3. PRODUCT FEATURES

3.1 Upgraded Bluetooth 5.4 Technology

The H08 wireless headset features advanced Bluetooth 5.4 technology, supporting HFP/A2DP/AVRCP/HSP protocols. This ensures faster transmission speeds, stronger connection stability, and an extended Bluetooth range for an unparalleled audio experience. The headset automatically reconnects to previously paired devices without delay, providing a seamless listening experience.

3.2 CVC 8.0 Clear Calls with ENC Noise Reduction

This Bluetooth earpiece redefines your calling experience with state-of-the-art CVC 8.0 and ENC noise reduction technology. It is expertly designed to minimize external distractions and enhance sound clarity for both you and your callers. Enjoy uninterrupted conversations, whether you're in a bustling café or a crowded office, as this Bluetooth headset filters out background noise.

3.3 Long Battery Life

Our Bluetooth headset is designed for your busy lifestyle, offering long-lasting battery freedom. With just 2 hours of fast charging, you can enjoy up to 29 hours of music playback and 20 hours of talk time, with an

impressive 180 hours of standby time. This makes it perfect for long drives, all-day meetings, and continuous use without frequent recharging.

3.4 Comfortable and Steady Fit

Engineered for all-day wear, this earpiece combines a lightweight, ergonomic design with premium materials to ensure maximum comfort during extended use. The Bluetooth earphones' contours conform gently to your ear, providing a secure fit that stays in place whether you're on long calls, driving, or enjoying music. Ideal for professionals and multitaskers alike, this wireless earphone delivers a perfect blend of comfort and functionality.

3.5 Multi-function Control and Wide Compatibility

The Bluetooth earpiece features intuitive smart buttons that simplify functions like answering and ending calls, adjusting volume, and controlling music playback. The thoughtfully designed button layout makes it easy to operate the earphone, even in busy work environments, enhancing your overall efficiency. Additionally, the earpiece is compatible with most Bluetooth devices, including iOS, Android, and Windows.

4. SETUP

4.1 Wearing the Earpiece

1. Insert the ear tip into your ear canal.
2. Position the ear hook behind your ear.
3. Adjust the placement for maximum comfort and a secure fit.

4.2 Pairing with Your Device

1. Ensure the earpiece is charged (refer to Section 6: Charging).
2. Turn on the earpiece by long pressing the MFB (Multi-Function Button) for 2 seconds until the indicator light blinks blue and red, indicating pairing mode.
3. On your mobile device (phone, tablet, laptop), go to Bluetooth settings.
4. Search for available devices and select "H08" from the list.
5. Once connected, the indicator light will flash blue slowly, and a voice prompt will confirm successful pairing.

5.1 Official Product Video: Powerful, modern and elegant.

Video: This video provides a visual overview of the Atheewon H08 Bluetooth Earpiece, showcasing its design and features. It highlights the powerful, modern, and elegant aspects of the device, demonstrating its suitability for various professional and personal uses.

6. CHARGING

To charge your Atheewon H08 Bluetooth Earpiece:

1. Connect the provided charging cable to the charging port on the earpiece or place the earpiece securely into its carrying case.
2. Connect the other end of the charging cable to a USB power source (e.g., computer, wall adapter).
3. The indicator light on the earpiece will show red during charging and turn blue (or off, depending on the model) when fully charged. The carrying case may have an LED display to show its battery percentage.
4. A full charge typically takes about 2 hours.

7. MAINTENANCE

To ensure the longevity and optimal performance of your Atheewon H08 Bluetooth Earpiece:

- Keep the earpiece and charging case clean and dry. Use a soft, dry cloth to wipe surfaces.
- Avoid exposing the device to extreme temperatures, humidity, or corrosive substances.
- Store the earpiece in its carrying case when not in use to protect it from dust and damage.
- Do not attempt to disassemble or modify the earpiece, as this will void the warranty.

8. TROUBLESHOOTING

If you encounter any issues with your Atheewon H08, please try the following steps:

- **No Power:** Ensure the earpiece is fully charged.
- **Cannot Pair:** Make sure the earpiece is in pairing mode (blinking blue and red light) and within range of your device. Turn off and on both the earpiece and your device's Bluetooth.
- **Poor Sound Quality:** Check the volume levels on both the earpiece and your connected device. Ensure there are no obstructions between the earpiece and your device.
- **Intermittent Connection:** Move closer to your paired device. Avoid environments with strong

electromagnetic interference.

- **Unresponsive Buttons:** Try restarting the earpiece. If the issue persists, ensure the device is sufficiently charged.

If these steps do not resolve the issue, please contact Atheewon customer support for further assistance.
