1. **Prepare the Base:** Attach the initial scratching posts (P1, P2) to the baseboard (F) using the provided hardware (W1, W2).
2. **Assemble Lower Condos:** Secure the first condo house (B) to the base and posts. Attach the second condo house (C) adjacent to the first, connecting them with posts (P6) and hardware.
3. **Install Mid-Level Posts and Basket:** Attach additional scratching posts (P3, P4) to the top of the lower condos. Secure the hanging basket (D) to the appropriate posts.
4. **Add Platforms:** Place and secure the padded platform (E) and other platforms (A, G) to the posts using the designated screws (W3).
5. **Attach Top Perch:** Fasten the top perch (F) to the uppermost posts (P5).
6. **Install Anti-Tip Kit:** For added stability, attach the anti-tip kit (W6) to the cat tree and secure it to a wall stud.
7. **Attach Toys:** Hang the interactive toys from the designated loops.

OPERATING INSTRUCTIONS

The Globlazer S52 Cat Tree is designed to provide a stimulating and comfortable environment for your indoor cats.

Multi-Level Design

The 52-inch multi-level structure offers various heights for climbing, jumping, and exploring, catering to your cat's natural instincts.

Cozy Condos

Big Hanging Basket

Metal-framed basket offers cats warm, safe, comfy swinging Φ13.7"(35cm)

Image: Two spacious cat condos, providing enclosed, private spaces for cats to rest or hide. Each condo features a double door design for ventilation and easy access.

Two generously sized cat caves provide quiet and private resting spaces. The double door design promotes free entry/exit and necessary ventilation, making them ideal retreats for napping or hiding.

The cat scratching tree features five natural sisal-covered posts, providing an ideal and ample scratching area to keep claws healthy and protect your furniture. The included replaceable hanging toys ensure continuous engagement and stimulate your cat's hunting instinct.

MAINTENANCE

Cleaning

The plush material of the cat tree requires hand washing only. Do not machine wash or use harsh chemical cleaners, as this may damage the fabric or structure.

Structural Integrity

Check the firmness of all screws and connections at least once a month. Tighten any loose components to maintain the stability and safety of the cat tree.

TROUBLESHOOTING

Instability

If the cat tree feels unstable, re-tighten all screws. Ensure it is placed on a level surface. Verify the anti-tip kit is correctly installed and secured to a wall stud if applicable.

Parts Missing or Damaged

If any parts are missing or damaged upon arrival, please contact Globlazer customer service for assistance. Do not attempt to assemble with incomplete or damaged parts.
