## Lefitus IW11

# Lefitus Smart Watch User Manual

Model: IW11

[Introduction](#)   [What's in the Box](#)   [Setup](#)   [Operating](#)  
[Instructions](#)   [Maintenance](#)   [Troubleshooting](#)   [Specifications](#)   [Warranty & Support](#)

## 1. INTRODUCTION

---

This manual provides comprehensive instructions for the safe and efficient use of your Lefitus Smart Watch Model IW11. Please read this manual thoroughly before using the device to ensure optimal performance and to understand all features and functions.

## 2. WHAT'S IN THE BOX

---

Verify that all items are present in the package:

- Watch x 1
- Charging Cable x 1
- User Manual x 1
- Additional Straps: Gold-tone metal bracelet, Burgundy leather strap, Pink magnetic strap, White perforated strap

## 3. SETUP

---

### 3.1 App Download and Installation

To utilize all features of your smart watch, download the "FitCloudPro" app from your smartphone's app store (available for Android and iPhone devices).

Your browser does not support the video tag.

Video: Instructions for downloading and setting up the FitCloudPro app.

### 3.2 Device Pairing

Ensure your phone's Bluetooth is enabled. Open the FitCloudPro app, navigate to the "Device" section,

and select "Add Peripheral Now". You can connect in two ways:

1. Search for the watch name "IW11" in the app's device list and tap to connect.
2. Locate the QR code in your watch settings and scan it using the app to establish a connection.

## 4. OPERATING INSTRUCTIONS

---

### 4.1 Health Monitoring

The smart watch continuously tracks various health metrics. Access these data points through the FitCloudPro app:

- **Heart Rate:** Monitors your heart rate 24/7.
- **Blood Oxygen (SpO2):** Measures blood oxygen levels.
- **Blood Pressure:** Provides blood pressure readings.
- **Sleep Tracking:** Records sleep stages (deep, light, REM) and duration.

# 24/7 Track Your Health Data

## 4.3 Bluetooth Calls and Smart Notifications

Make and receive calls directly from your watch when connected via Bluetooth. Receive instant alerts for texts, emails, and social media apps. Note: Text replies are not supported.

## 4.4 Customizable Watch Faces

Choose from over 200 dynamic watch faces or upload your own photos to personalize your device's display. The 1.85" HD screen offers 5-level adjustable brightness for clear visibility.

# 1000mAh high-capacity battery

Normal usage lasts for 20 days

**2.5 Hours**  
Charging Time

**20 Days**  
Daily Use

**100 Days**  
Extended  
battery life

**1000 mAh**  
Large Battery  
Capacity

## 4.5 Smart Wellness Features

- **Menstrual Cycle Tracking:** Track your menstrual cycle through the app.
- **Voice Assistant:** Control your watch hands-free using voice commands (e.g., Siri).
- **Water Reminder:** Set reminders to drink water at regular intervals.
- **Music Control & Remote Camera:** Control music playback and remotely trigger your phone's camera.

## 5. MAINTENANCE

---

### 5.1 Charging the Device

The watch features a 1000mAh battery. A full charge takes approximately 2.5 hours and provides 20-30 days of continuous use or up to 100 days of standby time, depending on usage. Use the provided charging cable to connect the watch to a USB power source.

## 5.2 Cleaning and Care

Wipe the watch and straps with a soft, damp cloth. Avoid using harsh chemicals or abrasive materials. Ensure the charging contacts are clean and dry before charging.

## 6. TROUBLESHOOTING

---

- **Device not pairing:** Ensure Bluetooth is on, the app is open, and the watch is within range. Try restarting both the watch and your phone.
- **Notifications not received:** Check app notification settings on your phone and within the FitCloudPro app to ensure all desired apps are enabled.
- **Inaccurate health data:** Ensure the watch is worn snugly on your wrist. Environmental factors and movement can affect readings. Consult a medical professional for accurate health assessments.
- **Screen unresponsive:** Try restarting the watch. If the issue persists, ensure the watch is charged.
- **Short battery life:** Reduce screen brightness, disable unnecessary notifications, and limit continuous heart rate monitoring to extend battery life.
