# Garvee King Size Lift Up Storage Bed Instruction Manual

Model: ztfqdzwrbc-009-GV5R

## INTRODUCTION

---

Thank you for choosing the Garvee King Size Lift Up Storage Bed. This bed frame combines comfort, style, and practical storage solutions to enhance your bedroom. It features a velvet upholstered headboard with a storage shelf, a robust metal platform, solid wooden slats, and a hydraulic lift system for under-bed storage. This manual provides essential information for safe assembly, operation, and maintenance of your new bed.

## SAFETY INFORMATION

---

**Always use the lift mechanism with caution to avoid injury. Ensure the bed is fully assembled and stable before use. Follow the assembly instructions carefully to prevent instability or collapse.**

- Keep children and pets away from the bed frame during assembly and operation of the lift mechanism.
- Do not place hands or fingers near moving parts of the hydraulic lift system.
- Ensure the mattress is properly seated on the frame before lifting or lowering.
- Do not exceed the maximum weight capacity of 130 lbs when lifting the bed. The overall weight capacity is 1000 lbs.
- Periodically check all bolts and screws to ensure they are tight.

## SETUP

---

The assembly process for the Garvee Lift Up Storage Bed is designed to be straightforward. All necessary tools are

included. It typically takes approximately one hour to complete with two people.

### Assembly Steps:

1. **Unpack Components:** Carefully unbox all parts and verify against the parts list in your included manual.
2. **Assemble Headboard:** Begin by assembling the headboard section.
3. **Construct Bed Base:** Proceed to build the main bed base frame.
4. **Install Hydraulic Lift System:** Attach the hydraulic lift mechanisms to the bed frame.
5. **Place Wooden Slats:** Secure the solid wooden slats onto the bed frame.
6. **Connect Power:** Plug the bed frame into a standard electrical outlet to activate the LED lights and charging ports. The power connection is located at the back of the bed.

## OPERATING INSTRUCTIONS

---

### Hydraulic Lift Storage:

The bed features a hydraulic lift system for easy access to under-bed storage. To lift the mattress platform, locate the hand lifting strap, typically at the foot of the bed. Pull the strap upwards to engage the hydraulic mechanism. The platform will smoothly lift and remain in an open position, providing access to the spacious storage area beneath. Anti-falling devices are integrated to immobilize the mattress when elevated, preventing it from sliding.

### LED Headboard Lights:

The headboard includes smart LED lights controlled by a hidden remote or a dedicated app. The remote allows you to cycle through several different colors, 12 scene modes, and three adjustable brightness levels. To turn on, press the button once. Press multiple times to change colors. To turn off, press and hold the button.

For advanced control, download the **Lotus Lamp X** app. Connect the bed's Bluetooth to the app to access a full range of settings, including custom colors, dynamic modes, and a music mode where lights dance to your chosen music.

### Integrated Charging Ports:

The headboard features a convenient charging station with multiple ports. This includes one USB-A port, one USB-C port, and two AC outlets, allowing you to charge up to four devices simultaneously. These ports are located on the top storage shelf for easy access.

## MAINTENANCE

---

### Cleaning:

- **Upholstery:** For the velvet upholstered parts, wipe with a dry cloth to remove dust. For spills, gently blot with a clean, damp cloth and mild soap, then dry thoroughly. Avoid harsh chemicals.
- **Metal Frame:** Wipe the metal frame with a dry cloth.
- **Wooden Slats:** Keep wooden slats dry and free from excessive moisture.

### General Care:

- Regularly check all connections and fasteners to ensure they remain tight.
- Avoid placing heavy or sharp objects directly on the upholstered surfaces to prevent damage.
- Do not jump on the bed, as this can stress the frame and hydraulic system.

## TROUBLESHOOTING

---

### Noise from Bed Frame:

- Ensure all bolts and screws are securely tightened. Loose connections are a common cause of noise.
- Check that the wooden slats are properly seated and not rubbing against the frame.

### Hydraulic Lift Not Functioning Smoothly:

- Verify there are no obstructions preventing the mattress platform from lifting or lowering.
- Ensure the mattress weight is within the recommended range for the hydraulic system.

### LED Lights or Charging Ports Not Working:

- Confirm the bed frame is properly plugged into a functional electrical outlet.
- Check the power cable connection at the back of the bed.
- For LED lights, ensure the remote control has working batteries or the app is correctly connected via Bluetooth.

## SPECIFICATIONS

Feature	Detail
Size	King
Material	Engineered Wood, Velvet, Foam
Product Dimensions (L x W x H)	85.43"L x 75.98"W x 43.31"H
