2. Gently push the trundle back underneath the main daybed until it is fully recessed.

6. MAINTENANCE

Proper care will extend the life and appearance of your daybed.

- **Cleaning Fabric:** For general cleaning, use a soft brush or vacuum cleaner with an upholstery attachment to remove dust and debris. For spills, blot immediately with a clean, dry cloth. For stubborn stains, use a mild fabric cleaner according to the product's instructions, testing on an inconspicuous area first. Do not use harsh chemicals or abrasive cleaners.
- **Frame Care:** Wipe the solid wood and metal frame components with a damp cloth. Avoid excessive moisture.
- **Fasteners:** Periodically check all bolts and screws to ensure they are tight. Re-tighten as necessary to maintain structural integrity and prevent squeaking.

- **Placement:** Avoid placing the daybed in direct sunlight or near heat sources, as this can cause fading or material degradation.

7. TROUBLESHOOTING

If you encounter issues with your daybed, refer to the following common solutions:

Problem	Possible Cause	Solution
Daybed feels wobbly or unstable	Loose fasteners	Check and tighten all bolts and screws. Ensure all connections are secure.
Trundle does not slide smoothly	Obstruction or misaligned runners	Check for any objects blocking the trundle's path. Ensure the trundle is properly aligned with its runners. Clean any debris from the runners.
Squeaking noises	Loose connections or friction between parts	Tighten all fasteners. If squeaking persists, apply a small amount of silicone lubricant to contact points between metal parts (avoiding fabric).
Fabric appears stained or dirty	Accumulated dirt or spills	Refer to the cleaning instructions in the Maintenance section (Section 6).
