

TIQLAB 55x28 Inch Standing Desk (B0FS23WG9Q)

TIQLAB 55x28 Inch Adjustable Height Standing Desk User Manual

INTRODUCTION

This manual provides detailed instructions for the assembly, operation, and maintenance of your TIQLAB 55x28 Inch Adjustable Height Standing Desk. Please read this manual thoroughly before use to ensure proper function and safety. This desk is designed to offer a versatile workspace, allowing you to switch between sitting and standing positions to promote a healthier and more productive work environment.

SAFETY INFORMATION

Always follow these safety guidelines to prevent injury and ensure the longevity of your desk:

- Always follow the assembly instructions carefully.
- Do not attempt to lift the desk when it is in motion.
- Ensure the desk is properly anchored to the floor to prevent tipping.
- Do not exceed the maximum weight limit of 176 lbs (80 kg).
- Keep children and pets away from the desk when it is in operation.
- Avoid placing liquids directly on the control panel or near electrical components.
- Do not disassemble or modify the desk's motor or control system. Contact support for service.

PRODUCT OVERVIEW

The TIQLAB 55x28 Inch Adjustable Height Standing Desk features a robust design with an electric lift system, allowing for seamless transitions between sitting and standing. It includes a spacious desktop and convenient accessories to enhance your workspace.

Key Features:

- **Adjustable Height:** Easily switch between sitting and standing positions.
- **Spacious Desktop:** 55x28 inch surface made of FSC-Certified engineered wood.
- **Sturdy Construction:** Metal base and powerful motor support up to 176 lbs.
- **Quiet Operation:** Motor operates at less than 45dB.
- **Anti-Collision System:** Prevents damage by detecting obstacles during movement.
- **Memory Presets:** Store preferred height settings for quick adjustments.
- **Integrated Hooks:** Two desk hooks for headphones or bags.
- **Adjustable Foot Pads:** Ensures stability on uneven surfaces.

SETUP

Assembly Instructions:

The TIQLAB Standing Desk is designed for quick assembly, typically within 30 minutes. The package includes step-by-step instructions, clearly labeled parts, and a specialized L-shaped Allen wrench.

1. **Unpack Components:** Carefully remove all parts from the packaging and verify against the included parts list.
2. **Assemble Desk Legs:** Attach the feet to the desk legs using the provided screws and Allen wrench.
3. **Attach Crossbar:** Connect the crossbar between the two desk legs.
4. **Mount Motor and Control Box:** Secure the motor and control box to the designated areas on the frame.
5. **Attach Desktop:** Carefully place the desktop onto the assembled frame and secure it with screws.
6. **Connect Cables:** Plug in all motor and control panel cables to the control box.
7. **Install Accessories:** Attach the desk hooks and adjust the foot pads as needed for stability.

Initial Setup / Reset:

If the desk does not respond or displays an error code, a reset may be required. Consult the full manual for specific reset procedures if available, or contact customer support.

MAINTENANCE

Regular maintenance ensures optimal performance and extends the life of your TIQLAB Standing Desk.

- **Cleaning:** Wipe the desktop surface with a soft, damp cloth. Avoid abrasive cleaners or harsh chemicals.
- **Frame:** Periodically check all screws and bolts to ensure they are tight. Retighten if necessary.
- **Cables:** Ensure all cables are securely connected and not pinched or damaged.
- **Weight Limit:** Do not overload the desk beyond its 176 lbs capacity.

TROUBLESHOOTING

If you encounter issues with your desk, refer to the following common solutions:

Problem	Possible Cause	Solution
Desk does not move	Power cable disconnected; Control panel cable loose; Overload protection activated.	Check all cable connections. Reduce weight on the desk. Unplug and replug the power cord after 10 seconds.
Desk moves unevenly or makes unusual noise	Uneven load; Loose screws; Obstruction.	Ensure weight is evenly distributed. Check and tighten all assembly screws. Remove any obstructions.
Anti-collision system triggers frequently	Sensitivity too high; Obstacles in path.	Ensure no objects are in the desk's path. Refer to the full manual for adjusting anti-collision sensitivity if applicable.

If these solutions do not resolve the issue, please contact TIQLAB customer support.
