SETUP

1. SIM Card and Memory Card Installation

The phone supports dual SIM cards (1 standard SIM + 1 Nano SIM) and one memory card (up to 16GB, not included). Ensure your SIM card supports 2G GSM networks (850/900/1800/1900 MHZ).

1. **Power Off:** Before inserting or removing cards, ensure the phone is powered off.
2. **Remove Back Cover:** Gently slide or pry open the back cover of the phone.
3. **Insert SIM Cards:** Locate the SIM card slots. Insert your standard SIM card and Nano SIM card into their respective slots, ensuring the gold contacts face downwards and the cards are correctly oriented as indicated on the phone.

4. **Insert Memory Card:** Locate the memory card slot. Insert a compatible memory card (MicroSD, up to 16GB) into the slot until it clicks into place.
5. **Replace Back Cover:** Carefully reattach the back cover until it is securely closed.

2. Battery Installation and Charging

The phone comes with a 1000mAh Lithium-ion battery.

1. **Install Battery:** If the battery is not pre-installed, remove the back cover and insert the battery into the compartment, aligning the contacts.
2. **Initial Charge:** Connect the Type-C charging cable to the phone's charging port and the other end to a power adapter. Charge the phone fully before first use. The battery indicator on the screen will show charging status.

OPERATING INSTRUCTIONS

1. Power On/Off

- **Power On:** Press and hold the Power/End Call button (usually red) until the screen lights up.
- **Power Off:** Press and hold the Power/End Call button until the power off options appear, then select "Power Off" or continue holding until the phone shuts down.

2. Basic Navigation

Use the navigation keys (up, down, left, right) and the central selection key to move through menus and confirm selections. The left and right soft keys perform functions indicated on the screen above them.

3. Making and Receiving Calls

- **Making a Call:** Enter the phone number using the keypad and press the Call button (usually green).
- **Receiving a Call:** When the phone rings, press the Call button to answer. Press the End Call button to reject or end a call.
- **Loud Speaker:** The phone features a high-volume speaker for clear audio during calls.

4. Sending and Receiving Text Messages

- Navigate to the "Messages" menu.
- Select "New Message" to compose a text. Enter the recipient's number and your message.
- Press "Send" to transmit the message.
- Received messages will appear in your inbox.

5. Multimedia Features

- **Camera:** Access the camera from the main menu. Use the navigation keys to adjust settings and the central key to capture

photos. The phone has an approximate 300,000 pixel camera.

- **MP3/MP4 Player:** Store music and video files on a memory card. Access the MP3/MP4 player from the multimedia menu to play your media.
- **FM Radio:** Plug in headphones (3.5mm jack) to use as an antenna, then access the FM Radio feature to listen to local stations.

6. Additional Functions

- **Bluetooth:** Enable Bluetooth from the settings menu to connect to compatible devices like headsets.
- **Alarm:** Set multiple alarms with custom tones.
- **Calendar:** View dates and add reminders.
- **Flashlight:** Activate the built-in flashlight for illumination.
- **Calculator:** Perform basic arithmetic operations.
- **Games:** Access pre-installed games for entertainment.
- **Internet Access/Browser:** The phone supports basic internet access and a browser. Note that this is a 2G device, so

internet speeds will be limited.

- **Voice Changing Function:** This feature allows you to change your voice to male, female, or child during calls. Access this option from the call menu.

7. Quick Dial for Family

You can set up to 9 family numbers for quick dialing. This allows you to call frequently contacted numbers without navigating through the phonebook.

1. Go to "Settings" or "Phonebook" menu.
2. Locate "Speed Dial" or "Family Numbers" option.
3. Assign a number (e.g., 2-9) to a contact from your phonebook.
4. To quick dial, simply press and hold the assigned number key.

8. Slider Mechanism

The phone features a slider design. Slide the top part of the phone upwards to reveal the keypad and unlock the screen. Slide it down to cover the keypad and lock the screen, making it compact and portable.
