Setup

Zweifach-Mikrofon-AI-ENC

Dank eines AI-gestützten Zweikanal-Geräuschunterdrückungsalgorithmus können die Ohrhörer Zielstimmen in komplexen Umgebungen präzise von Hintergrundgeräuschen unterscheiden. Diese Kombination sorgt für eine stabile und gleichmäßige Geräuschreduzierung und verhindert eine Überkompensation, bei der Wortenden „abgeschnitten“ werden.

Bei Telefonaten, Online-Meetings, Livestreams und weiteren Anwendungsszenarien bleibt deine Stimme klar und gut verständlich – für eine effiziente, unterbrechungsfreie Kommunikation.

Maintenance

To ensure the longevity and optimal performance of your Redmi Buds 8 Lite, follow these maintenance guidelines:

- **Cleaning:** Regularly clean the earbuds and charging case with a soft, dry, lint-free cloth. Do not use harsh chemicals or abrasive materials.
- **Ear Tips:** Remove and clean the silicone ear tips periodically with water and mild soap. Ensure they are completely dry before reattaching.
- **Water Resistance:** The earbuds are IP54 water-resistant, meaning they are protected against splashes and sweat. Do not submerge them in water or expose them to heavy rain. Dry them thoroughly if they get wet.
- **Storage:** When not in use, store the earbuds in their charging case to protect them from dust and damage.

Troubleshooting

If you encounter any issues with your Redmi Buds 8 Lite, refer to the following common solutions:

- **Earbuds not pairing:** Ensure both earbuds are in the charging case, then open the lid to initiate pairing mode. Check your device's Bluetooth settings and try reconnecting.
- **No sound from one earbud:** Place both earbuds back into the case, close the lid, wait a few seconds, then open it again. This often re-syncs them.
- **Charging issues:** Verify the charging cable is securely connected to both the case and the power source. Clean the charging contacts on the earbuds and inside the case.
- **Poor sound quality:** Ensure the ear tips provide a snug fit to your ear canal. Try different sized ear tips for better seal. Check for any debris blocking the earbud speakers.
- **Touch controls unresponsive:** Ensure your fingers are clean and dry. A firmware update via the Xiaomi Earbuds app might resolve the issue.
- **Factory Reset:** If problems persist, perform a factory reset (refer to the Xiaomi Earbuds app or official support for specific instructions).
