Garvee 6x6 FT All-Weather Pop-Up Tent Instruction Manual

Model: GV-putent-6-C8o

INTRODUCTION

Thank you for choosing the Garvee 6x6 FT All-Weather Pop-Up Tent. This instant tent shelter is designed for year-round outdoor use, providing protection from wind, rain, and snow. Its clear view design allows for an unobstructed view of your surroundings, making it ideal for various outdoor activities. This manual provides essential information for safe setup, operation, and maintenance of your tent.

SPACIOUS INTERIOR

Fits **2-3** People. Enjoy Leisure Time Together

SAFETY INFORMATION

- Always secure the tent with all provided guy lines and metal stakes to prevent movement in windy conditions.
- Do not use open flames or heating appliances inside the tent.
- Ensure adequate ventilation when using the tent, especially in warmer conditions.
- Avoid setting up the tent near sharp objects or uneven terrain that could damage the fabric or frame.

- In heavy snow, periodically clear snow from the roof to prevent accumulation and potential damage to the frame.
- Keep children and pets supervised around the tent during setup and use.

PACKAGE CONTENTS

Please verify that all components are present before beginning assembly:

- Pop-Up Tent (1)
- Support Pole (2)
- Compression Strap (1)
- Ground Nail (8)
- Wind Rope (4)
- Storage Bag (1)
- Instruction Manual (1)

SETUP INSTRUCTIONS

The Garvee Pop-Up Tent features a swift setup design. While it can be set up by one person, two people may find it easier.

1. **Unpack the Tent:** Remove the tent from its storage bag and compression strap. Place it on a flat, clear surface where you intend to set it up.
2. **Pop-Up Mechanism:** The tent is designed to pop open automatically. Gently unfold the tent, allowing the frame to expand. You may need to assist by pushing out the sides until the tent is fully erect.
3. **Insert Support Poles:** Locate the two support poles. Insert each pole into the designated sleeves or pockets at the top of the tent to provide additional structural stability and maintain the arched shape.
4. **Secure with Ground Nails:** Use the eight ground nails to secure the base of the tent to the ground. Insert them through the loops at the bottom edges of the tent.
5. **Attach Guy Lines:** Attach the four wind ropes (guy lines) to the designated attachment points on the tent's frame. Extend them outwards at an angle and secure them to the ground using additional ground nails or stakes. This is crucial for wind resistance.

SWIFT SET UP

Simplified Installation & Assembly

OPERATING YOUR TENT

All-Weather Protection

Your Garvee tent is designed for year-round use, offering protection against various weather conditions:

- **Rainproof:** The tent features rainproof fabric and an arched roof design to prevent water pooling.
- **Windproof:** When properly secured with guy lines and stakes, the steel main frame provides stability against wind.
- **Snowproof:** The durable material can withstand snow. Remember to periodically clear heavy snow accumulation

from the roof.

- **UV Protection:** The fabric offers UPF 40+ UV protection, shielding occupants from harmful sun rays.

Doors and Windows

The tent is equipped with closable doors and windows made from transparent TPU material. These can be zipped closed to seal out elements or opened for ventilation. The clear design provides an unobstructed view of your surroundings.

Ventilation and Warmth

For optimal comfort, open windows for airflow in warmer weather. In colder conditions, keep windows and doors closed to retain warmth. The arch-top construction also aids in ventilation.

Hanging Loops

Built-in hanging loops are provided inside the tent. These can be used to hang lights, small decorations, or other lightweight items to enhance your outdoor experience.

MAINTENANCE

- **Cleaning:** Clean the tent fabric (polyester) and transparent TPU windows with a damp cloth and mild soap. Avoid harsh chemicals or abrasive cleaners that could damage the material. Rinse thoroughly and allow to air dry completely before storage.
- **Drying:** Always ensure the tent is completely dry before packing it away to prevent mold and mildew growth.
- **Storage:** Fold the tent carefully and place it back into the provided storage bag. Store in a cool, dry place away from direct sunlight and extreme temperatures.
- **Zipper Care:** Keep zippers clean and free of debris. Lubricate with a zipper lubricant if they become stiff.

TROUBLESHOOTING

Problem	Possible Cause	Solution
Tent is unstable or blows over in wind.	Insufficient anchoring.	Ensure all ground nails are firmly inserted and all guy lines are properly attached and tensioned. Use all provided anchoring points.
Water pooling on the roof.	Improper setup or extreme weather.	Verify that support poles are correctly installed to maintain the arched shape. In very heavy rain, check for proper tensioning of guy lines.

Problem	Possible Cause	Solution
Difficulty folding/packing the tent.	Incorrect folding technique.	Refer to the folding instructions (often included in the quick start guide or product video if available). Pop-up tents require a specific twisting motion to collapse. Practice in a clear area.
Missing components upon arrival.	Packaging error.	Contact Garvee customer support with your purchase details for assistance.

SPECIFICATIONS

Feature	Detail
Brand	Garvee
Model Number	GV-putent-6-C8o
Product Dimensions (L x W x H)	68.11"L x 68.11"W x 81.5"H (approx. 5.6ft x 5.6ft x 6.8ft)
