

Novox AAD85302EA

NOVOX® (Carprofen) Chewable Tablets 75mg for Dogs

Instruction Manual

Brand: Novox | Model: AAD85302EA

1. INTRODUCTION

This manual provides essential information for the safe and effective use of NOVOX® (Carprofen) Chewable Tablets 75mg. NOVOX® is a non-steroidal anti-inflammatory drug (NSAID) prescribed by veterinarians for the relief of pain and inflammation in dogs. Always consult your veterinarian for proper diagnosis and treatment plans.

2. IMPORTANT SAFETY INFORMATION

Caution: Federal law restricts this drug to use by or on the order of a licensed veterinarian.

Before administering NOVOX® to your dog, please read and understand the following:

- NOVOX® is for oral use in dogs only. Do not use in cats or other animals.
- Keep out of reach of children and other animals.
- As with any NSAID, side effects may occur. Observe your dog for any adverse reactions and contact your veterinarian immediately if you notice changes in appetite, vomiting, diarrhea, black or tarry stools, increased thirst, increased urination, lethargy, or behavioral changes.
- Do not administer to dogs with known hypersensitivity to carprofen or other NSAIDs.
- Inform your veterinarian about any other medications or supplements your dog is receiving.
- Regular veterinary check-ups are recommended while your dog is on this medication.

3. SETUP AND INITIAL CONSIDERATIONS

Before starting treatment, ensure you have consulted with your licensed veterinarian. They will determine if NOVOX® is appropriate for your dog and provide a specific prescription.

1. **Veterinary Consultation:** Your veterinarian will conduct an examination to ensure your dog is a suitable candidate for Carprofen.
2. **Prescription Verification:** Ensure the medication strength (75mg) and quantity match your veterinarian's prescription.
3. **Storage:** Store tablets at controlled room temperature, away from moisture and direct sunlight.

4. DOSAGE AND ADMINISTRATION (OPERATING INSTRUCTIONS)

Administer NOVOX® (Carprofen) Chewable Tablets strictly as directed by your veterinarian. The recommended dosage for oral administration to dogs is 2 mg/lb of body weight daily.

- **Daily Dose:** The total daily dose may be administered as 2 mg/lb of body weight once daily, or

divided and administered as 1 mg/lb twice daily.

- **Postoperative Pain:** For the control of postoperative pain, administer approximately hours before the procedure (specific timing should be provided by your vet).
- **Scored Tablets:** Novox Chewable Tablets are scored for convenient, flexible dosing. Dosage should be calculated in half-tablet increments. Tablets can be halved by placing the tablet on a hard surface and pressing down on both sides of the score.
- **Administration Method:** These liver-flavored Novox chewable tablets may be offered to the dog by hand or placed on food. Care should be taken to ensure that the dog consumes the complete dose.

5. PRODUCT FEATURES

- **Flavor:** Liver Flavored for palatability.
- **Dosing:** Chewable tablets are scored for convenient, flexible dosing, allowing for precise administration based on body weight.
- **Efficacy:** In general, dogs administered carprofen showed statistically significant reduction in pain scores compared to controls.

6. MAINTENANCE AND STORAGE

- **Storage:** Store NOVOX® tablets at controlled room temperature (59°-86°F or 15°-30°C). Keep the container tightly closed.
- **Protection:** Protect from moisture and light.
- **Disposal:** Dispose of unused medication according to local regulations or consult your veterinarian

for proper disposal methods. Do not flush down the toilet or pour into a drain unless instructed.

7. TROUBLESHOOTING AND SIDE EFFECTS

While NOVOX® is generally well-tolerated, it is important to be aware of potential side effects. If you observe any of the following, discontinue use and contact your veterinarian immediately:

- Vomiting, diarrhea, or changes in stool color (e.g., black, tarry stools).
- Decreased appetite or lethargy.
- Increased thirst or urination.
- Changes in behavior, such as aggression or incoordination.
- Skin redness, scabs, or other skin irritations.

Missed Dose: If a dose is missed, administer it as soon as you remember, unless it is almost time for the next scheduled dose. Do not double dose to catch up.

8. SPECIFICATIONS

Specification	Detail

Important details on pet prescriptions

⚠ Prescriptions are not returnable or refundable

Items are **final sale** due to regulatory and safety reasons

🏠 Vet approval needed for this order

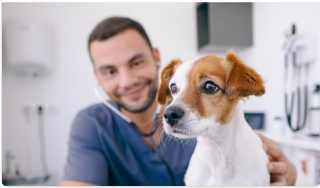

Prescriptions require a recent visit with your vet for your pet's safety

📦 Your prescriptions will ship when approved

Your package **ships separately from Prime** and other cart items

Why is a prescription required from my vet?

Veterinarians may require a recent visit before authorizing a prescription. This allows them to assess your pet's current health and make the safest and most informed decision about their medication(s). Don't worry- we'll reach out to your vet for you!
