ASSEMBLY INSTRUCTIONS

Assembly is required. Please follow these steps carefully. It is recommended to assemble the table on a soft, clean surface to prevent scratches.

1. **Unpack Components:** Carefully remove all parts from the packaging and lay them out. Verify against the package contents list.
2. **Assemble the Fluted Base:** Attach the individual fluted panels to the metal base ring. Ensure the panels are oriented correctly. *Note: Some users have reported that fluted pieces may appear bent in one direction. If this occurs, gently bend them in the opposite direction to align them for assembly.*
3. **Attach Tabletop:** Secure the round tabletop to the assembled fluted base using the provided hardware. Ensure all screws are tightened securely, but do not overtighten.
4. **Final Check:** Once assembled, gently lift and place the table in its desired location. Ensure it is stable and all connections are firm.

MAINTENANCE AND CARE

To maintain the appearance and longevity of your coffee table, follow these care instructions:

- **Cleaning:** Wipe the tabletop and base with a soft, damp cloth. Avoid harsh chemicals or abrasive cleaners.
- **Spills:** Clean spills immediately to prevent staining, especially on the engineered wood tabletop.
- **Heat Protection:** Use coasters or placemats under hot items to protect the tabletop surface.
- **Sunlight Exposure:** Avoid prolonged direct sunlight exposure to prevent fading or warping.

TROUBLESHOOTING

If you encounter issues during assembly or use, refer to the following common solutions:

- **Difficulty Assembling Fluted Panels:** If the fluted panels do not align easily, they may need to be gently bent in the opposite direction of their current curve to fit into the base ring. This is a known issue and can be resolved with careful adjustment.
- **Table Wobbles:** Ensure all screws are securely tightened. Check that the table is placed on a completely level surface. If necessary, use furniture pads under the base to stabilize.
- **Scratches on Tabletop:** While the tabletop is durable, it is not stain-resistant. Use protective mats for items that may scratch or stain the surface.
