Operating Instructions

Adjusting the Headboard

The padded headboard of your VASAGLE bed frame is adjustable to accommodate different mattress thicknesses. It can be set to two different heights:

- **Level 1:** 110 cm height
- **Level 2:** 116.5 cm height

This adjustment allows the headboard to perfectly suit mattresses between 20 and 30 cm in thickness.

Maintenance

- **Cleaning the Fabric:** For general cleaning, gently wipe the upholstered headboard and frame with a soft, damp cloth. For spills, blot immediately with a clean, dry cloth. Avoid harsh chemicals or abrasive cleaners.
- **Metal Frame Care:** Wipe the metal parts with a dry or slightly damp cloth. Do not use abrasive materials that could scratch the finish.
- **Regular Checks:** Periodically inspect all bolts and screws to ensure they remain tight. Retighten if necessary to maintain stability

and prevent squeaks.

- **Floor Protection:** The bed frame includes pads on the legs to protect your floor. Ensure these pads are intact and in place.
