Greesum GS-78116-0921

Greesum 10x16 FT Plastic Outdoor Storage Shed Instruction Manual

Brand: Greesum | Model: GS-78116-0921

1. PRODUCT OVERVIEW

The Greesum 10x16 FT Plastic Outdoor Storage Shed is designed to provide a durable and spacious solution for your outdoor storage needs. Constructed from high-density polyethylene (HDPE) using advanced blow-molding technology, this shed offers exceptional strength and weather resistance. Its smart design ensures effortless assembly, while integrated features like ventilation windows and skylights enhance functionality.

Key Features:

- **Heavy-Duty Blow-Molded HDPE Construction:** Built with durable blow-molded HDPE plastic, this shed offers exceptional strength and has a roof load capacity of 75kg/m², perfect for heavy storage needs.
- **30% Fewer Screws for Faster Assembly:** Simplified design reduces screw count by 30%, making setup quicker and easier.
- **Built-In Windows & Skylight:** Features ventilation windows and skylights to maximize natural light, reducing the need for extra lighting.
- **Eco-Friendly & Long-Lasting:** Made from recyclable materials, this lightweight yet rugged shed balances portability with lasting durability.

2. PRODUCT VISUALS & DETAILS

Image: The Greesum 10x16 FT Plastic Outdoor Storage Shed with its doors open, showcasing its spacious interior in a well-maintained backyard.

HEAVY-DUTY MATERIAL

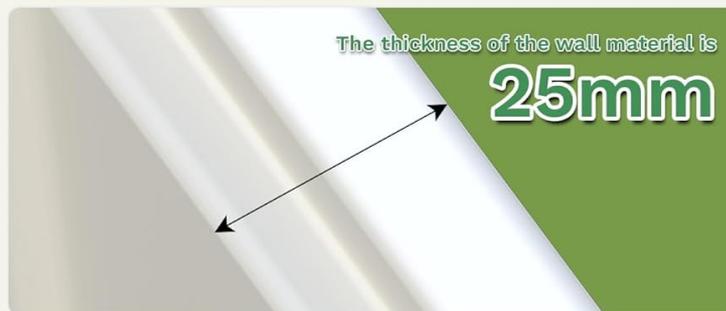

Image: Detailed view of the shed's features, including a secure locking door, a waterproof roof design, a triangular air vent for circulation, and the robust construction indicating a heavy-duty build.

Image: An illustration highlighting the heavy-duty material of the shed, specifically noting the 25mm wall thickness and a roof weight capacity of 16.3 pounds per square foot (PSF).

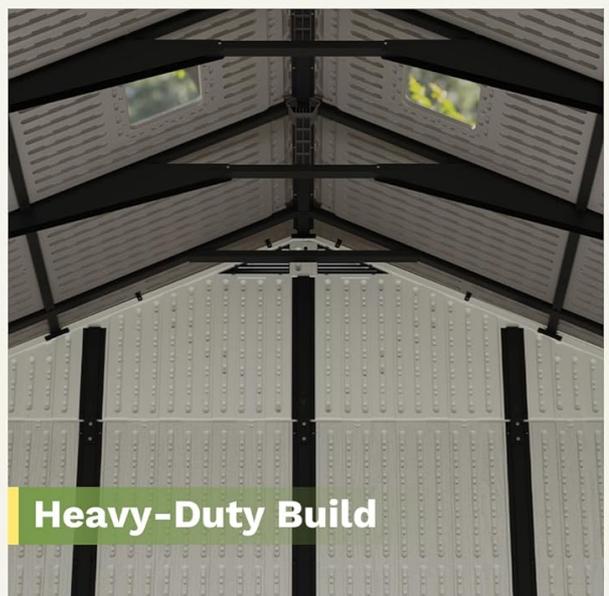

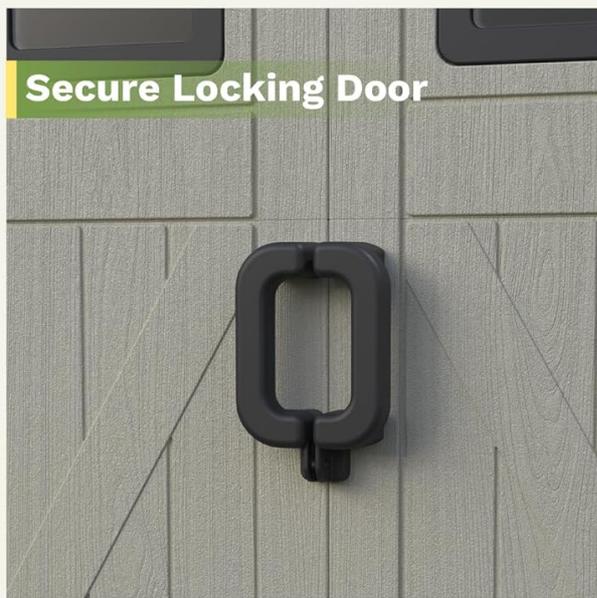

Image: A visual demonstrating the customizable placement of the 5 windows and 10 skylights, along with the 'DIY & Kick-it Shed' feature, emphasizing the through-hole installation design for convenient assembly.

Video: This video showcases the UDPATIO Resin Shed's all-weather resistance, including UV resistance, waterproof features, 26MPH wind load capacity, and 15PSF snow load capacity. It also highlights the specially reinforced beam structure and fixed door latch.

Video: This video provides an in-depth look inside a similar AMERLIFE Storage Shed, demonstrating its spacious interior, natural light from skylights, and the functionality of the wide double doors for easy access and storage of large items.

Video: This video offers a tour of an 8x12 Plastic Shed, highlighting its interior space, natural lighting from roof panels, and the overall sturdy construction suitable for various storage needs.

3. SETUP & ASSEMBLY

The Greensum storage shed is designed for straightforward assembly. Please read all instructions carefully before beginning. It is recommended to have at least two people for assembly.

Before You Begin:

- **Check Local Regulations:** Some homeowner associations (HOAs) may have restrictions on outdoor storage structures. Please check local regulations before purchasing and assembling.
- **Prepare the Site:** For easiest assembly and optimal performance, work on a level surface.
- **Unpack All Boxes:** The product ships in 13 carefully packaged boxes (may arrive separately). Allow all packages to arrive before starting assembly to ensure all parts are present.
- **Locate Manual:** The installation guide is included in Box #15. Refer to this manual for detailed, numbered instructions and helpful diagrams.
- **Gather Tools:** Recommended tools include a rubber mallet (not included) and a Phillips screwdriver.

Assembly Tips:

- **Panel Connection:** Press downward firmly when connecting wall panels to the base channel to ensure a secure fit.
- **Screw Reduction:** The design requires 30% fewer screws compared to standard models, simplifying the setup process.
- **Safety First:** Always use the recommended tools for assembly. Be cautious when handling heavy components and follow the instructions carefully to avoid injury.

4. OPERATION

The Greesum storage shed features a lockable door for security. The integrated ventilation windows and skylights allow for natural light and airflow, reducing condensation and keeping contents fresh. Ensure doors are properly latched and locked when not in use to protect stored items.

5. MAINTENANCE

To ensure the longevity of your Greesum storage shed, regular maintenance is recommended:

- **Cleaning:** Clean the exterior and interior surfaces periodically with mild soap and water. Avoid abrasive cleaners that could damage the HDPE material.
- **UV Protection:** The UV-resistant formulation helps prevent fading and brittleness, but occasional cleaning can help maintain its appearance.
- **Drainage:** Ensure that the area around the shed's base remains clear of debris to allow for proper water drainage.
- **Snow Load:** While the roof has a capacity of 75kg/m², it is advisable to clear excessive snow accumulation to prevent potential stress on the structure, especially in regions with heavy snowfall.

6. TROUBLESHOOTING

- **Difficulty with Assembly:** If you encounter difficulties, ensure all parts are correctly identified using the parts list in Box #15. Double-check that the assembly surface is level.
- **Missing Parts:** If any parts are missing, refer to the manual for customer support contact information or scan the QR code on the packages for instant help.
- **Water Leakage:** Ensure all panels are firmly connected and screws are tightened as per instructions.

Verify the shed is on a level surface to prevent water pooling.

7. PRODUCT SPECIFICATIONS

Specification	Detail
Brand	Greesum
Model Number	GS-78116-0921
Color	Beige
Material	Blow-molded HDPE plastic, Alloy Steel (frame)
Product Dimensions	195"D x 124"W x 100"H
Roof Weight Capacity	75kg/m ²
Water Resistance Level	Water Resistant
Assembly Required	Yes
Item Weight	93.9 pounds

8. WARRANTY & SUPPORT

Greesum is committed to customer satisfaction. For any questions, concerns, or assistance with your product, please utilize the customer support QR code provided in your packaging. Additionally, the product is eligible for 30-day easy returns through Amazon.
