radio" icon on the main screen.
- **Tuning:** Use the on-screen controls to manually tune frequencies or scan for available stations.
- **Presets:** Long-press a frequency button to save your favorite stations as presets.

FM Radio

You can transfer the music to the car stereo by FM, Long press to save your favorite radio station

Image: The car stereo display showing the FM radio interface with frequency display (e.g., 97.50 MHz), station presets, and controls for tuning and band selection.

6.4. Bluetooth Function (BT)

Connect your smartphone via Bluetooth for hands-free calling and wireless audio streaming.

- **Pairing:** Go to the "Bluetooth" menu, enable Bluetooth on your phone, and search for the car stereo. Select the stereo and confirm pairing.
- **Hands-Free Calling:** Make and receive calls directly from the head unit.
- **Audio Streaming:** Play music from your phone through the car's speakers.

BT Function

Built-in BT, Enjoy Wireless Streaming Music, Hands-free Calling & Navigation

Image: The car stereo display showing the Bluetooth interface with a dial pad for making calls and a music player interface. A smartphone is also depicted, indicating hands-free calling and music streaming.

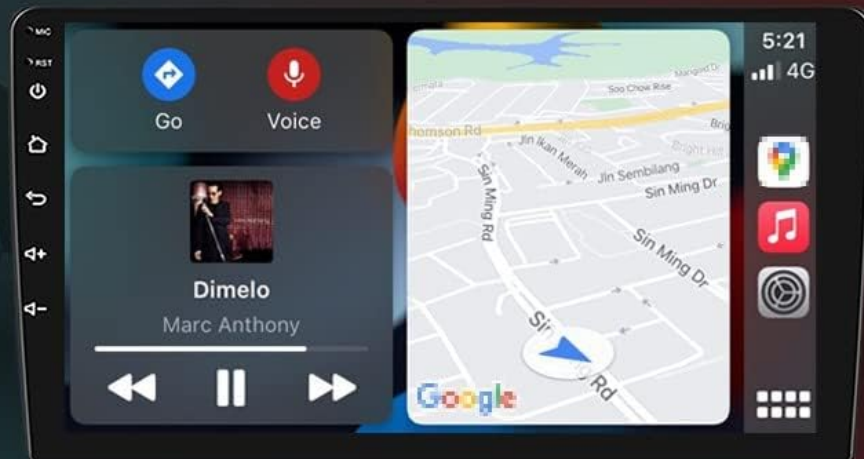

6.5. WiFi Connectivity

Connect the head unit to a WiFi network (e.g., mobile hotspot) to browse the internet, use online navigation, watch videos, and download applications.

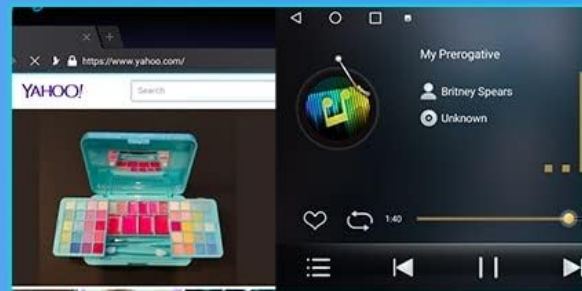

- **Connection:** Access the "Settings" menu, then "WiFi" to scan for available networks. Select your desired network and enter the password.
- **App Downloads:** Use the pre-installed app store or browser to download additional applications.

Dual Screen Display

Dual display, Different functions can be operated at the same time

Navigation+Video Play

Wifi+Music

Image: The car stereo display showing a grid of various application icons, indicating the ability to download and use apps via WiFi. Several app icons are floating above the screen, symbolizing internet connectivity.

6.6. Dual Screen Display

The unit supports dual-screen functionality, allowing two different applications to run simultaneously on the display.

- **Activation:** Specific gestures or menu options (refer to the on-screen interface) allow you to split the screen.
- **Usage:** For example, you can have navigation on one side and music playback or a web browser on the other.

Steering Wheel Control

Quickly switch functions which you want with your car's steering wheel control

Image: The car stereo display split into two sections, showing navigation on one side and a music player on the other. Below, examples illustrate "Navigation + Video Play" and "Wifi + Music" split screens.

6.7. Steering Wheel Control (SWC)

Integrate the car stereo with your vehicle's existing steering wheel controls for convenient and safe operation of functions like volume, track skipping, and mode switching.

- **Configuration:** Access the "Steering Wheel Control" settings in the unit's menu.
- **Mapping:** Follow the on-screen prompts to map your vehicle's steering wheel buttons to the desired functions on the stereo.

Car Reverser Camera

Support Car Reverser Camera input, you can see the video on screen through the rear view camera when reversing your car

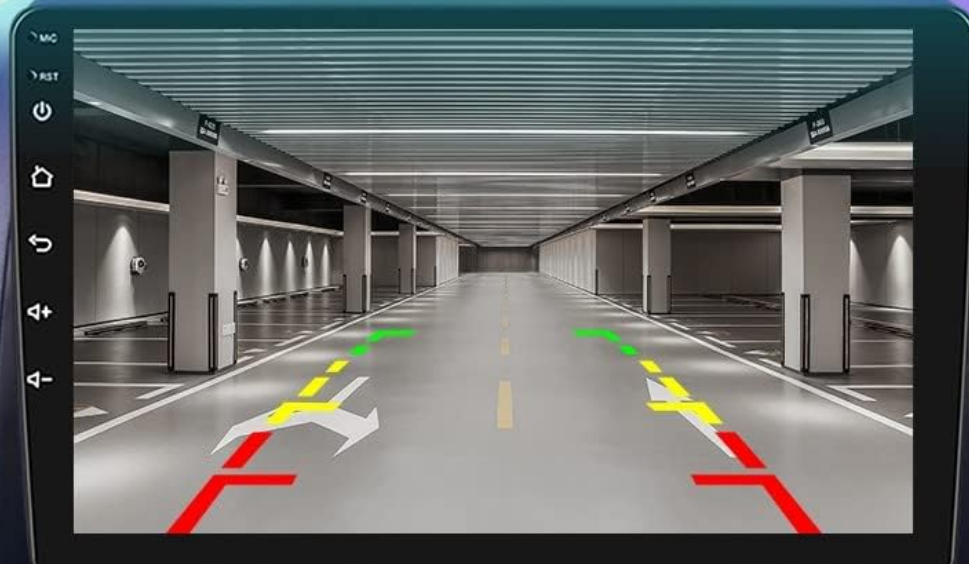

Image: The car stereo display showing the "Steering Learn" menu within the settings, with options to assign functions to steering wheel buttons. Icons representing various control functions (e.g., skip track, volume, call) are shown around the steering wheel.

6.8. Car Reverser Camera

The unit supports a rear view camera input, automatically displaying the camera feed on the screen when the vehicle is in reverse gear.

- **Connection:** Ensure the included backup camera is properly installed and connected to the dedicated RCA input on the head unit.
- **Automatic Display:** When shifting into reverse, the screen will automatically switch to the camera view, providing visual assistance for parking and maneuvering.

WIFI

You can use WIFI to browse website, get online navigation watch video and download Apps

Image: The car stereo display showing the live feed from a rear view camera, with parking guidelines overlaid on the image of a parking garage. A camera unit is shown above the screen.

7. Maintenance

- **Cleaning the Screen:** Use a soft, lint-free cloth to gently wipe the touchscreen. For stubborn smudges, slightly dampen the cloth with water or a screen-safe cleaner. Avoid harsh chemicals.
- **General Cleaning:** Keep the unit and surrounding area free of dust and debris.
- **Software Updates:** Periodically check for software updates via WiFi to ensure optimal performance and access to new features.
- **Avoid Extreme Conditions:** Do not expose the unit to direct sunlight for extended periods or to extreme temperatures.

8. Troubleshooting

Problem	Possible Cause	Solution
Unit does not power on.	Incorrect wiring; Blown fuse; Vehicle battery issue.	Check power cable connections. Inspect vehicle fuses. Ensure battery is charged. Consult a professional.
No sound.	Volume too low; Mute activated; Speaker wiring issue; Amplifier not detected.	Increase volume. Check mute settings. Verify speaker connections. If applicable, ensure CANBUS for amplifier is installed.
GPS signal lost or inaccurate.	GPS antenna not properly connected or obstructed; Poor satellite reception.	Ensure GPS antenna is securely connected and has a clear view of the sky. Move to an open area.
CarPlay/Android Auto not connecting.	Incorrect USB cable; Phone settings; Software glitch.	Use a high-quality USB data cable. Check phone's CarPlay/Android Auto settings. Restart phone and head unit.
Touchscreen unresponsive.	Temporary software issue; Screen damage.	Restart the unit. If issue persists, contact support.

If you encounter issues not listed here or if the suggested solutions do not resolve the problem, please contact customer support.
