ZEEPORTE SECURITY MC 206G3—DIT

ZEEPORTE SECURITY 4G LTE Cellular Solar Security Camera

USER MANUAL

Model: MC 206G3—DIT

Introduction

The ZEEPORTE SECURITY 4G LTE Cellular Solar Security Camera (Model MC 206G3—DIT) provides robust outdoor surveillance without the need for Wi-Fi or constant power. This camera features 24/7 recording capabilities (with an SD card), 2K color night vision, 360° pan and tilt functionality, two-way audio, and AI motion detection. Designed for versatile use, it is ideal for properties, farms, construction sites, RVs, and vacation homes where traditional network infrastructure may be limited.

Overview of the ZEEPORTE 4G LTE Cellular Solar Security Camera.

What's in the Box

Upon unboxing your ZEEPORTE SECURITY camera, you should find the following components:

- ZEEPORTE SECURITY 4G LTE Cellular Solar Security Camera
- Solar Panel with connecting cable
- USB Charging Cable
- Mounting Bracket for camera
- Mounting Bracket for solar panel
- Screws and Wall Anchors for installation
- User Manual

Setup Instructions

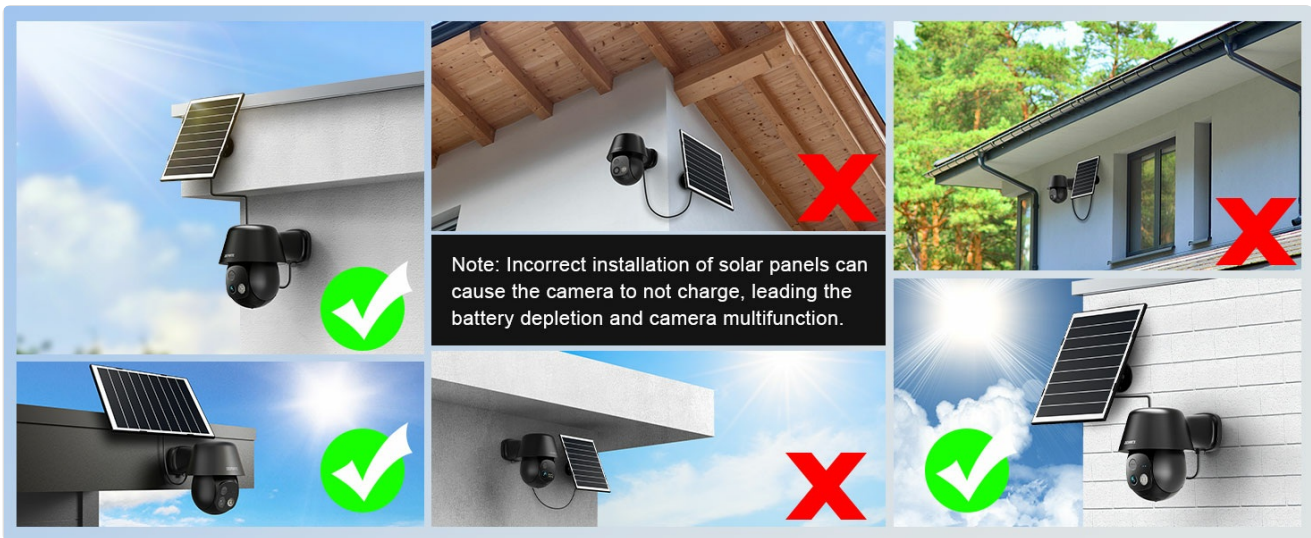

1. **Charge the Camera:** Fully charge the camera using the provided USB cable before initial use.
2. **Insert SIM Card:** The camera comes with a pre-installed SIM card. Ensure it is properly seated.
3. **Download the App:** Download the "FONDAL" app from your smartphone's app store (available on App Store and Google Play).
4. **Activate the Camera:** Long press the power button on the camera to activate it.
5. **Connect to App:** Follow the in-app prompts to connect your camera. This typically involves scanning a QR code on the camera.
6. **Mount the Camera:** Select a suitable outdoor location for the camera, ideally 7-10 feet (2-3 meters) above the ground for optimal detection.
7. **Install Solar Panel:** Mount the solar panel in a location that receives direct sunlight throughout the day. Angle the solar panel upwards by 30 degrees for maximum efficiency.

Easy to install

Dual connection, fast recognition, and simple connection.

The camera is designed for easy installation, making setup straightforward.

Proper solar panel placement ensures continuous power for the camera.

Operating Instructions

- **24/7 Recording:** The camera supports continuous recording when an SD card is inserted, ensuring constant surveillance.
- **2K Ultra HD & Color Night Vision:** Enjoy crystal-clear 2K resolution video. At night, the camera provides full-color night vision for enhanced visibility.
- **360° Pan & Tilt:** Control the camera's viewing angle remotely via the app, offering 360° horizontal and 120° vertical coverage to eliminate blind spots.
- **AI Motion Detection & Two-Way Audio:** Advanced PIR motion detection accurately identifies people and animals, sending instant push notifications to your phone. Use the two-way audio feature to communicate or deter intruders.
- **4G Data Plan:** The built-in SIM card connects to the strongest available 4G network (Verizon, AT&T, T-Mobile). A subscription is required for 4G data usage.
- **Secure Storage:** Footage can be stored locally on an SD card (up to 256GB, not included) or via optional cloud storage services.
- **Family Sharing:** Share access to your camera with family members for remote monitoring from anywhere.

Protect What's Yours 24/7 Recording

(Wireless 4G Camera with True 24/7 Recording)

The camera offers continuous 24/7 recording for comprehensive security.

360° Guardian Leaves No Blindspots

355°horizontal & 120° vertical view, get more areas covered.

Achieve full area coverage with the camera's 360° pan and tilt capabilities.

2K FHD Day and Night

Details to see clearly even at night

Experience clear 2K resolution and full-color night vision.

Motion Activated Alarm

Multi Siren & Real Time Push, warn off the intruder.

Alert area, please leave

-  Motion Detection
-  Siren Alarm
-  Notification Push
-  Two Way Talk

 **Garage** Now
Motion was detected by your camera 

Receive instant alerts and use two-way audio for communication or deterrence.

One Plan. Protect What's Yours, Always.

Maintenance

- **Solar Charging:** The high-efficiency solar panel keeps the 9000mAh battery charged. Ensure the panel is clean and receives adequate sunlight.
- **Weather Resistance:** The camera features an IP65 waterproof design, allowing it to operate reliably in temperatures ranging from -10°C to 50°C, and withstand various weather conditions.
- **Regular Checks:** Periodically check the camera lens for dirt or debris and clean with a soft, damp cloth.

The camera's IP65 rating ensures durability in various weather conditions.

Troubleshooting

If you encounter issues with your ZEEPORTE SECURITY camera, consider the following:

- **No Power:** Ensure the solar panel is receiving direct sunlight or charge the camera directly via the USB cable. Check battery levels in the app.
- **No 4G Connection:** Verify that the SIM card is correctly inserted and that you have an active data plan. Check 4G signal strength in the camera's location via the app.
- **Poor Video Quality:** Ensure the camera lens is clean. Check your network connection speed.
- **Motion Detection Issues:** Adjust motion detection sensitivity settings in the app. Ensure the camera's view is clear of obstructions.
- **App Connection Problems:** Restart the app and the camera. Ensure your phone's Bluetooth and mobile data are enabled during setup.
