jeeber 5" 1080p Baby Monitor ES619 Instruction Manual

Model: VB619-Parent | Brand: jeeber

1. INTRODUCTION

Thank you for choosing the jeeber 5" 1080p Baby Monitor ES619. This device is designed to provide a secure and reliable way to monitor your baby, featuring a high-definition IPS screen, invisible night vision, two-way audio, and smart VOX mode. This manual will guide you through the setup, operation, and maintenance of your new baby monitor.

Image 1.1: Overview of the jeeber Baby Monitor ES619 and its key features including 5-inch IPS screen, VOX mode, 1080P HD clarity, FHSS encrypted transmission, instant connection, support for 4 cameras, two-way audio, 3x zoom, digital pan, HDR night vision up to 8 meters, temperature monitoring, feeding reminder, and lullabies.

2. SAFETY INFORMATION

- Keep the camera unit and power cords out of reach of children (at least 1 meter away from the crib).
- Do not place the camera or monitor in direct sunlight or near heat sources.
- Use only the provided power adapters. Using unauthorized adapters may damage the device and void the warranty.
- This product is not a substitute for responsible adult supervision.
- Ensure proper ventilation for both units.
- The monitor is not water-resistant. Avoid exposure to water or high humidity.

3. PACKAGE CONTENTS

Please check the package for the following items:

- 1 x Camera Unit

- 1 x Monitor Unit
- 2 x Power Adapters
- 1 x Charging Cable
- 1 x Instruction Manual

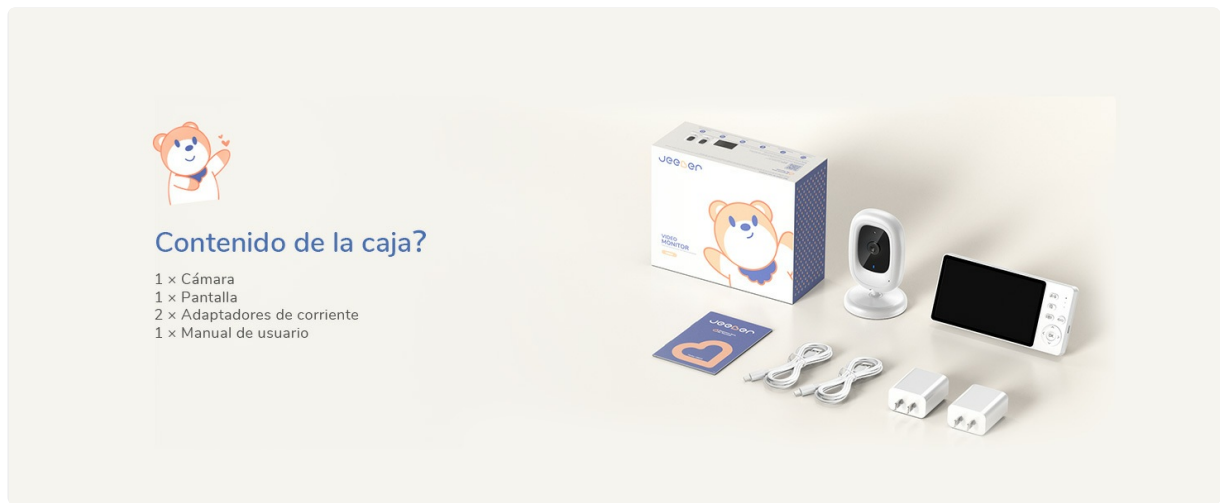

Image 3.1: All items included in the product package.

4. PRODUCT OVERVIEW

4.1 Monitor Unit

The monitor unit features a 5-inch HD IPS screen for clear viewing. It includes control buttons for navigation, zoom, two-way talk, and menu access. The monitor is portable and powered by a built-in 3050 mAh battery.

Image 4.1: Front view of the Monitor Unit.

4.2 Camera Unit

The camera unit captures 1080p video and is equipped with 10 invisible infrared LEDs for clear night vision. It includes a microphone and speaker for two-way communication and a temperature sensor. The camera is powered by an electrical cable.

5. SETUP

5.1 Initial Setup

1. **Charge the Monitor:** Connect the monitor unit to a power outlet using one of the provided power adapters and charging cable. Allow it to charge fully before first use.
2. **Power the Camera:** Connect the camera unit to a power outlet using the other power adapter.
3. **Power On:** Turn on both the camera and monitor units. The camera and monitor are pre-paired at the factory and should connect automatically within seconds.
4. **Placement:** Position the camera unit in a location that provides a clear view of your baby, ensuring it is at least 1 meter away from the crib. The monitor can be placed conveniently nearby.

Monitor de bebé con ángulo amplio de 178°, vista nítida y clara

Pantalla IPS ultra ancha de 178° que garantiza una vista clara y sin distorsión desde cualquier lugar. Incluye detección de llanto, audio bidireccional, visión nocturna y alertas en la app para tranquilidad en tiempo real.

Image 5.1: The monitor and camera automatically pair upon activation, simplifying setup.

5.2 Mounting Options

The camera unit offers flexible mounting options including wall mount, crib mount, or tabletop placement. The integrated anti-slip base design ensures stability.

Monitor para Bebés con Montaje Flexible para una Vista Óptima

Encuentra el lugar perfecto cada vez. Nuestro sistema de montaje ajustable y flexible garantiza una vista clara y completa de tu bebé, ofreciendo tranquilidad desde cualquier ángulo de la habitación.

Image 5.2: Flexible mounting for optimal viewing angles.

6. OPERATING INSTRUCTIONS

6.1 Viewing Your Baby

The 5-inch HD IPS screen provides a clear, real-color view of your baby. Use the navigation buttons on the

monitor to digitally pan and tilt the view or zoom in up to 3 times for a closer look.

Pantalla IPS de 5" 1080P Cuidado Ocular

Vea cada detalle en colores reales. Mire cómodamente desde cualquier ángulo.

Image 6.1: The 5" 1080P IPS screen provides clear, real-color viewing from any angle.

6.2 Night Vision

The camera is equipped with 10 invisible infrared LEDs, providing clear night vision without disturbing your baby's sleep. The monitor automatically switches to night vision in low-light conditions.

Actualización a 10 bombillas LED infrarrojas

Visión Nocturna Más Clara, Luz Perfectamente Equilibrada

Image 6.2: Upgraded 10 infrared LED bulbs provide clearer, perfectly balanced night vision.

6.3 Two-Way Communication

Press and hold the microphone button on the monitor to speak to your baby. The advanced noise cancellation ensures clear audio transmission.

Llamada 2 Vías con Cancelación Ruido

Escuche Lo Que Importa. Con Cancelación Avanzada de Ruido

Image 6.3: Engage in two-way communication with advanced noise cancellation.

6.4 VOX Mode (Voice-Activated)

In VOX mode, the monitor screen automatically turns off to conserve battery when no sound is detected. It instantly activates when your baby cries or makes noise, alerting you. This mode extends battery life significantly.

Modo VOX Inteligente

Pantalla Activada por Voz Con Mayor Duración de Batería

Image 6.4: Smart VOX Mode for extended battery life.

6.5 Temperature Monitoring

The monitor displays the real-time room temperature from the camera unit, helping you ensure a comfortable environment for your baby.

Monitoreo Precisa de Temp.

Cuidado Científico, Impulsado por Temperatura Precisas

Image 6.5: Precise temperature monitoring for scientific care.

6.6 Lullabies

The monitor includes 8 calming lullabies that can be played remotely to soothe your baby to sleep.

6.7 Feeding Reminder

Set up intelligent feeding reminders to help you keep track of your baby's feeding schedule.

6.8 Multi-Camera System

The system supports up to four cameras, allowing you to monitor multiple rooms or children from a single monitor unit. You can easily switch between camera views on the screen.

6.9 Secure and Stable Connection

The monitor uses FHSS (Frequency Hopping Spread Spectrum) technology for a secure, private, and interference-resistant connection. It operates without Wi-Fi, ensuring 100% local video transmission and protecting your family's digital security.

Image 6.7: No Wi-Fi required, privacy protected by FHSS technology.

The monitor offers a stable signal with a long range of up to 300 meters, even through walls, providing continuous monitoring throughout your home.

Señal Estable de Monitor para Bebés con Alcance Largo de 300m

Nunca pierdas de vista a tu bebé. Disfruta de una conexión confiable y nítida de hasta 300 metros incluso a través de paredes, garantizando un monitoreo continuo y tranquilidad en cualquier lugar de tu hogar.

Image 6.8: Stable signal with a long range of 300m.

7. MAINTENANCE

- **Cleaning:** Use a soft, dry cloth to clean the camera and monitor units. Do not use abrasive cleaners or solvents.
- **Storage:** If storing the device for an extended period, ensure both units are fully charged, then power them off. Store in a cool, dry place.
- **Battery Care:** To prolong battery life, avoid fully discharging the monitor's battery frequently. Charge it regularly.

8. TROUBLESHOOTING

8.1 No Image/Sound on Monitor

- Ensure both the camera and monitor units are powered on and properly connected to their power adapters.
- Check if the monitor's battery is charged.
- Verify that the camera and monitor are within range of each other.
- If the monitor is in VOX mode, it might be in standby. Make a sound near the camera to activate it.

8.2 Poor Image Quality

- Ensure the camera lens is clean.
- Check for obstructions between the camera and monitor that might interfere with the signal.
- Adjust the camera's position for better lighting.

8.3 Interference

- Move the camera or monitor away from other electronic devices that might cause interference (e.g., microwaves, Wi-Fi routers).
