# **Cubitt AURA Pro 2 Smartwatch User Manual**

Model: AURA Pro 2

## **INTRODUCTION**

---

Welcome to the Cubitt AURA Pro 2 Smartwatch user manual. This guide provides essential information for setting up, operating, maintaining, and troubleshooting your new smartwatch. The Cubitt AURA Pro 2 is designed to enhance your daily life with advanced health monitoring, built-in GPS, and smart features.

Front view of the Cubitt AURA Pro 2 Smartwatch, showcasing its circular display and black strap.

## SETUP

### 1. Charging the Device

Before first use, fully charge your Cubitt AURA Pro 2 Smartwatch. Connect the charging cable to the charging port on the back of the watch and to a USB power adapter. A full charge typically takes approximately 2 hours.

The smartwatch display indicating a full 100% battery charge, highlighting its long battery life.

## 2. Installing the Companion App

Download the official Cubitt companion app from your smartphone's app store (iOS App Store or Google Play Store). Search for "Cubitt" or "Cubitt Tracking Technologies".

## 3. Pairing with Your Smartphone

1. Ensure Bluetooth is enabled on your smartphone.
2. Open the Cubitt app and follow the on-screen instructions to create an account or log in.
3. Select "Add Device" or "Pair New Device" within the app.
4. Select "AURA Pro 2" from the list of available devices.
5. Confirm the pairing request on both your smartphone and the smartwatch.

A close-up view of the smartwatch highlighting the new action button, designed for instant access to sports modes.

## OPERATING INSTRUCTIONS

### Display and Navigation

The Cubitt AURA Pro 2 features a 1.48" AMOLED HD display with 24-Bit True Color. Navigate through menus by swiping left, right, up, or down. Tap to select items. The physical buttons provide quick access to functions and the action button can be customized for sports modes.

The smartwatch display showcasing its vibrant colors and clarity, emphasizing its 2x brighter screen and 40% more resistance.

## Key Features

- **Built-In GPS with Offline Maps & Compass:** Navigate confidently with precise route tracking, barometer, and support for 5 GNSS systems. Access offline maps directly from your watch for navigation without a phone connection.

# Integrated GPS

Save your routes and track your metrics with 5 high-accuracy sensors.

The smartwatch screen showing an integrated GPS route tracking feature, overlaid on a mountain landscape, indicating its capability to save routes and track metrics with high-accuracy sensors.

- **Advanced Health Monitoring:** Track Heart Rate (HR), Blood Oxygen (SpO<sub>2</sub>), VO<sub>2</sub> Max, body temperature, stress levels, and menstrual cycles. Comprehensive sleep analysis with a detailed Sleep Score helps monitor and improve your rest.

# Sleep Score

86

Sleep Score

7H 00Min

11:30 pm ~ 6:30 am

Monitor your sleep quality and  
improve your rest.

A visual representation of the Sleep Score feature, showing a score of 86 and sleep duration, designed to help users monitor and improve sleep quality.

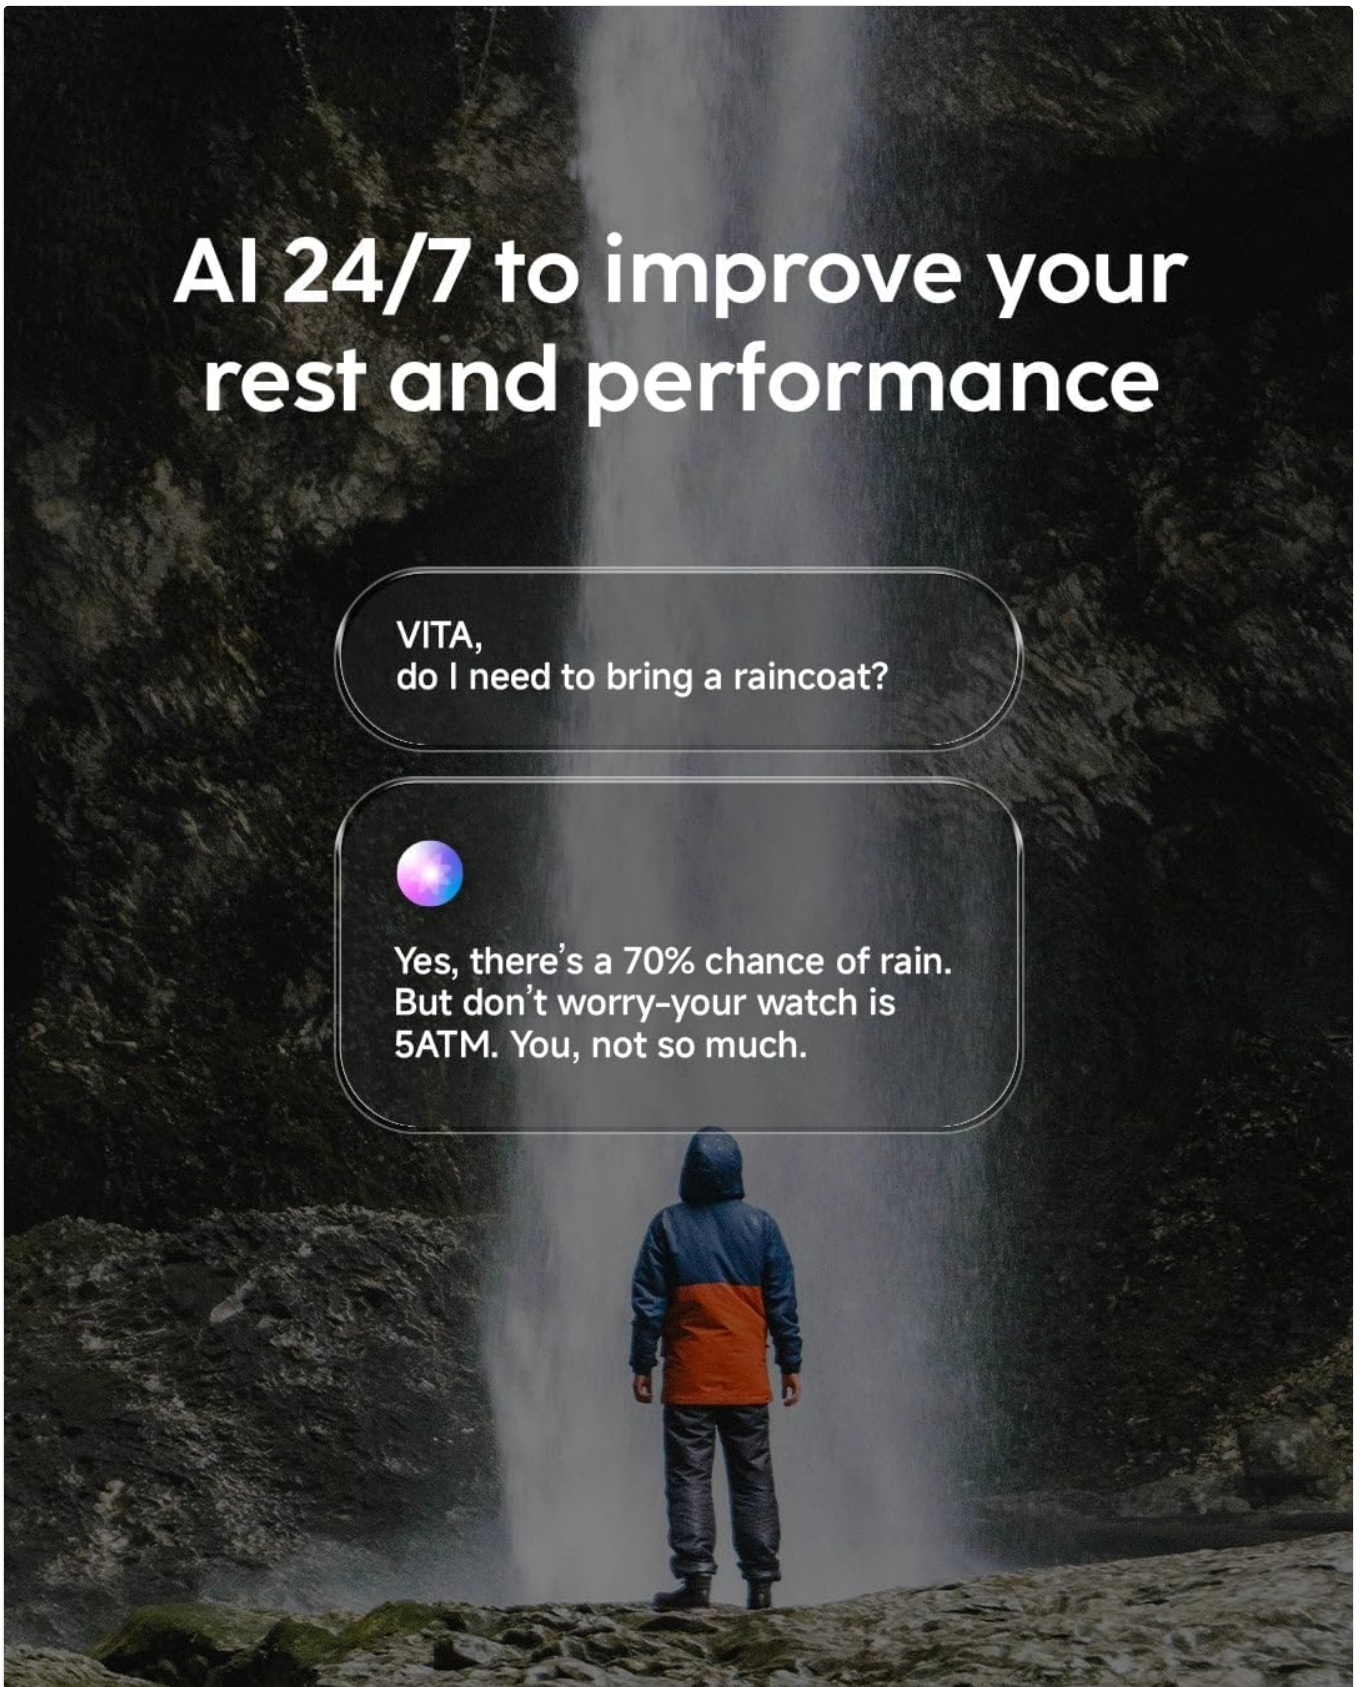

- **VITA AI Coach, Readiness Score & Health Snap:** Benefit from personalized training insights and recovery recommendations. The Readiness Score provides daily insights into your body's recovery. Perform quick Health Snaps to check HR, HRV, stress, and SpO<sub>2</sub> in just 90 seconds.

# AI 24/7 to improve your rest and performance

VITA,  
do I need to bring a raincoat?

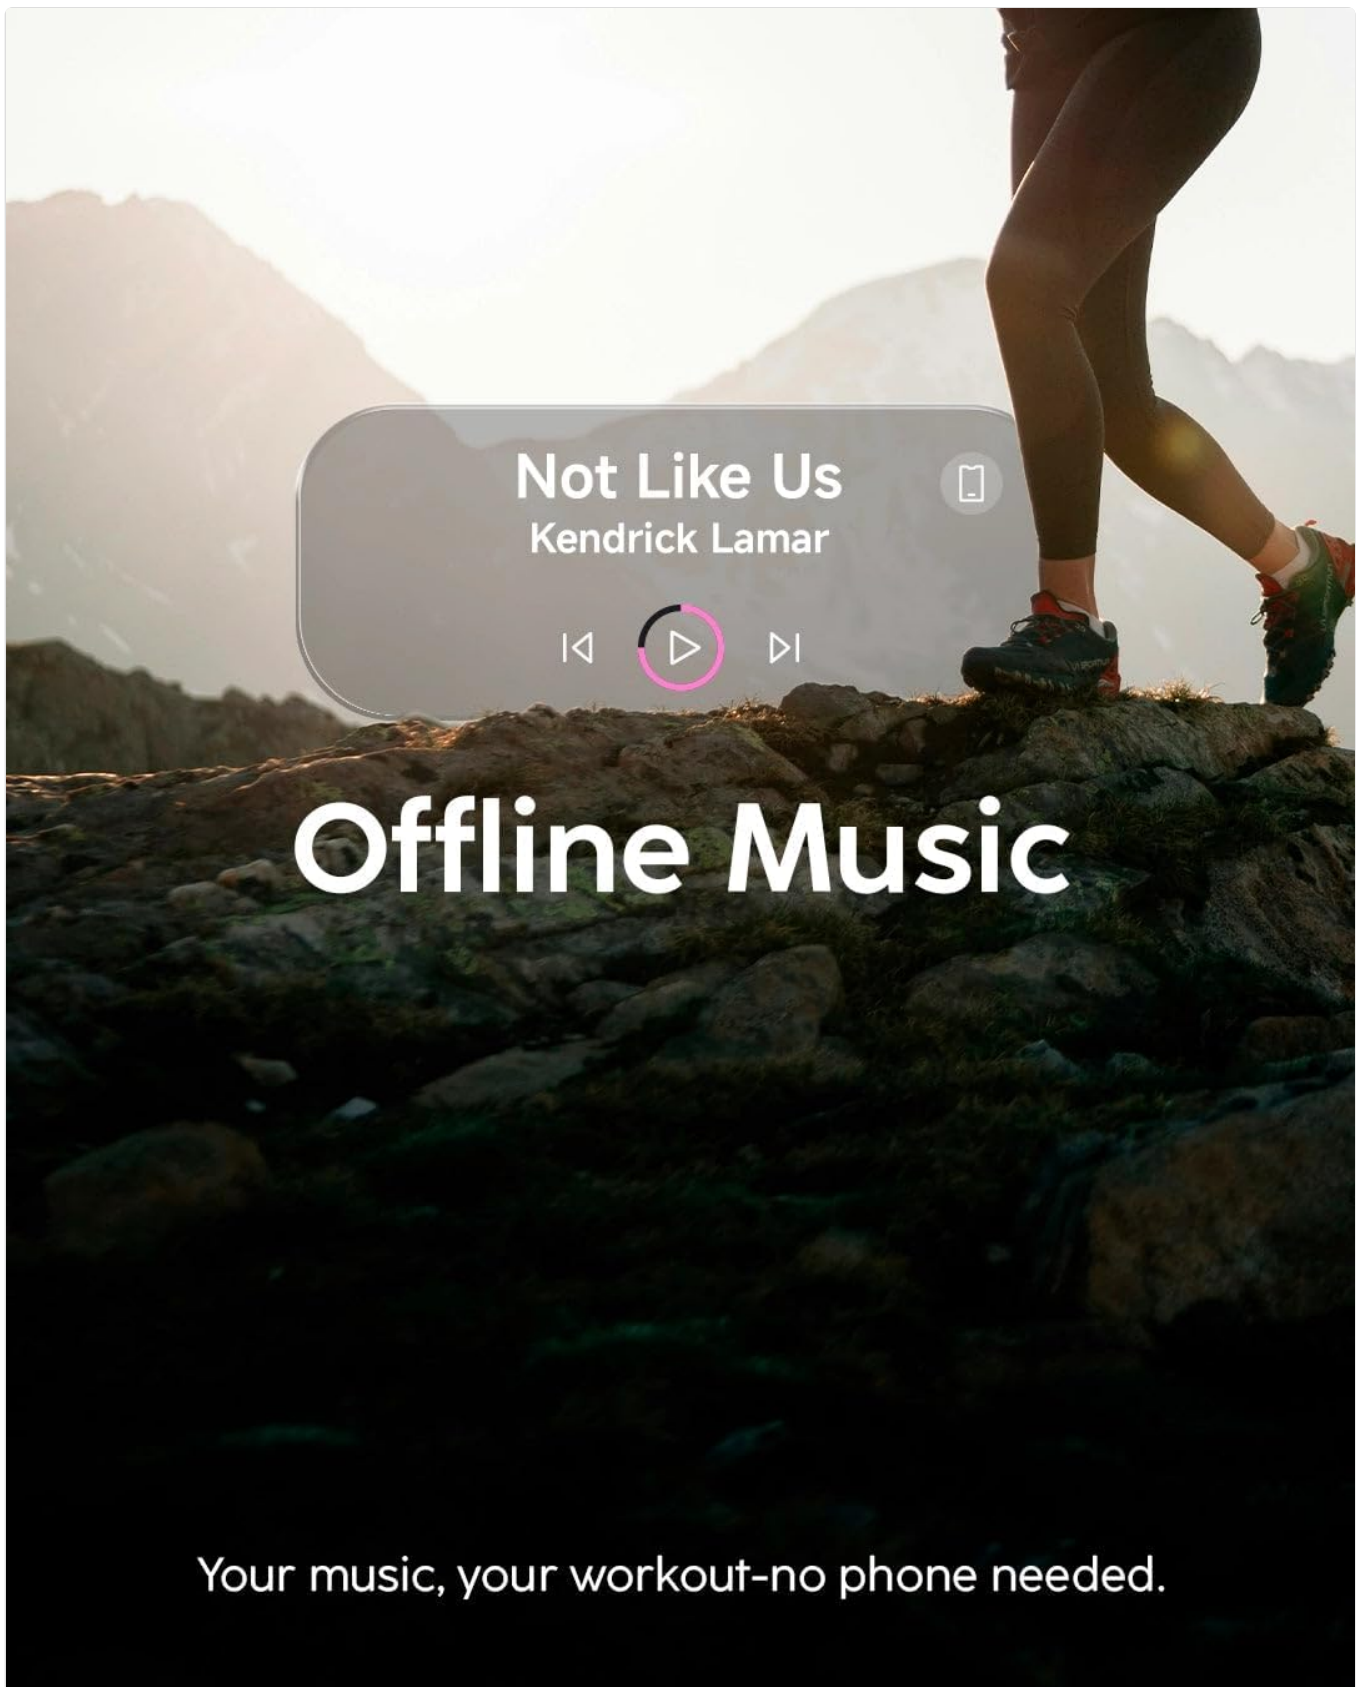

Yes, there's a 70% chance of rain.  
But don't worry—your watch is  
5ATM. You, not so much.

An image illustrating the VITA AI assistant, showing a dialogue where it provides weather information and highlights the watch's 5ATM water resistance.

- **Smart Features & Connectivity:** Enjoy Bluetooth calling, receive smart notifications from your paired smartphone, and listen to offline music with TWS (True Wireless Stereo) support.

Your music, your workout-no phone needed.

The smartwatch screen showing an offline music player interface, indicating that music can be enjoyed without a phone during workouts.

## MAINTENANCE

### Cleaning Your Smartwatch

- Wipe the watch and strap regularly with a soft, damp, lint-free cloth.
- Avoid using harsh chemicals, abrasive cleaners, or aerosol sprays.
- Ensure the charging contacts are clean and dry before charging to prevent corrosion.

## Water Resistance (5ATM)

The Cubitt AURA Pro 2 is rated 5ATM, meaning it is water-resistant up to 50 meters. It is suitable for swimming and showering but not for scuba diving or high-speed water sports. Avoid pressing buttons underwater.

## TROUBLESHOOTING

Issue	Possible Solution
Watch not turning on	Ensure the watch is fully charged. Press and hold the power button for at least 10 seconds.
Cannot pair with smartphone	<ul style="list-style-type: none"><li>• Ensure Bluetooth is enabled on your phone and the watch is discoverable.</li><li>• Restart both your phone and the watch.</li><li>• Clear Bluetooth cache on your phone (Android).</li><li>• Try pairing again through the Cubitt app.</li></ul>
Inaccurate health data	Ensure the watch is worn snugly on your wrist, about one finger's width above the wrist bone. Keep the sensor clean.
Notifications not appearing	<ul style="list-style-type: none"><li>• Check notification settings in the Cubitt app.</li><li>• Ensure your phone's notification permissions are granted to the Cubitt app.</li><li>• Verify Bluetooth connection is stable.</li></ul>
GPS not locking on	Ensure you are in an open outdoor area with a clear view of the sky. Wait a few moments for the watch to acquire a signal.
