## Key Assembly Steps:

- 1. Unpacking:** Carefully remove all components from the packaging. Verify all parts listed in the 'What's in the Box' section are present.
- 2. Rear Bumper Installation:** Attach the rear bumper to the main car body using the provided screws.
- 3. Dashboard Connection:** Connect the wiring harness from the main body to the dashboard unit. Secure the dashboard in place with screws.
- 4. Front Hood Connection:** Connect the wiring harness for the front lights and features to the main body. Secure the front hood.
- 5. Steering Column Assembly:** Assemble the steering column components and secure them to the chassis.
- 6. Motor and Wheel Installation:** Attach the 4x100W motors to the rear axle. Install the wheels, securing them with washers and nuts. Ensure all electrical connections for the motors are firm.
- 7. Battery Connection:** Connect the battery terminals. Ensure a secure connection to prevent power interruptions.
- 8. Seat and Seatbelt Installation:** Place the seats into the designated slots and secure them. Fasten the 3-point seat belts.
- 9. Roll Bar Attachment:** Install the roll bar onto the rear of the vehicle.
- 10. Steering Wheel Attachment:** Insert the steering wheel onto the steering column and secure it with the provided screw. Install 2x AAA batteries into the remote control.

## OPERATING INSTRUCTIONS

---

This ride-on car offers both manual operation by the child and parental remote control for added safety and guidance.

### Child Manual Operation

- **Start:** Press the power button on the dashboard. The vehicle features soft-start technology for smooth acceleration.
- **Driving:** Use the foot pedal to accelerate. The gear shift lever allows selection between forward and reverse.
- **Steering:** Turn the steering wheel to control direction.
- **Horn & Music:** Press the horn button on the steering wheel for sound. Use the music panel buttons to play built-in music, switch to FM radio, or connect via Bluetooth.

## Parental Remote Control

The 2.4GHz parental remote control allows adults to safely guide the vehicle, especially for younger children or in potentially hazardous situations. It has a 65ft safety range.

- **Pairing:** Follow the instructions in the remote control manual to pair it with the vehicle.
- **Control:** Use the remote to steer, accelerate, and reverse the vehicle.
- **Emergency Brake:** The remote includes an emergency brake button to stop the vehicle instantly.
- **Speed Selection:** Adjust the speed settings (3 speeds) via the remote control.

## MAINTENANCE

---

### Charging the Battery

- Locate the charging port, typically on the dashboard.
- Plug the charger into the charging port, then into a standard wall outlet.
- Charge for 8-12 hours before first use, and 8-12 hours for subsequent charges. Do not overcharge.
- The 24V 7AH battery provides approximately 70-130 minutes of playtime depending on load and terrain.

### Cleaning and Storage

- Wipe the vehicle with a soft, damp cloth. Do not use abrasive cleaners.
- Store the vehicle in a dry, cool place away from direct sunlight and moisture.
- If storing for extended periods, charge the battery fully every 30 days to prolong its lifespan.

## TROUBLESHOOTING

Problem	Possible Cause	Solution
Vehicle does not move	Battery low or disconnected; loose wiring; blown fuse.	Charge battery; check battery connections; inspect all wiring; replace fuse if necessary.
Vehicle runs slowly	Low battery; overloaded vehicle; operating on rough terrain.	Charge battery fully; ensure weight is within limits (max 130 lbs); operate on smoother surfaces.
Remote control not working	Remote batteries low/dead; remote not paired.	Replace AAA batteries in remote; re-pair remote control according to instructions.
No sound from music panel	Volume too low; connection issue.	Increase volume; check Bluetooth connection or USB device.
