Vicco Viktor Bathroom Cabinet Instruction Manual

Model: 57503

SAFETY INFORMATION

Important! Retain this manual for future reference. Read all instructions carefully before assembly and use.

Tipping Hazard Warning

Unanchored furniture can tip over, causing serious or fatal crushing injuries. To prevent this furniture from tipping, **it must** be securely anchored to the wall. Use fastening materials that are suitable for the specific walls in your home. If you have any questions regarding appropriate fasteners, please contact your local specialist store. Follow every step of the assembly instructions carefully, especially those related to wall anchoring.

PACKAGE CONTENTS

Before beginning assembly, please ensure that all components listed below are present and undamaged. Refer to the separate assembly guide included in the package for a detailed parts list and diagrams.

- Cabinet panels and shelves
- Assembly instructions (this manual and a detailed guide)
- Mounting hardware (screws, dowels, shelf pins, wall anchoring kit)

Note: Decorative items shown in product images are not included with the cabinet.

SETUP AND ASSEMBLY

Follow these steps carefully for safe and correct assembly. It is recommended to assemble the cabinet on a soft, clean surface (e.g., a carpet or blanket) to prevent scratches and damage to the furniture or your floor.

Required Tools (Not Included)

- Phillips head screwdriver
- Hammer (for wooden dowels)
- Drill (for wall anchoring, if required by your wall type)
- Measuring tape
- Pencil

General Assembly Steps

For detailed, step-by-step instructions with diagrams, please refer to the dedicated assembly manual provided in your package. The following is a general overview:

1. **Unpack and Identify Components:** Carefully remove all parts from the packaging. Lay them out and compare them against the parts list in your detailed assembly guide to ensure everything is present.
2. **Assemble Base and Side Panels:** Attach the bottom and top panels to the main side panels using the provided screws and wooden dowels. Ensure all connections are firm and aligned.
3. **Insert Shelves:** Slide the shelves into the pre-drilled slots or attach them using the shelf pins. Ensure each shelf is level and securely seated.
4. **Attach Back Panel:** Secure the back panel to the assembled frame using the small nails or screws provided. This adds stability to the structure.

5. **Wall Anchoring (Crucial Safety Step):** Position the assembled cabinet in its desired location. Using the pre-drilled holes on the cabinet's back panel as a guide, mark the corresponding spots on your wall. Drill holes in the wall and insert appropriate wall anchors. Secure the cabinet to the wall using the provided wall anchoring hardware. This step is essential to prevent tipping.

OPERATING INSTRUCTIONS

The Vicco Viktor Bathroom Cabinet is designed for straightforward and practical use.

- **Storage:** Utilize the six open shelves for organizing various bathroom accessories, towels, toiletries, and other personal items. Arrange items to suit your needs.
- **Weight Capacity:** Each shelf is designed to hold a specific amount of weight. Avoid overloading individual shelves or the entire unit to maintain stability and prevent damage. The maximum weight capacity for the entire unit is 15 kg.
- **Placement:** Always ensure the cabinet is placed on a level and stable surface. Reiterate the importance of using the wall anchoring system to prevent any risk of tipping.

MAINTENANCE AND CARE

Proper maintenance and care will help preserve the appearance and extend the lifespan of your Vicco Viktor Bathroom Cabinet.

- **Cleaning:** Wipe all surfaces with a soft, damp cloth. For more stubborn marks, a mild soap solution can be used. Avoid using abrasive cleaners, harsh chemicals, or solvents, as these can damage the melamine resin coating and finish.

- **Spills:** In a bathroom environment, promptly wipe up any water or liquid spills to prevent moisture absorption and potential damage to the particle board.
- **Inspection:** Periodically check all screws, connections, and wall anchors to ensure they remain tight and secure. Re-tighten any loose fasteners as needed.
- **Sunlight Exposure:** Avoid prolonged exposure to direct sunlight, which can cause discoloration or fading of the cabinet's finish over time.

TROUBLESHOOTING

Issue: Cabinet feels unstable or wobbly.

Solution: First, ensure all assembly screws and connections are fully tightened. Verify that the cabinet is placed on a completely level surface. Most importantly, confirm that the cabinet is properly anchored to the wall using the provided wall anchoring kit and appropriate fasteners for your wall type. If the issue persists, re-check the assembly steps in the detailed manual.

Issue: Missing parts during unboxing.

Solution: Refer to the detailed parts list in the separate assembly guide. If any components are missing, please contact customer support with the specific details of the missing items and your purchase information.

Issue: Surface scratches or minor damage.

Solution: For minor scratches, furniture repair pens or waxes designed for laminated surfaces may be used. For more significant damage, please contact customer support for advice or potential replacement parts.
