2. SAFETY INFORMATION

- **Read Instructions:** Carefully read and understand all assembly instructions before beginning.
- **Two-Person Assembly:** Assembly is recommended for two adults to ensure safety and ease.
- **Clear Area:** Assemble the bed in a spacious, clear area to prevent injury or damage.
- **Proper Tools:** Use only the tools provided or recommended in this manual.
- **Tighten Fasteners:** Ensure all bolts, screws, and connectors are securely tightened before use. Periodically check and re-tighten as needed.
- **Weight Capacity:** Do not exceed the maximum weight capacity of 700 lbs.
- **Mattress Compatibility:** Use a mattress between 6 and 12 inches thick.
- **No Jumping:** Do not jump on the bed.
- **Keep Away from Children:** Small parts can be a choking hazard. Keep assembly components away from young children.

3. PACKAGE CONTENTS

Before assembly, verify that all parts listed below are present and undamaged. If any parts are missing or damaged, contact customer support immediately.

Figure 2: All Components Included in Package

The package typically includes:

- Headboard (1)
- Side Rails (2)
- Footboard (1)
- Center Support Beam (1)
- Wooden Slats (Multiple)
- Support Legs (for frame and center beam)
- Hardware Pack (bolts, washers, nuts, Allen wrench)
- Installation Manual (this document)

4. SETUP (ASSEMBLY INSTRUCTIONS)

Follow these steps carefully for proper assembly. It is recommended to have two adults for assembly.

Step 1: Prepare Components

Unpack all components and lay them out on a soft, clean surface to prevent scratches. Identify each part using the package contents list.

Step 2: Attach Side Rails to Headboard and Footboard

Connect the side rails to the headboard and footboard using the provided bolts and washers. Do not fully tighten the bolts until all frame components are aligned.

Step 3: Install Center Support Beam and Legs

Attach the center support beam to the headboard and footboard brackets. Screw in the support legs to the center beam and the corners of the bed frame. Ensure all legs are firmly attached and level.

Step 4: Place Wooden Slats

Evenly space and place the wooden slats across the side rails. Secure them in place using the provided fasteners or plastic caps, ensuring they are firmly seated to support the mattress.

5. OPERATING INSTRUCTIONS

Mattress Placement

Place your Queen size mattress directly onto the wooden slats. The embedded design of the bed frame helps to keep the mattress securely in place, preventing sliding.

Weight Capacity

The bed frame is designed to support a significant weight. For Queen size, ensure the combined weight of occupants and mattress does not exceed the recommended limit of 700 lbs.

6. MAINTENANCE

- **Cleaning Fabric:** For the teddy fleece fabric, gently vacuum with an upholstery attachment to remove dust and debris. For spills, blot immediately with a clean, dry cloth. For stubborn stains, use a mild fabric cleaner specifically designed for upholstery, testing on an inconspicuous area first.
- **Cleaning Wood Legs:** Wipe the solid wood legs with a soft, damp cloth. Avoid harsh chemicals that may damage the finish.
- **Hardware Check:** Periodically (every 3-6 months) check all bolts and screws to ensure they remain tight. Re-tighten as necessary to maintain stability and prevent squeaking.
- **Avoid Direct Sunlight:** Prolonged exposure to direct sunlight can cause fabric fading.
- **Avoid Excessive Moisture:** Keep the bed in a dry environment to prevent damage to the wood and fabric.

7. TROUBLESHOOTING

| Problem | Possible Cause | Solution |
|-------------------------------|---|--|
| Bed is wobbly or unstable | Loose bolts or uneven legs. | Ensure all bolts are securely tightened. Check if the bed is on a level surface; adjust leg levelers if applicable or place shims under legs. |
| Squeaking noises | Loose connections, friction between slats and frame, or uneven weight distribution. | Re-tighten all hardware. Apply felt pads or thin fabric strips between slats and frame where they meet. Ensure mattress is evenly placed. |
| Mattress slides | Incorrect mattress size or lack of friction. | Ensure you are using a Queen size mattress. The bed features an embedded design to prevent sliding; if sliding occurs, consider a non-slip mattress pad. |
| Missing parts during assembly | Packaging error. | Review the package contents list. Contact Merax customer support with your purchase details for replacement parts. |
