2. SAFETY INFORMATION

Adherence to these safety guidelines is crucial for preventing injury and ensuring the longevity of your loft bed.

- **Weight Limit:** The top bunk is designed to support a maximum weight of 400 lbs. Do not exceed this limit.
- **Mattress Thickness:** For the upper bunk, a mattress thickness of 4-6 inches is recommended to maintain adequate guardrail height.
- **Guardrails:** The upper bunk is equipped with 12.6-inch heightened guardrails for safety. Ensure they are always securely in place.
- **Anti-Tipping Device:** Utilize the provided metal anti-tip nails and secure the bed to a wall to prevent accidental tipping.
- **Ladder Safety:** The ladder features sturdy stairs with 4-inch wide pedals and handrails for safe climbing. Always use the ladder when accessing or exiting the upper bunk.
- **Assembly:** Ensure all components are correctly assembled and tightened according to the instructions before use. Regularly check all connections.

- **No Jumping:** Do not jump on the bed.
- **Children:** Supervise children using the loft bed, especially on the upper bunk.

3. SETUP AND ASSEMBLY

The Dnxao Twin Loft Bed is designed for straightforward assembly. Each part is labeled, and all necessary hardware and tools are included. Please follow the detailed instruction manual provided with your product for step-by-step guidance.

3.1. Pre-Assembly Checklist

- Verify all parts are present and undamaged by comparing them with the parts list in your manual.
- Ensure you have adequate space for assembly.
- Keep children and pets away from the assembly area.

3.2. Assembly Process

Refer to the included printed instruction manual for detailed diagrams and assembly steps. The bed frame features a buckle design for securely fixing metal slats, enhancing sturdiness and stability.

6. MAINTENANCE

Regular maintenance will help preserve the condition and functionality of your Dnxao Twin Loft Bed.

- **Cleaning:** Wipe down metal and wood surfaces with a soft, damp cloth. Avoid harsh chemicals that may damage the finish. For fabric components, spot clean with a mild detergent as needed.
- **Hardware Check:** Periodically inspect all bolts, screws, and connections to ensure they remain tight. Retighten as necessary to maintain structural integrity.
- **Electrical Components:** Ensure the LED light strips and charging station cables are not pinched or damaged. If any electrical component malfunctions, discontinue use and contact customer support.
- **Anti-Tipping Device:** Verify the anti-tipping device remains securely fastened to the wall.

7. TROUBLESHOOTING

If you encounter any issues with your Dnxao Twin Loft Bed, refer to the following common solutions:

- **Bed feels unstable:** Check all assembly hardware to ensure bolts and screws are fully tightened. Verify the anti-tipping device is properly installed and secured to the wall.
- **LED lights not working:** Ensure the power adapter is securely plugged into a working outlet and the light strip connection is firm. Check the remote control battery if applicable.
- **Charging station not providing power:** Confirm the charging station is plugged into a live AC outlet. Test with different devices and cables to rule out device-specific issues.
- **Missing parts during assembly:** Double-check all packaging. If parts are genuinely missing, contact Dnxao customer support with your purchase details.

For issues not covered here, please contact Dnxao customer support.
