3. SETUP

This collectible model requires minimal setup. It is designed for immediate display upon removal from its packaging.

3.1 Unboxing:

1. Carefully remove the blister card from any outer shipping box.
2. Gently open the Kar Keepers clamshell case.
3. Remove the blister card containing the model.
4. If desired for display, carefully cut or peel open the plastic blister to extract the diecast car. Exercise caution to avoid

damaging the model or the packaging if you intend to preserve it.

3.2 Display:

Place the model on a flat, stable surface away from direct sunlight, extreme temperatures, and high humidity to prevent material degradation and color fading. Consider a display case for added protection against dust and accidental damage.

4. OPERATING

The Hot Wheels Nissan Skyline GT-R (BNR34) is a static display model with one interactive feature: an opening hood.

4.1 Opening the Hood:

1. Gently locate the seam between the hood and the main body of the car.
2. Using a soft, non-abrasive tool (such as a plastic pick or fingernail), carefully lift the front edge of the hood.
3. The hood should pivot upwards, revealing the engine details. Avoid forcing the hood open beyond its natural range of motion.

4.2 Closing the Hood:

1. Gently lower the hood back into its closed position.
2. Ensure it sits flush with the body panels. Do not press excessively to avoid damage.

5. MAINTENANCE

Proper maintenance ensures the long-term preservation of your collectible model.

5.1 Cleaning:

- **Dust Removal:** Use a soft, dry brush (e.g., a clean makeup brush or a dedicated model brush) or a microfiber cloth to gently remove dust from the surface.
- **Fingerprints:** For fingerprints or smudges, lightly dampen a microfiber cloth with water (distilled water is preferred) and gently wipe the affected area. Avoid harsh chemicals or abrasive cleaners, as these can damage the paint finish.
- **Avoid Water Immersion:** Do not submerge the model in water or expose it to excessive moisture.

5.2 Storage:

- Store the model in a cool, dry place away from direct sunlight, heat sources, and fluctuating temperatures.
- If storing for extended periods, consider keeping it in its original packaging or a sealed display case to protect against dust and environmental factors.

6. TROUBLESHOOTING

As a static collectible model, operational issues are rare. Most concerns relate to cosmetic appearance.

6.1 Common Issues:

- **Dust Accumulation:** Refer to Section 5.1 for cleaning instructions.

- **Minor Scratches/Paint Chips:** These are typically a result of improper handling. Avoid abrasive contact with the model. Repairing paint on such a detailed collectible is generally not recommended as it may decrease its value.
- **Loose Parts:** If any small parts become loose, avoid attempting to reattach them with strong adhesives, which can damage the finish. Consult a professional model restorer if necessary.
