CORBOBO LEOBOG A98

LEOBOG A98 Wireless Mechanical Gaming Keyboard User Manual

Model: LEOBOG A98 | Brand: CORBOBO

1. INTRODUCTION

Thank you for choosing the CORBOBO LEOBOG A98 Wireless Mechanical Gaming Keyboard. This keyboard is designed for versatility and performance, offering tri-mode connectivity, hot-swappable switches, vibrant RGB backlighting, and a durable gasket-mounted structure. This manual provides essential information for setting up, operating, and maintaining your keyboard.

2. PACKAGE CONTENTS

- LEOBOG A98 Wireless Mechanical Gaming Keyboard
- USB Cable
- Keycap Puller
- User Manual
- Replacement Key Switches (2)

3. SETUP AND CONNECTIVITY

3.1 Tri-Mode Multi-Device Connectivity

The LEOBOG A98 supports three connection modes: Bluetooth 5.0 (BT5.0), 2.4GHz wireless, and USB-C wired. You can pair up to 5 devices and switch between them instantly.

- **Bluetooth Mode:** Use the switch on the keyboard to select BT mode. Follow your device's instructions to pair with 'LEOBOG A98'.
- **2.4GHz Wireless Mode:** Insert the USB receiver (located under the magnetic cover on the keyboard) into your device's USB port. Select 2.4GHz mode using the keyboard switch.
- **USB-C Wired Mode:** Connect the keyboard to your device using the provided USB-C cable. The keyboard will automatically switch to wired mode.

3.2 USB Receiver Storage

The 2.4GHz USB receiver is conveniently stored under a magnetic cover on the keyboard itself, ensuring it is always accessible and securely stored when not in use.

3.3 Charging the Keyboard

The keyboard is equipped with an 8000mAh battery. Connect the keyboard using the provided USB-C cable to a power source for charging. A full charge provides weeks of use.

5. MAINTENANCE

5.1 Hot-Swappable Mechanical Switches

The keyboard features a dedicated hot-swap PCB, allowing you to easily change 3-pin or 5-pin switches without soldering. This provides flexibility to customize your typing experience.

Full-Key Hot-Swap Design and PBT Keycaps

Compatible with both 3-pin and 5-pin mechanical switches, allowing effortless switch and keycap replacement without soldering

5.2 Double-shot PBT Keycaps

The keyboard is equipped with double-shot PBT keycaps, which are known for their durability and resistance to shine and fading, ensuring the legends remain clear over time.

5.3 Gasket Mounted Structure

The gasket-mounted structure with five layers of internal sound damping provides a smooth, quiet, and satisfying typing experience. This design reduces hollow ringing and vibration, contributing to the keyboard's long-term durability and comfort.

Item Weight	3.67 pounds
Package Dimensions	20.91 x 7.36 x 2.44 inches

7. TROUBLESHOOTING

If you encounter any issues with your LEOBOG A98 keyboard, please try the following common troubleshooting steps:

- **Connectivity Issues:** Ensure the keyboard is in the correct mode (BT, 2.4GHz, or Wired) for your device. Repair Bluetooth devices or re-insert the 2.4GHz USB receiver. Try a different USB port or cable for wired connection.
- **Keys Not Responding:** Check battery level. Ensure the keyboard is properly connected. If specific keys are not working, consider replacing the hot-swappable switch for that key.
- **RGB Lighting Problems:** Use the FN key combinations to cycle through effects, adjust brightness, or change colors. Ensure the keyboard is not in a mode that disables RGB.
- **Driver Software Issues:** Ensure you have downloaded the correct driver for your operating system (Windows only). Reinstall the driver if necessary.

8. WARRANTY AND SUPPORT

For warranty information, technical support, or further assistance, please contact CORBOBO customer service through the retailer where the product was purchased or visit the official CORBOBO website. Keep your purchase receipt as proof of purchase.
