SETUP

1. Charging the Smartwatch

Before first use, fully charge your smartwatch.

1. Connect the magnetic charging cable to a USB power adapter (not included).
2. Attach the magnetic end of the cable to the charging contacts on the back of the smartwatch.
3. Ensure the watch display indicates charging. A full charge typically takes approximately 2 hours.

2. Pairing with Your Smartphone

To access all features, pair your smartwatch with your smartphone via the dedicated app.

1. Download the companion app from your smartphone's app store (search for "DOOGEE Smartwatch App" or refer to the QR code in the user guide).
2. Enable Bluetooth on your smartphone.
3. Open the app and follow the on-screen instructions to create an account and pair your Anywise W1.
4. Grant necessary permissions for the app to function correctly (e.g., location, notifications).

3. Adjusting the Strap

Ensure the smartwatch fits snugly but comfortably on your wrist for accurate health monitoring.

- Use the provided straps and adjust the buckle for a secure fit.
- The watch should not move freely on your wrist, nor should it feel too tight.

OPERATING INSTRUCTIONS

Basic Navigation

- **Touchscreen:** Swipe left/right, up/down to navigate menus and access features. Tap to select.
- **Side Buttons:** Use the physical buttons on the side for power on/off, returning to the home screen, or quick access to specific functions as configured in the app.

GPS and Location Tracking

The Anywise W1 features built-in Dual-Band GPS (L1+L5) and supports six global satellite systems (GPS, GLONASS, Beidou, Galileo, QZSS, AGPS) for accurate outdoor activity tracking.

- Ensure GPS is enabled in the watch settings or through the companion app before starting outdoor activities.
- For best results, use the GPS feature in open areas with a clear view of the sky.

Sports Modes

The smartwatch offers over 170 sports modes, including walking, running, cycling, and yoga.

1. Navigate to the "Workout" or "Sports" section on your watch.
2. Select your desired activity.
3. Tap "Start" to begin tracking. The watch will monitor real-time heart rate, distance, speed, and calories burned.
4. Tap "End" to stop and save your workout data.

Health Monitoring

The Anywise W1 continuously monitors your health metrics.

- **Heart Rate:** View your current heart rate and historical data in the app.
- **Sleep Tracking:** The watch automatically tracks your sleep patterns. Review sleep quality and stages in the app.
- **Blood Oxygen (SpO2):** Measure your blood oxygen levels on demand or set for continuous monitoring (if available).
- **Stress Monitoring & Breathing Training:** Access these features from the watch menu to manage stress and practice guided breathing exercises.

Call Function & AI Voice Assistant

Once paired with your smartphone, you can manage calls and use the AI voice assistant directly from your watch.

- **Making/Answering Calls:** When a call comes in, you can answer or decline it from the watch. You can also initiate calls from your watch's contact list or dial pad.

- **AI Voice Assistant:** Activate the AI assistant (e.g., by long-pressing a button or a specific gesture) to perform tasks like making calls, asking questions, or getting translations.

Other Smart Features

- **Music Control:** Control music playback on your smartphone.
- **Weather:** View current weather conditions and forecasts.
- **Alarms:** Set and manage alarms.
- **Camera Control:** Use your watch as a remote shutter for your smartphone camera.
- **SOS Mode:** Activate for emergency situations (configure contacts in the app).
- **Voice Recording:** Record short voice memos.
- **Flashlight:** Access the flashlight function from the quick settings.
- **Compass:** Utilize the built-in compass for navigation.

MAINTENANCE

Cleaning Your Smartwatch

- Wipe the watch body and straps regularly with a soft, damp cloth.
- Avoid using harsh chemicals or abrasive materials, as they may damage the device.
- Ensure the charging contacts are clean and dry before charging.

Water Resistance (5ATM)

The Anywise W1 is 5ATM waterproof, meaning it can withstand pressures equivalent to a depth of 50 meters. This makes it suitable for swimming and showering.

- Do not press any buttons while the watch is submerged in water.
- Avoid exposure to hot water, steam, or high-pressure water jets, as this can compromise the water seal.
- Dry the watch thoroughly after exposure to water, especially before charging.

Resistenza all'Acqua 5ATM

Pronto per i giorni di pioggia e le vasche in piscina

Con una resistenza fino a 50 metri, si adatta al tuo ritmo urbano senza preoccupazioni

Battery Life

The 550mAh battery provides extended usage.

- Typical daily use: Up to 18 days.
- Standby mode: Over 50 days.
- Continuous GPS tracking: Up to 40 hours.
- Battery life may vary based on usage, settings, and environmental conditions.

TROUBLESHOOTING

Problem	Possible Solution
Smartwatch does not turn on.	Ensure the watch is fully charged. Connect it to the charger and wait a few minutes before attempting to power on.
Cannot pair with smartphone.	• Ensure Bluetooth is enabled on your phone. • Make sure the watch is in pairing mode. • Restart both the watch and your smartphone. • Check if the companion app is updated to the latest version. • Forget the device in your phone's Bluetooth settings and try pairing again.

Problem	Possible Solution
Inaccurate health data (HR, SpO2).	• Ensure the watch is worn snugly on your wrist, not too loose or too tight. • Clean the sensor on the back of the watch. • Avoid excessive movement during measurements.
GPS signal is weak or inaccurate.	• Ensure you are in an open outdoor area with a clear view of the sky. • Wait for the watch to acquire a stable GPS signal before starting your activity.
Notifications are not received.	• Check if the watch is connected to your phone via Bluetooth. • Ensure notification permissions are granted to the companion app on your smartphone. • Verify that notification settings are enabled within the app for specific applications.
