SAFETY INFORMATION

- Always disconnect power before installation or maintenance.
- Installation should be performed by a qualified electrician if hardwiring is chosen.
- Do not attempt to modify the mirror or its electrical components.
- Keep the mirror away from direct water spray to prevent electrical hazards, despite its IP54 rating.
- Handle with care to avoid damage during installation.

PACKAGE CONTENTS

Verify that all components are present before beginning installation:

- LOVESPEJO 24 Inch Round Backlit LED Bathroom Mirror

- Mounting Bracket
- Installation Hardware (screws, wall anchors)
- Instruction Manual

SETUP AND INSTALLATION

Choosing the Right Size

To ensure proper fit and aesthetic, consider the following guidelines:

- The mirror should typically be as wide as, or slightly narrower than, your vanity.
- Allow 5-8 inches of clearance above the vanity and below the ceiling for optimal placement.

Image: Guide for selecting the appropriate mirror size for your vanity.

Mounting Instructions

1. **Step 1: Fix the Holder on the Wall.** Carefully measure and mark the desired position for the mounting bracket on your wall. Ensure the bracket is level. Drill pilot holes and secure the mounting bracket using the provided screws and wall anchors.
2. **Step 2: Hang the Mirror with Bracket.** Align the mirror's integrated bracket with the wall-mounted holder. Carefully lift and hang the mirror, ensuring it is securely seated on the bracket.

Image: Visual guide for mounting the mirror.

Connection Options: Plug-in or Hardwired

Your mirror offers two power connection methods:

- **Plug-in:** Connect the mirror's power cord directly to a standard electrical outlet.
- **Hardwired:** For a seamless look, the mirror can be hardwired directly into your electrical system. **We strongly recommend hiring a professional electrician for hardwiring to ensure safety and compliance with local electrical codes.**

Brighter and Durable LED Light

- CRI 90+
- IP54 Waterproof
- Energy Conservation
- 50000+ Hour Lifespan

OPERATING INSTRUCTIONS

The mirror features intuitive touch controls located on the mirror surface.

Power On/Off

- To turn the light **ON** or **OFF**, simply **double-touch** the power button icon on the mirror surface.

Image: Demonstrating the double-touch action to power the mirror light on or off.

Adjusting Color Temperature (3 Colors)

- The mirror offers three color temperature modes: Warm (3000K), Natural (4500K), and Cool White (6000K).
- To change the color temperature, **short touch** the color changing icon. Each short touch will cycle through the available modes.

Image: Visual representation of the three color temperature options and how to switch between them.

Adjusting Brightness (Stepless Dimmable)

- For each color temperature, you can adjust the brightness from 10% to 100%.
- To adjust the brightness, **long press** the brightness control icon. The brightness will gradually increase or decrease. Release your finger when the desired brightness level is reached.

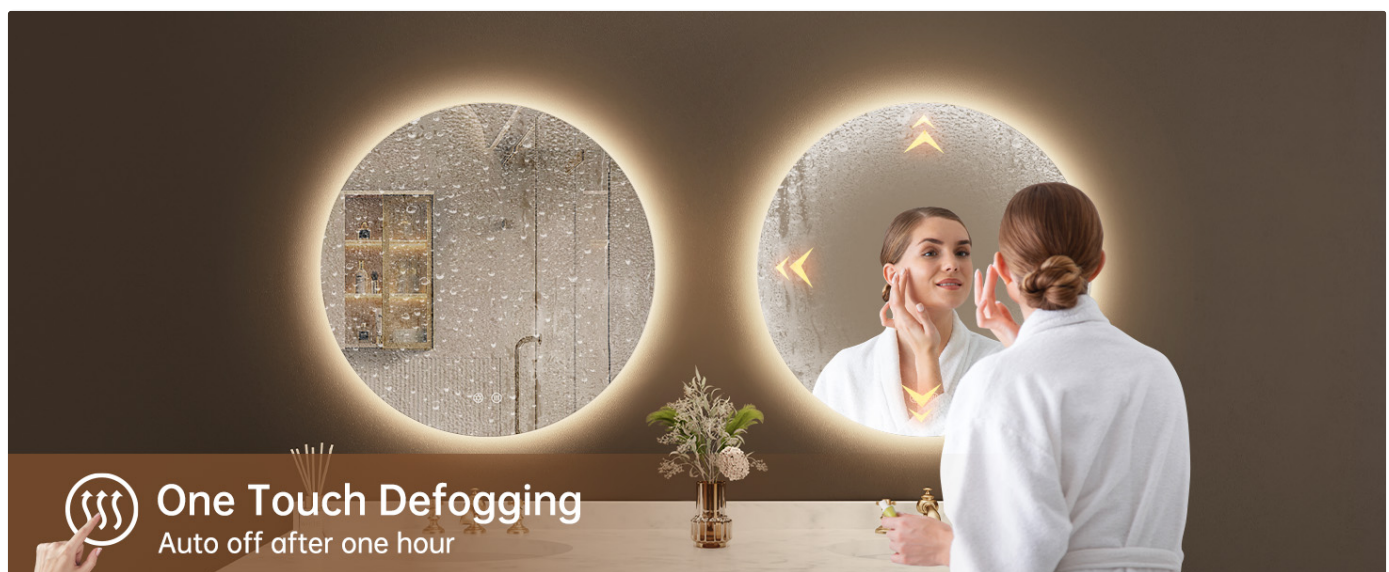

Image: Demonstration of stepless dimming by long-pressing the brightness control.

Anti-Fog Function

- The anti-fog function is controlled by a separate button.
- Press the anti-fog button to activate the defogger, which quickly clears water vapor from the mirror surface.
- For energy saving, this feature will automatically turn off after one hour.

Image: Visualizing the anti-fog function clearing steam from the mirror surface.

Memory Function

- The smart memory function automatically saves your last light setting (color temperature and brightness level) for your convenience.

MAINTENANCE

Cleaning the Mirror

- To clean the mirror surface, use a soft, lint-free cloth and a non-abrasive glass cleaner.
- Avoid spraying cleaner directly onto the mirror's edges or electrical components. Apply cleaner to the cloth first.
- Do not use harsh chemicals or abrasive materials, as these can damage the mirror's finish or LED components.

Durability and Safety Features

- **IP54 Waterproof Rating:** The mirror is designed with an IP54 rating, providing protection against dust and splashing water, making it suitable for bathroom environments.
- **Shatterproof Glass:** Constructed with 5MM HD copper-free and mercury-free silver mirror, featuring a shatterproof film for double protection against breakage.
- **Long-lasting LED:** The integrated LED lights have a lifespan of over 50,000 hours.

TROUBLESHOOTING

If you encounter any issues with your LOVESPEJO mirror, please refer to the following common solutions:

Problem	Possible Cause	Solution
Light does not turn on	No power supply; loose connection; power button not activated correctly.	Check power outlet/hardwired connection. Ensure power is supplied to the mirror. Double-touch the power button firmly.
Anti-fog function not working	Anti-fog button not activated; function timed out.	Press the separate anti-fog button. If it was on, it might have automatically turned off after one hour; reactivate it.
Light brightness or color not changing	Incorrect touch gesture.	For color change, use a short touch . For brightness adjustment, use a long press .
Mirror surface appears distorted	Improper installation; manufacturing defect.	Ensure the mirror is mounted flat against the wall. If distortion persists, contact customer support.
