OLAKIDS 12V Ride-On Fire Truck User Manual

Model: TQ10361US-RE

INTRODUCTION

The OLAKIDS 12V Ride-On Fire Truck is designed to provide an engaging and realistic firefighting experience for children aged 3 and above. This electric vehicle features a water gun with a tank, megaphone, siren, alarm lamps, and a shovel, allowing for immersive role-play. It also includes a remote control for parental supervision and control.

SAFETY INFORMATION

WARNING: To reduce the risk of injury, adult supervision is required. Never use in roadways, near motor vehicles, on or near steep inclines or steps, swimming pools or other bodies of water. Always wear shoes, and never allow more than one rider.

- This product complies with US CPSIA and ASTM safety standards.
- Ensure all components are securely assembled before use.
- The vehicle is equipped with a slow start function for smooth acceleration and a seat belt for child safety.
- Maximum load capacity is 55 pounds (approximately 25 kg).
- The remote control allows parents to override manual operation and activate the emergency brake (P button) for immediate stopping.
- Keep children away from moving parts during operation.
- Do not modify the electrical system.

WHAT'S IN THE BOX

Your OLAKIDS 12V Ride-On Fire Truck package includes:

- 1x Ride-On Car (main body)

- Wheels (4x)
- Motors (2x)
- Seat
- Steering Wheel
- Alarm Lamps / Light Bar
- Water Gun with Hose
- Water Tank
- Shovel
- Wrench
- Remote Control (requires 2 x 1.5V AAA batteries, not included)
- Charger
- Assembly Hardware (screws, washers, nuts, caps)

SETUP AND ASSEMBLY

Follow these steps to assemble your OLAKIDS 12V Ride-On Fire Truck. Refer to the assembly video for visual guidance.

Step 4: Attach Water Tank and Accessories

Secure the water tank to the rear of the truck using the designated fasteners. Attach any other accessories like the shovel and wrench to their storage points.

Step 5: Final Accessory Placement

Place the water gun in its holder and connect its hose to the water tank. Ensure all tools and accessories are properly stored.

OPERATING INSTRUCTIONS

Starting the Vehicle

Press the power button to turn on the fire truck. The alarm lamps will flash, and the siren may sound.

Driving

Use the foot pedal to accelerate and the steering wheel to steer. The vehicle features a slow start for a smooth ride. Always ensure the child is wearing the seat belt.

Using the Water Gun

1. Fill the water tank at the back of the vehicle with water.
2. Connect the water hose of the water gun to the tank.
3. Pull the handle on the water gun to spray water.

Remote Control Operation (for Parents)

The remote control allows parents to guide the vehicle and ensure safety. It requires 2 x 1.5V AAA batteries (not included).

- Insert batteries into the remote control.
- Pair the remote control with the vehicle according to the instructions in the remote control manual (if provided separately).
- Use the remote to control forward/backward movement and steering.
- Press the emergency brake button (P button) on the remote to stop the vehicle immediately. The remote mode can override the manual mode.

Interactive Features

- **Siren and Alarm Lamps:** Activate these features for a realistic fire truck experience.
- **Megaphone:** Use the megaphone for vocal interaction during play.
- **Music:** Enjoy built-in music during the ride.

MAINTENANCE

- **Cleaning:** Wipe the vehicle with a damp cloth. Do not use abrasive cleaners or solvents.
- **Battery Care:** Charge the 12V battery for 4-6 hours before first use and after each play session. Do not overcharge. Disconnect the battery if storing for extended periods.
- **Storage:** Store the fire truck in a dry, cool place away from direct sunlight and moisture.
- **Inspection:** Regularly check all screws, nuts, and connections to ensure they are tight. Inspect wheels and axles for wear.

TROUBLESHOOTING

If you encounter issues with your OLAKIDS 12V Ride-On Fire Truck, consider the following common solutions:

Problem	Possible Cause	Solution
Vehicle does not move.	Battery not connected or discharged.	Ensure battery is properly connected. Charge the battery for 4-6 hours.
Remote control not working.	Batteries in remote are dead or not inserted correctly. Remote not paired.	Replace remote control batteries. Refer to remote manual for pairing instructions.
Water gun not spraying.	Water tank empty or hose disconnected.	Fill water tank. Ensure hose is securely connected to the tank and water gun.
Vehicle moves slowly or lacks power.	Low battery charge. Overloaded vehicle.	Charge the battery. Ensure vehicle is not exceeding the 55 lbs weight limit.

If problems persist, please contact customer support.
