Dimensions (LxWxH)	25 x 20 x 30 cm
Item Weight	1.5 kg
Mounting Type	Tabletop Mount or Floor Mount

3. SETUP

3.1 Unpacking

Carefully remove all components from the packaging. Ensure all items listed in the 'What's in the Box' section are present and undamaged.

3.2 Placement

Place the projector on a stable, flat surface or mount it according to your preference (tabletop or floor mount). Ensure there is adequate ventilation around the projector to prevent overheating. Position the projector directly in front of your desired projection surface (screen or wall) for the best image quality.

3.3 Power Connection

1. Connect the provided power adapter to the projector's power input port.
2. Plug the power adapter into a suitable electrical outlet.
3. Press the power button on the projector or remote control to turn on the device.

4. OPERATING INSTRUCTIONS

4.1 Initial Setup & Focus

1. Upon first power-on, follow the on-screen prompts to complete the initial Android 13 setup, including language selection and network connection.
2. The projector features **Auto + Electric Focus**. The image should automatically adjust for clarity. If manual adjustment is needed, use the focus buttons on the remote control.
3. The projector also supports **Auto Keystone Correction & Focus** and **Auto Obstacle Avoidance** to ensure a perfectly aligned and clear image.

Image 3: Examples of the TP350 NTV Smart Projector in different settings, such as for family sports, gaming, and creating a home theater experience.

4.2 Navigating the Android 13 OS

Use the provided voice remote control to navigate the Android 13 interface. The directional pad allows you to move between apps and settings, while the 'OK' button selects items. The voice control feature can be activated to search for content or control the projector hands-free.

4.3 Streaming Content

The projector comes with official Netflix authorization and pre-installed apps like YouTube and Prime Video. Simply select the desired app from the home screen, log in with your account credentials, and start streaming. Additional apps can be downloaded from the app store.

5. CONNECTIVITY

5.1 Wi-Fi Connection

To connect to a Wi-Fi network:

1. Go to 'Settings' on the home screen.
2. Select 'Network & Internet'.
3. Turn on Wi-Fi and select your desired network from the list.
4. Enter the password if prompted. The projector supports WiFi 6 dual band (2.4G/5G) for stable connections.

5.2 Bluetooth Connection

To connect Bluetooth devices (e.g., headphones, speakers, soundbars):

1. Go to 'Settings' on the home screen.
2. Select 'Connected Devices' or 'Bluetooth'.
3. Turn on Bluetooth and put your device in pairing mode.
4. Select your device from the list of available devices to pair. The projector supports Bluetooth 5.2.

5.3 Wired Connections (HDMI, USB)

The projector includes HDMI and USB ports for connecting external devices such as laptops, gaming consoles, media players, or USB drives. Simply plug in your device and select the corresponding input source from the projector's input menu.

6. MAINTENANCE

6.1 Cleaning

- **Lens:** Use a soft, lint-free cloth specifically designed for optical lenses to gently wipe the projector lens. Do not use abrasive cleaners or cloths.
- **Exterior:** Wipe the exterior of the projector with a soft, dry cloth. For stubborn marks, slightly dampen the cloth with water. Avoid using harsh chemicals.
- **Ventilation:** Ensure the ventilation openings are clear of dust and debris to maintain proper airflow.

6.2 Lamp Life

The TP350 NTV Smart Projector uses an LED light source with an impressive lamp life of approximately 50,000 hours, significantly reducing the need for lamp replacement.

7. TROUBLESHOOTING

Common Issues and Solutions

- **No Power:**
Solution: Ensure the power adapter is securely connected to both the projector and a working electrical outlet. Check if the power button has been pressed.
- **No Image / Blurry Image:**
Solution: Check the focus using the remote control's auto/electric focus function. Ensure the projection surface is flat and the projector is positioned correctly. Verify the input source is selected correctly if using an external device.
- **No Sound:**
Solution: Check the volume settings on the projector and any connected audio devices. If using Bluetooth, ensure the device is properly paired and selected as the audio output.
- **Wi-Fi Connection Issues:**
Solution: Ensure the Wi-Fi password is correct. Try restarting your router and the projector. Check if the projector is within range of your Wi-Fi network.
- **Remote Control Not Responding:**
Solution: Replace the batteries in the remote control. Ensure there are no obstructions between the remote and the projector.

8. WHAT'S IN THE BOX

The product package for your TP350 NTV Smart Projector includes the following items:

- TP350 NTV Smart Projector
- Voice Remote Control
- Power Adapter
- User Manual (this document)
