## JETBeam OF1

# JETBeam RIPSSHINE OF1 Rechargeable Flashlight User Manual

Model: OF1 | Brand: JETBeam

## 1. INTRODUCTION

The JETBeam RIPSSHINE OF1 is a high-performance rechargeable LED flashlight designed for various outdoor activities, emergency situations, and general home use. It features ultra-bright illumination, multiple light modes, a magnetic tail cap for hands-free operation, and robust waterproof construction.

## 2. PACKAGE CONTENTS

Verify that all items are present in the package:

- JETBeam RIPSSHINE OF1 Flashlight
- USB-C Charging Cable
- User Manual

## 3. PRODUCT FEATURES

- **Ultra Bright 10000 Lumens:** Three adjustable modes (1/5500/10000 lm) for versatile lighting, from moonlight navigation to powerful spotlight.
- **Extended Runtime:** 5000mAh battery provides up to 10+ hours runtime.
- **IPX8 Professional Waterproof:** Aviation aluminum construction withstands heavy rain, snow, and accidental drops.
- **Hands-Free Magnetic Tail:** Built-in N52 strong magnet securely attaches to metal surfaces for stable hands-free illumination.

- **Compact Pocket Design:** Lightweight 108g body with intuitive single-button operation for quick mode switching.
- **Versatile Outdoor Companion:** Ideal for camping, hiking, night patrols, power outages, and preparedness.

## 4. SAFETY INFORMATION

- Do not shine the flashlight directly into eyes.
- Keep out of reach of children.
- Do not disassemble the flashlight head as this may damage the LEDs or battery.
- Use only the recommended battery type and charging cable.
- Avoid extreme temperatures.

## 5. CHARGING THE FLASHLIGHT

The RIPSSHINE OF1 flashlight is equipped with a USB-C charging port. To charge:

1. Locate the USB-C charging port on the flashlight body.
2. Connect the provided USB-C cable to the flashlight.
3. Connect the other end of the cable to a USB power source (e.g., wall adapter, computer, power bank).
4. The indicator light will show charging status (refer to the flashlight's specific indicator behavior for full/low charge).

## 6. OPERATING INSTRUCTIONS

The RIPSSHINE OF1 features a single-button interface for various functions. Refer to the diagram below for a visual guide to operations.

# 10000 Lumens

Using three **XHP50.2 LEDs**, the maximum burst is **10,000 lumens**, far exceeding the performance of the same type of straight flashlight

# 50000 h

*Image: Diagram illustrating the operating instructions for the RIPSSHINE OF1 flashlight, including power on/off, mode switching, locking, and voltage detection.*

## Basic Operation:

- **Power On/Off:** Single click the button.
- **Mode Switching (Infinite Upshift/Downshift):** When powered on, long click to cycle through brightness levels. Release to select.
- **Instant Turbo Mode:** Double click from any status.
- **Moon Mode:** Long click from power off status.
- **Voltage Detection:** From power off, 3 clicks will flash 3 times, then 5 times, indicating 3.5V (example).

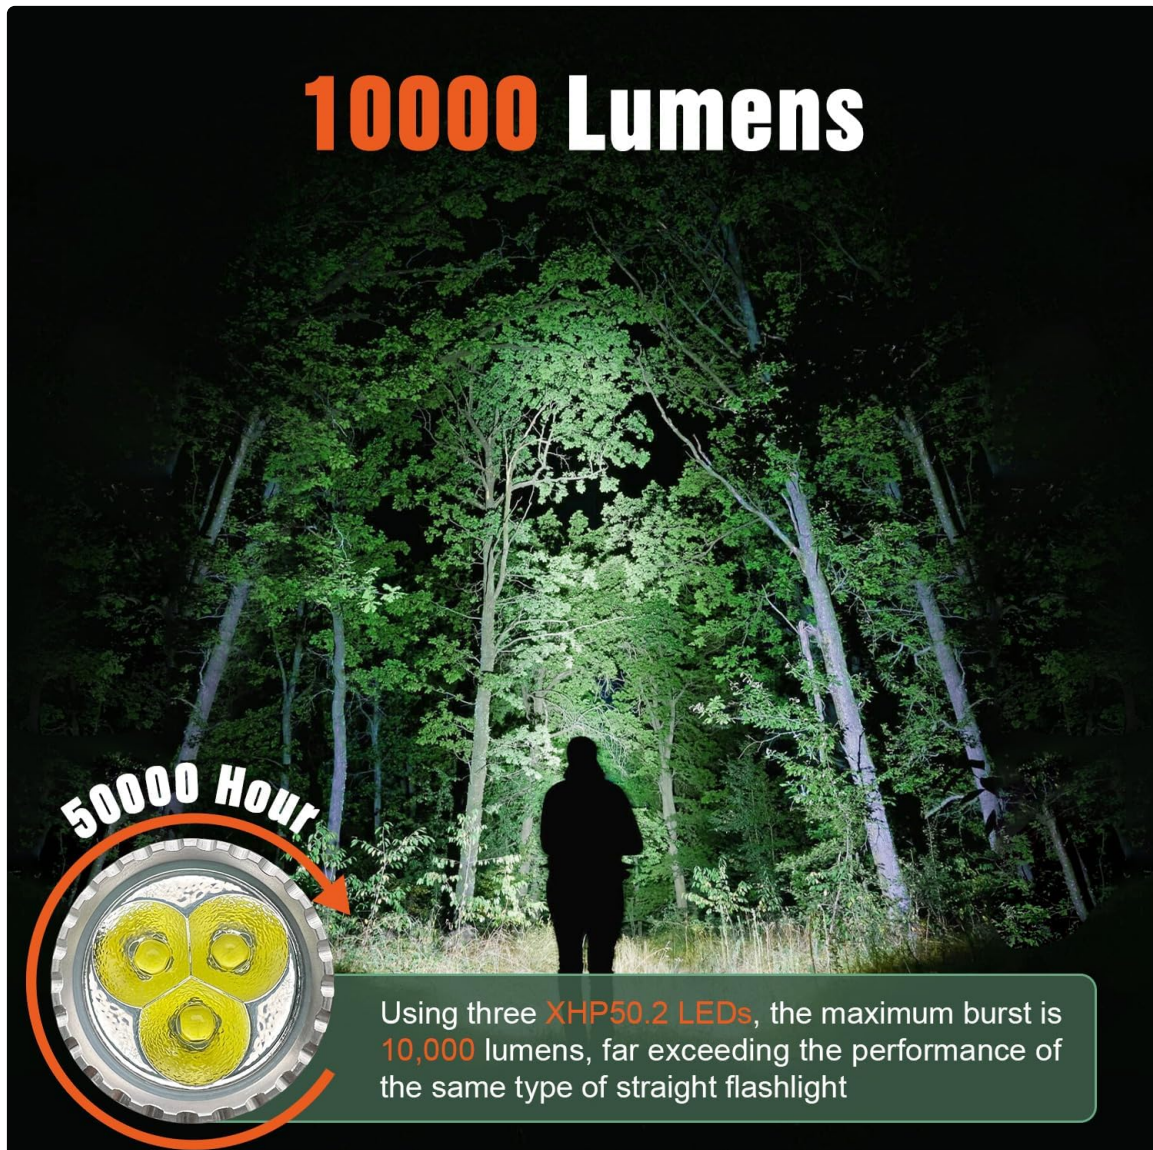

## Advanced Features:

- **Locking/Unlocking:** 4 clicks from any status to lock. 4 clicks again to unlock.
- **Enter Advanced Mode:** 9 clicks + long click from power off. Refer to the diagram for specific advanced mode functions like Candlelight mode and Lightning mode.

## 7. LIGHT MODES AND BRIGHTNESS

The RIPSSHINE OF1 offers a range of brightness levels to suit different needs:

- **Moon Mode:** 1 lumen, ideal for close-up tasks without disturbing others, with an extended runtime of up to 80 days.
- **High Mode:** 5500 lumens, suitable for general illumination, offering 30 seconds of high output followed by 10 hours and 15 minutes at a lower sustained level.
- **Turbo Mode:** 10000 lumens, maximum brightness for powerful spotlighting, providing 30 seconds of peak output followed by 10 hours and 5 minutes at a lower sustained level.

## 8. MAGNETIC TAIL FUNCTIONALITY

The integrated N52 strong magnetic tail allows for convenient hands-free use. Attach the flashlight to any ferrous metal surface to direct light where needed. This feature is particularly useful for:

- Automotive repairs

- Camping illumination
- Workshop tasks
- Emergency lighting

*Image: The RIPSSHINE OF1 flashlight demonstrating its N52 magnetic tail, attaching to a metal surface for hands-free use in various scenarios.*

## 9. WATERPROOF AND DURABILITY

The RIPSSHINE OF1 is built with aviation-grade aluminum and features an IPX8 waterproof rating, ensuring reliable performance in challenging environments. It is designed to withstand:

- Submersion in water up to 2 meters (according to ANSI PLATO FL1A standard).
- Drops from up to 1.5 meters (according to ANSI/PLATO FL1 test standard).

# Magnetic tail

The tail has a built-in **N52 strong magnet**, which can be easily adsorbed at any angle to provide help.

**N52**

**Magnetic work light**

**Magnetic camping light**

**Magnetic repair**

## 10. MAINTENANCE

To ensure optimal performance and longevity of your RIPSSHINE OF1 flashlight:

- **Cleaning:** Wipe the flashlight body with a clean, soft cloth. For stubborn dirt, use a slightly damp cloth.
- **Lubrication:** Periodically apply silicone grease to the O-rings to maintain waterproof sealing.
- **Battery Care:** Charge the battery regularly, especially if not used for extended periods, to prevent deep discharge.
- **Storage:** Store the flashlight in a cool, dry place away from direct sunlight and extreme temperatures.

## 11. TROUBLESHOOTING

If you encounter issues with your flashlight, try the following:

- **Flashlight not turning on:**
  - Check battery charge level.
  - Ensure the battery is inserted correctly with the positive (+) end facing the head.
  - Tighten the tail cap and head cap securely.
  - Clean battery contacts with a cotton swab and rubbing alcohol.
- **Light output is dim or flickering:**
  - Recharge the battery.
  - Ensure battery contacts are clean.
- **Water ingress:**
  - Check O-rings for damage or proper seating. Lubricate if dry.
  - Ensure all caps are tightly sealed.

If problems persist, contact customer support.

## 12. SPECIFICATIONS

Detailed specifications for the JETBeam RIPSSHINE OF1 Flashlight:

Feature	Detail
Model Number	OF1
White Brightness	10000 Lumens (Max)
Light Source Type	LED (CREE XHP50.2*3)
Power Source	Battery Powered
Battery Type	Lithium Ion (5000mAh)
Water Resistance Level	IPX8 Waterproof
Material	Anodized Aluminum
Item Weight	2.72 ounces (108g)
Item Dimensions (L x W x H)	5"L x 1.25"W x 0.6"H (113*35mm)
Mounting Type	Magnetic Mount
Color Temperature	22800 Kelvin
Beam Distance	302 meters
Special Features	Adjustable Light Modes, High Lumens, Weatherproof, Smart Temperature Control, Low Voltage Warning

# Waterproof

**IPX8** waterproof, According to the ANSI PLATO FL1A standard, the product passed the "normal use under two meters of water" test in the RIPSSHINE laboratory

## 1.5m drop protection

According to the ANSI/PLATO FL1 test standard, the product can be used normally after being dropped from 1 meter. All test results are obtained by testing in the RIPSSHINE laboratory.
