MAHANCRIS 10 Gallon Fish Tank Stand (Model FTWT2101) Instruction Manual

Model: FTWT2101

INTRODUCTION

Thank you for choosing the MAHANCRIS 10 Gallon Fish Tank Stand, Model FTWT2101. This stand is designed to provide a stable and organized base for your aquarium. It features a two-tier design with a top surface suitable for 10-gallon tanks and a lower shelf for smaller tanks or accessories. The integrated cabinet offers convenient storage. Please read this manual thoroughly before assembly and use to ensure proper setup and safe operation.

SAFETY INFORMATION

- **Weight Capacity:** Do not exceed the maximum weight capacity of 450 lbs for the top surface and 150 lbs for the lower shelf. Overloading can cause structural failure and injury.
- **Level Surface:** Always place the stand on a flat, level, and stable surface to prevent tipping.
- **Water Safety:** Exercise caution when handling water around electrical components. Ensure all electrical cords are properly routed and secured.
- **Children and Pets:** Keep children and pets away from the assembly area. Do not allow them to climb on or play with the stand.
- **Assembly:** Follow all assembly instructions carefully. Ensure all fasteners are tightened securely before placing an aquarium on the stand.
- **Moving the Stand:** Always empty the aquarium and remove all items from the stand before attempting to move it.

PACKAGE CONTENTS

Before beginning assembly, verify that all parts listed below are present and undamaged. If any parts are missing or damaged, please contact customer support.

- Top Panel

- Bottom Shelf
- Side Panels (x2)
- Back Panel
- Cabinet Doors (x2)
- Metal Frame Components
- Adjustable Leveling Feet (x4)
- Hardware Pack (screws, dowels, hinges, handles, magnetic catches)
- Assembly Tool (e.g., Allen wrench)
- Instruction Manual

ASSEMBLY INSTRUCTIONS

Assembly typically requires two people. Please follow the steps below carefully.

1. **Prepare the Area:** Clear a spacious, clean, and soft surface (e.g., a carpet) to prevent scratching the parts during assembly.
2. **Identify Parts:** Lay out all components and hardware. Refer to the included parts diagram to identify each piece.
3. **Assemble the Metal Frame:** Connect the metal frame components using the provided screws and the assembly tool. Ensure all connections are secure.
4. **Attach Side and Back Panels:** Secure the side and back panels to the metal frame using the designated hardware.
5. **Install Top Panel:** Place the top panel onto the assembled frame and secure it with screws.
6. **Install Bottom Shelf:** Attach the bottom shelf to the lower section of the frame.
7. **Assemble Cabinet Doors:** Attach hinges to the cabinet doors and then mount the doors to the stand. Install the handles and magnetic catches. Ensure doors open and close smoothly.
8. **Attach Leveling Feet:** Screw the adjustable leveling feet into the bottom of the stand. Adjust them as needed to ensure the stand is perfectly level on your floor.

For 10 Gallon Tanks

Note: Measure your aquarium first for a proper fit.

OPERATING INSTRUCTIONS

- **Placement:** Position the stand in its desired location, ensuring it is level using the adjustable feet.
- **Aquarium Installation:** Carefully place your 10-gallon aquarium on the top surface of the stand. Ensure it is centered and stable before filling with water. The top surface supports up to 450 lbs.
- **Lower Shelf Use:** The lower shelf can accommodate a smaller 5-gallon tank or terrarium, supporting up to 150 lbs. Alternatively, use it for decorative items or additional storage.
- **Cabinet Storage:** Utilize the enclosed cabinet for storing fish food, nets, water treatment chemicals, and other aquarium accessories to keep your area tidy.

Two-Level Design

Creates practical space for storage below your tank.

MAINTENANCE

- **Cleaning:** Wipe the stand surfaces with a soft, damp cloth. Avoid abrasive cleaners or harsh chemicals that could damage the finish.
- **Spills:** Immediately wipe up any water spills to prevent damage to the engineered wood components.
- **Fastener Check:** Periodically check all screws and fasteners to ensure they remain tight. Retighten if necessary.
- **Leveling:** Re-check the stand's level periodically, especially after moving or if the floor settles. Adjust the leveling feet as needed.

TROUBLESHOOTING

Problem	Possible Cause	Solution
Stand is wobbly or uneven.	Uneven floor; loose fasteners.	Adjust the leveling feet until stable. Check and tighten all assembly screws.
Cabinet doors do not close properly.	Hinges are misaligned; magnetic catches are not aligned.	Adjust hinge screws to align doors. Realign magnetic catches if necessary.
Damage to surface from water.	Water spills not wiped immediately.	Always wipe up water spills promptly. For existing damage, consider a waterproof mat under the tank.
