INTRODUCTION

This manual provides detailed instructions for the installation, operation, and maintenance of your Delta In2ition 2-in-1 Dual Shower Head, Model 75548BL. The In2ition Two-in-One Shower features a detachable hand shower that can be used independently or simultaneously with the main shower head. This design offers flexibility, allowing water to stream from the shower head only, the hand shower only, or both at once. Delta MagnaTite Docking ensures the hand shower is securely held in place when not in use. The product also features Touch-Clean spray holes for easy mineral residue removal and is WaterSense labeled, indicating water efficiency.

KEY FEATURES

- **2-in-1 Dual Functionality:** Use the main shower head and detachable hand shower separately or together.
- **ProClean High-Pressure Spray:** A powerful spray designed for cleaning shower surfaces and hard-to-reach areas.
- **Wide Spray Coverage:** The wide fan spray helps clean larger areas efficiently.
- **5 Spray Options:** Includes ProClean Spray, Full Body Spray, Full Body Spray + Massage, Massage Spray, and a Pause setting to reduce water flow to a trickle.
- **MagnaTite Docking:** A powerful integrated magnet securely holds the hand shower in place.
- **Touch-Clean Spray Holes:** Soft rubber nozzles allow for easy wiping away of mineral buildup.
- **Corrosion-Resistant Finish:** Engineered for durability and tested to exceed industry standards.
- **WaterSense Labeled:** Uses at least 20% less water than the industry standard without compromising performance.

INSTALLATION INSTRUCTIONS

The Delta In2ition shower head is designed for DIY installation onto a standard shower arm and can be installed in minutes. Follow these general steps for a successful setup:

1. **Prepare the Shower Arm:** Ensure the existing shower arm is clean and free of old sealant or tape.
2. **Apply Plumber's Tape:** Wrap plumber's tape (thread seal tape) clockwise around the threads of the shower arm.
3. **Attach the Shower Head:** Screw the main shower head assembly onto the shower arm. Hand-tighten first, then use a wrench if necessary, being careful not to overtighten, especially if components are plastic.
4. **Connect the Hose:** Attach the flexible hose to the hand shower and the main shower head assembly. Ensure connections are secure to prevent leaks.
5. **Test for Leaks:** Turn on the water supply and check all connections for any leaks. Tighten gently if drips are observed.

For a visual guide, please refer to the official installation video below:

OPERATING YOUR SHOWER HEAD

MagnaTite Docking

The hand shower features MagnaTite Docking, which uses a powerful integrated magnet to securely hold the hand shower in place when it is docked. This ensures it stays in position and provides a clean, integrated look.

Spray Settings

Your Delta In2ition shower head offers 5 distinct spray settings, easily selectable via a dial or lever on the shower head:

- **ProClean Spray:** A high-pressure, focused spray ideal for cleaning.
- **Full Body Spray:** Provides a consistent, full coverage shower experience.
- **Full Body Spray + Massage:** Combines full coverage with a pulsating massage spray.
- **Massage Spray:** A targeted, invigorating pulsating spray.
- **Pause:** Reduces water flow to a trickle, conserving water while lathering or shaving without changing temperature settings.

5 SPRAY SETTINGS

Dual Functionality

The included 3-way diverter allows you to direct water flow to the main shower head, the hand shower, or both simultaneously. Simply adjust the diverter lever to your desired setting.

ProClean Spray for Cleaning

Utilize the powerful ProClean high-pressure spray from the hand shower to clean shower walls, tile, and other surfaces. This spray is designed to help remove soap scum and grime more effectively.

CARE AND MAINTENANCE

Touch-Clean Spray Holes

Your Delta In2ition shower head is equipped with soft rubber Touch-Clean spray holes. To remove mineral residue (calcium and lime buildup), simply wipe the nozzles with your finger or a soft cloth. This eliminates the need for soaking or harsh chemical cleaners, maintaining optimal spray performance.

TROUBLESHOOTING

Issue	Possible Cause	Solution
Weak Water Flow	Mineral buildup in spray holes; Flow restrictor installed.	Clean Touch-Clean spray holes. Check for and carefully remove any flow restrictor if permitted by local codes.
Leaks at Connections	Loose connections; Insufficient plumber's tape; Damaged washer.	Ensure all connections are hand-tightened, then gently tighten with a wrench if needed. Apply additional plumber's tape. Inspect and replace washers if damaged.
Hand Shower Hose Tangles	Hose naturally twists during use.	Periodically untwist the hose. Ensure the hose is not kinked during storage or use.

Issue	Possible Cause	Solution
Difficulty Switching Spray Settings	Mineral buildup in the spray selector mechanism.	Clean the exterior of the shower head, especially around the spray selector, to remove any mineral deposits.

PRODUCT SPECIFICATIONS

Feature	Detail
Brand	DELTA
Model Number	75548BL
