HUAWEI Atum-B19W

HUAWEI Watch GT 6 Smart Watch User Manual

Model: Atum-B19W

INTRODUCTION

This manual provides essential instructions for setting up, operating, maintaining, and troubleshooting your HUAWEI Watch GT 6 Smart Watch. Please read this guide thoroughly to ensure proper use and to maximize the device's capabilities.

The HUAWEI Watch GT 6 is a sophisticated smartwatch designed for health monitoring, fitness tracking, and smart daily interactions. It features a 1.47-inch display, extended battery life, GPS capabilities, and compatibility with both iOS and Android devices.

SETUP

1. Unboxing and Initial Inspection

Carefully remove all components from the packaging. Verify that all items listed in the product's packaging contents are present and undamaged. The package typically includes the HUAWEI Watch GT 6, a charging cable, and this user manual.

2. Charging the Device

Before first use, fully charge your HUAWEI Watch GT 6. Connect the charging cable to the charging port on the back of the watch and to a compatible USB power adapter (not included) or a computer's USB port. The watch display will indicate charging status.

Image: Rear view of the HUAWEI Watch GT 6, highlighting the charging contacts and health sensors. Ensure these contacts are clean for optimal charging.

3. Powering On/Off

- **Power On:** Press and hold the Up button (usually the top right button) until the HUAWEI logo appears.
- **Power Off:** Press and hold the Up button, then select "Power Off" from the options on the screen.

4. Pairing with Your Smartphone

1. Download and install the **HUAWEI Health app** on your smartphone. The app is compatible with both iOS and Android devices.
2. Open the HUAWEI Health app and follow the on-screen instructions to create a HUAWEI ID or log in.
3. Navigate to the "Devices" section in the app and tap "Add device" or the '+' icon.
4. Select "Smartwatches" and choose your HUAWEI Watch GT 6 from the list of available devices.
5. Confirm the pairing request on both your watch and smartphone.

Broadly Compatible

Compatible with both iOS and Android for greater ease of use.

OPERATING INSTRUCTIONS

Basic Navigation

- **Touchscreen:** Swipe up, down, left, or right to navigate through menus and notifications. Tap to select items.
- **Up Button (Crown):** Press to access the app list or return to the home screen. Rotate to scroll through lists or zoom in/out (if supported by the watch face/app).
- **Down Button:** Customizable shortcut button. By default, it may open a specific workout mode or a frequently used app.

Health Monitoring

Utilizing the HUAWEI TruSense System, the watch provides comprehensive health data:

- **Heart Rate Monitoring:** Continuous tracking of your heart rate.
- **Sleep Tracking:** Monitors sleep stages and quality.
- **Emotional Wellbeing:** Categorizes emotional states and provides insights.
- **Workout Data:** Tracks various metrics during physical activities.

Sports Modes and GPS

The watch supports over 100 sports modes, including skiing, yoga, and strength exercises. The upgraded HUAWEI Sunflower Positioning System enhances GPS accuracy by 20% for outdoor activities.

Smart Experiences

- **Bluetooth Calls:** Make and receive calls directly from your wrist when connected to your smartphone.
- **Remote Shutter:** Use the watch to remotely control your phone's camera to take photos.
- **Music Control:** Control music playback on your paired smartphone.

MAINTENANCE

Cleaning Your Watch

- Regularly clean the watch casing, screen, and strap with a soft, lint-free cloth.
- For stubborn dirt, slightly dampen the cloth with water. Avoid using harsh chemicals or abrasive materials.
- Ensure the charging contacts on the back of the watch are clean and dry to prevent charging issues.

Water Resistance

The HUAWEI Watch GT 6 is designed with a certain level of water resistance. Refer to the official product specifications for the exact ATM rating. Avoid exposing the watch to hot water, steam, or high-velocity water, as these can compromise the water seals. Do not press buttons underwater.

Software Updates

Periodically check for software updates via the HUAWEI Health app. Updates often include performance improvements, new features, and bug fixes. Ensure your watch is sufficiently charged before initiating an

update.

TROUBLESHOOTING

Common Issues and Solutions

- **Watch not turning on:** Ensure the watch is fully charged. If it still doesn't turn on, try holding the Up button for an extended period (10-15 seconds) for a forced restart.
- **Cannot pair with smartphone:**
 - Ensure Bluetooth is enabled on your smartphone and the watch.
 - Make sure the HUAWEI Health app is updated to the latest version.
 - Restart both your watch and smartphone.
 - If using an Android device, some security settings might restrict app functionality. Ensure the HUAWEI Health app has all necessary permissions enabled in your phone's settings.
- **Inaccurate health data:**
 - Ensure the watch is worn snugly on your wrist, about one finger's width above the wrist bone.
 - Keep the sensor area on the back of the watch clean.
- **Short battery life:**
 - Disable Always-On Display (AOD) if not needed.
 - Reduce screen brightness.
 - Limit frequent GPS usage or continuous heart rate monitoring if not required.
 - Close background apps on the watch.

If you encounter persistent issues, refer to the official HUAWEI support website or contact customer service for further assistance.

SPECIFICATIONS

Feature	Detail
Model Number	Atum-B19W
