Nifeliz M7 Priest Howitzer Building Set NF10336 Instruction Manual

Model: NF10336 | Brand: Nifeliz

INTRODUCTION

This manual provides comprehensive instructions for the assembly, operation, and care of your Nifeliz M7 Priest Howitzer Building Set. Designed for adult enthusiasts, this 646-piece model accurately recreates the classic M7 Priest self-propelled howitzer from World War II. Please read all instructions carefully before beginning assembly to ensure a smooth and enjoyable building experience.

SAFETY INFORMATION

- **Small Parts Warning:** This set contains small parts which may pose a choking hazard. Keep out of reach of children under 3 years of age.
- **Do Not Ingest:** The building blocks are not food and should not be ingested.
- **Keep Away from Fire:** Store and assemble the model away from open flames or high heat sources to prevent damage or melting of components.
- **Adult Supervision:** While designed for adults, ensure proper handling of tools (if any are used) and components.

PACKAGE CONTENTS

Upon opening the package, verify that all components are present and undamaged. The Nifeliz M7 Priest Howitzer Building Set includes:

- 646 building pieces (Acrylonitrile Butadiene Styrene)
- Instruction Guide
- (Optional: Part separator tool, if included)

If any parts are missing or damaged, please contact Nifeliz customer support for assistance.

SETUP AND ASSEMBLY

The assembly process for the Nifeliz M7 Priest Howitzer is designed to be straightforward, even for beginners. Follow the step-by-step instructions provided in the included guide.

1. **Preparation:** Unpack all building pieces. It is recommended to sort pieces by color and type to facilitate assembly.
2. **Follow the Guide:** Refer to the detailed instruction guide for sequential assembly steps. Each step illustrates the required pieces and their placement.
3. **Component Integration:** Pay close attention to the integration of key features such as the open turret, front-mounted cannon, driver's hatch, and rear storage for shells and tools. These elements are designed to replicate the real M7 Priest.
4. **Track Assembly:** Assemble the tank tracks carefully, ensuring each link connects securely.
5. **Final Checks:** Once assembly is complete, review the model to ensure all connections are firm and all pieces are correctly placed.

OPERATING THE MODEL

The Nifeliz M7 Priest Howitzer is primarily a display model, but it incorporates functional elements for enhanced realism and interaction.

- **Rolling Wheels:** The model features rolling wheels beneath its tracks, allowing it to be moved smoothly across flat surfaces.

This provides a dynamic element beyond static display.

- **Movable Turret/Cannon:** The open turret and front-mounted cannon are designed to be adjustable, allowing for various display poses.
- **Detailed Interior:** The model includes detailed interior elements such as the driver's seat and ammunition storage, which can be observed without disassembling the main structure.

MAINTENANCE

Proper care will ensure the longevity and appearance of your Nifeliz M7 Priest Howitzer model.

- **Cleaning:** Dust the model regularly with a soft, dry cloth or a soft brush. For stubborn dirt, a slightly damp cloth can be used, but avoid excessive moisture.

- **Storage:** Store the model in a cool, dry place away from direct sunlight to prevent discoloration or material degradation.
- **Handling:** Handle the model carefully to avoid accidental detachment of pieces.

TROUBLESHOOTING

Here are solutions to common issues you might encounter:

Issue	Possible Cause	Solution
Missing pieces	Packaging error or accidental loss during unpacking/sorting.	Carefully re-check all packaging materials. If still missing, contact Nifeliz customer support with the specific part number (if known) or a description.
Pieces do not fit together	Incorrect piece selection or improper alignment.	Double-check the instruction guide to ensure you are using the correct pieces and aligning them as shown. Apply gentle, even pressure.
Model is unstable	Loose connections or incorrect assembly steps.	Review the most recently assembled sections in the instruction guide to identify any loose or incorrectly placed pieces. Ensure all connections are firm.
