## SETUP

### 1. Insert SIM Card

1. Locate the SIM card tray on the side of your OnePlus 15.
2. Insert the SIM ejector tool into the small hole next to the tray and press firmly until the tray pops out.
3. Place your Nano-SIM card(s) into the tray with the gold contacts facing down.
4. Carefully reinsert the tray into the phone.

### 2. Power On

- Press and hold the Power button (located on the right side) until the OnePlus logo appears.

### 3. Initial Configuration

- Follow the on-screen prompts to select your language, connect to Wi-Fi, and set up your Google account.
- You will also be guided through setting up security features like fingerprint unlock and facial recognition.

## OPERATING INSTRUCTIONS

## Basic Navigation

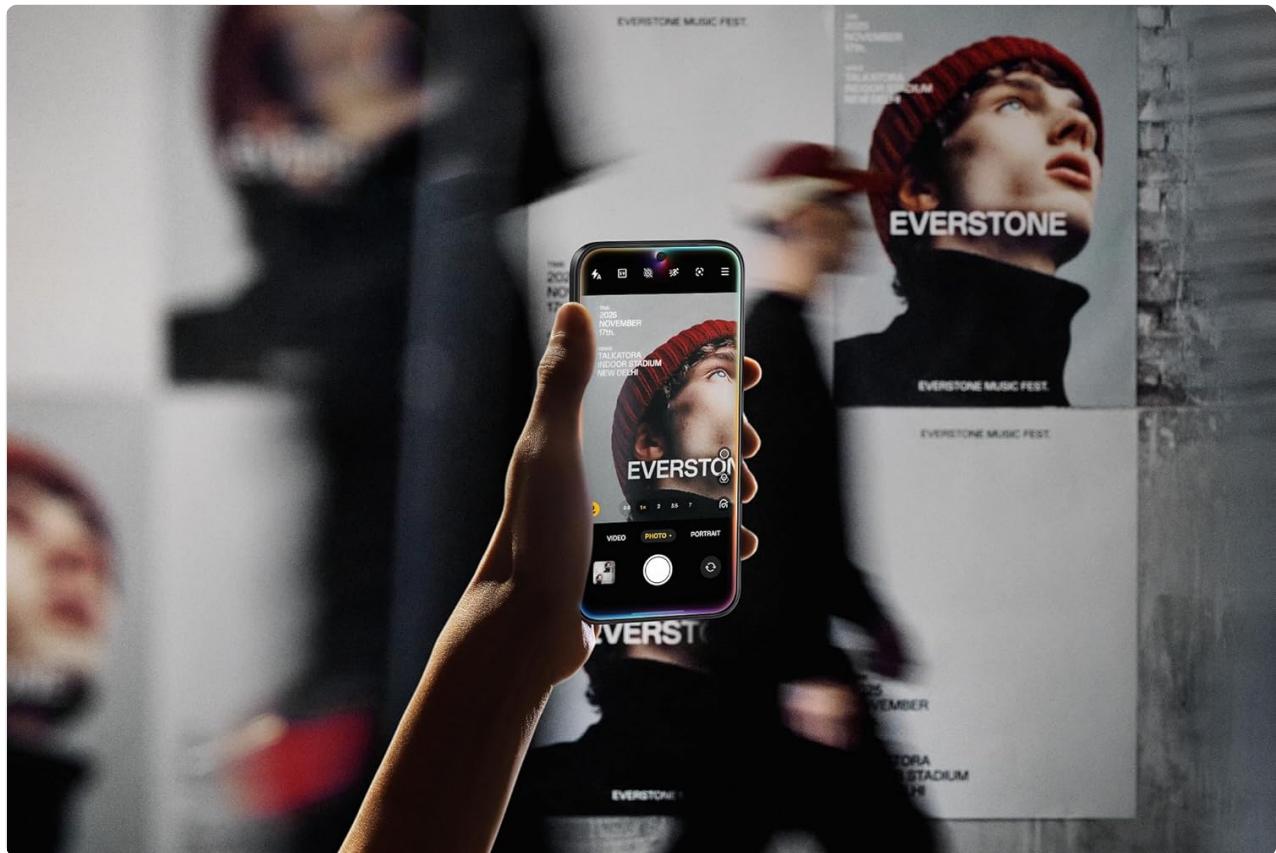

- **Home Screen:** Swipe up from the bottom to access the app drawer.
- **Notifications:** Swipe down from the top of the screen to view notifications and quick settings.
- **Multitasking:** Swipe up from the bottom and hold to view recent apps.

## OxygenOS 16

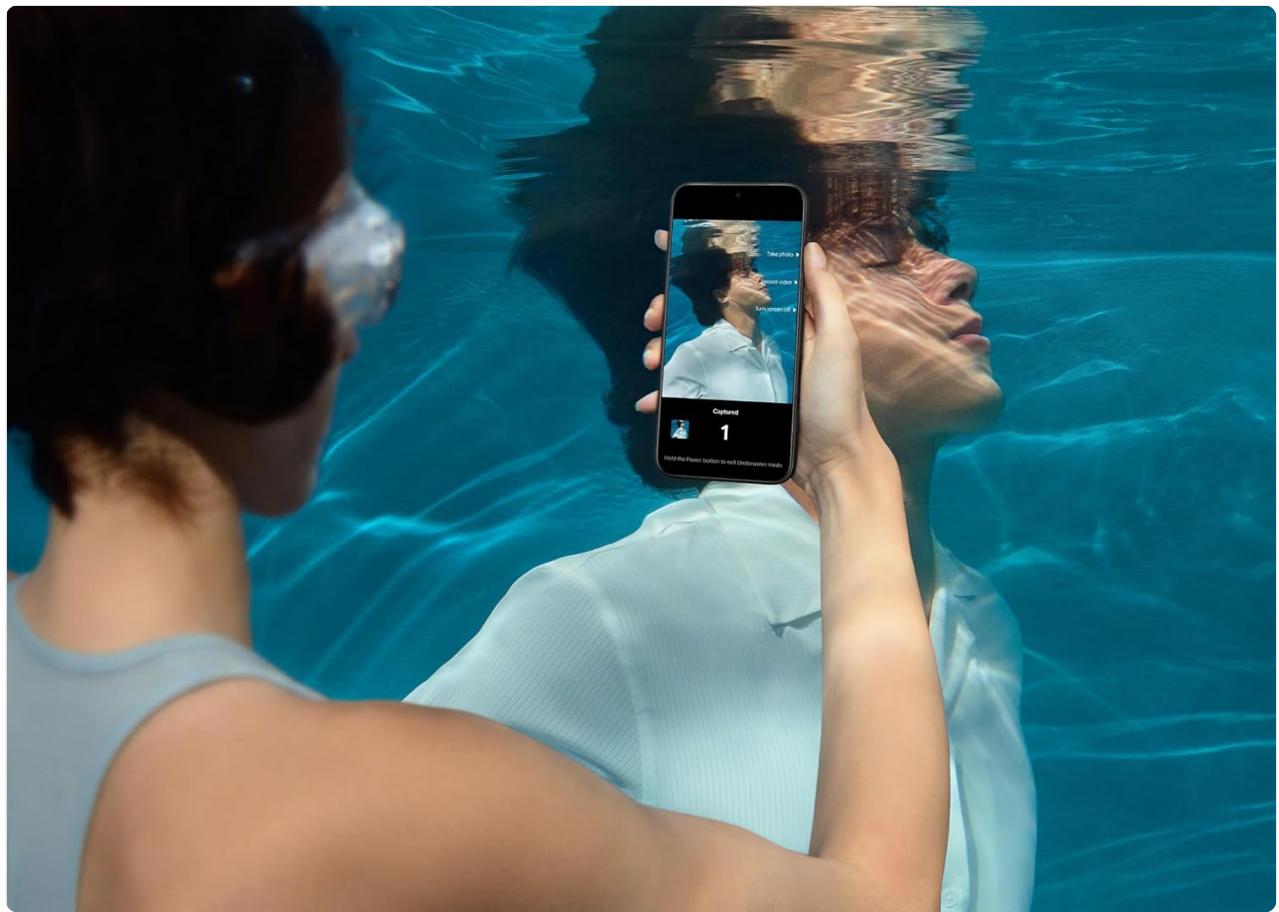

The OnePlus 15 runs on OxygenOS 16, providing a fast and smooth Android experience with customizable features and optimizations for performance and battery life.

## CAMERA FEATURES

The OnePlus 15 features a Triple 50 MP Camera System, allowing you to capture stunning photos and videos with wide, ultra-wide, and telephoto versatility.

## BATTERY AND CHARGING

The OnePlus 15 is equipped with a massive 7300mAh battery, designed to provide extended usage throughout the day and beyond. It supports fast charging to quickly get you back up and running.

## CONNECTIVITY

The device supports Dual SIM functionality, 5G network speeds, Wi-Fi, Bluetooth, NFC, and USB connectivity for versatile communication and data transfer.

## MAINTENANCE

## Cleaning Your Device

- Use a soft, lint-free cloth to clean the screen and body of the phone.
- Avoid using harsh chemicals or abrasive materials.

## Software Updates

- Regularly check for and install software updates to ensure optimal performance and security. Go to Settings > System > System updates.

## TROUBLESHOOTING

### Common Issues

- **Device unresponsive:** Press and hold the Power button for about 10 seconds to force a restart.
- **App crashes:** Clear the app's cache or reinstall the app.
- **Network issues:** Try restarting your device or resetting network settings.

### Factory Reset

If you encounter persistent issues, a factory reset may be necessary. This will erase all data on your phone, so ensure you back up important information first. Go to Settings > System > Reset options > Erase all data (factory reset).
