Anona Anona Pano

Anona 4K UHD Indoor Camera Instruction Manual

MODEL: ANONA PANO

PRODUCT OVERVIEW

The Anona Pano 4K UHD Indoor Camera is designed for comprehensive indoor monitoring, offering advanced features such as 4K Ultra High Definition video, 360° pan and 110° tilt capabilities, and dual-band Wi-Fi 6 connectivity. It includes AI-powered detection for persons, pets, and baby crying, along with two-way audio and privacy mode for enhanced security and convenience.

WHAT'S IN THE BOX

- Anona Pano Camera
- 5V2A Power Adapter (3m power cable)
- Mounting Plate
- Screws & Anchors Kit
- Quick Start Guide

SETUP

Initial Power-Up and Reset

1. Plug the power cable into the camera and then into a power outlet. The camera will rotate, and the indicator light will turn on.
2. If the indicator light is not blinking orange, tilt the camera head upward to reveal the reset button. Press and hold the reset button for 5 seconds until you hear "Reset Succeeded."

App Connection Guide

For a visual guide on connecting your Anona Pano camera to the app, please watch the video below. This video demonstrates the step-by-step process of pairing your device and configuring initial settings.

Your browser does not support the video tag.

Video: Anona Pano Indoor Camera App Connection Guide. This video demonstrates the process of plugging in the camera,

resetting it if necessary, opening the Anona Security App, adding the device, connecting to Wi-Fi (2.4GHz and 5GHz supported), naming the device, and adjusting settings like camera orientation.

1. Download the "Anona Security" app from your smartphone's app store.
2. Open the app, tap the '+' button, and select 'Add Device'.
3. The app will search for nearby devices. Select your Anona Pano camera or add it manually.
4. Follow the on-screen prompts to connect the camera to your Wi-Fi network. Both 2.4GHz and 5GHz Wi-Fi bands are supported.
5. Name your camera and choose a usage scenario (e.g., Baby Monitoring, Pet Tracking) for recommended settings.
6. Adjust any additional settings manually as desired.

OPERATING INSTRUCTIONS

Live View and Pan-Tilt Control

Access the live feed through the Anona Security app. Use the on-screen controls to pan the camera 360° horizontally and tilt it 110° vertically to view any area of the room. The auto-tracking feature can detect and follow moving objects.

AI Detection Features

The camera utilizes advanced AI algorithms for intelligent detection. Enable or disable these features in the app settings:

- **Person Detection:** Receive alerts when a human presence is detected.
- **Pet Detection:** Get notifications when your pets are active or enter specific areas.
- **Baby Crying Detection:** The camera can identify and alert you to a baby's cries.

NIGHT VISION

The Anona Pano camera features enhanced IR night vision with an F1.6 aperture, allowing it to capture sharp 4K UHD footage even in complete darkness up to 30 feet. This ensures clear visibility and detailed monitoring around the clock.

F1.6 Aperture - A Leap in IR Night Vision

See Everything in 4K UHD Even in Darkness

Image: A side-by-side comparison illustrating the superior clarity of F1.6 aperture night vision compared to F2.0, showcasing a sleeping dog in a dark environment.

MOUNTING OPTIONS

The Anona Pano camera is designed for versatile placement. It can be placed on a tabletop or mounted on a ceiling using the included mounting plate and screws. The app allows you to adjust the video orientation if the camera is mounted upside down.

One Tap on Your App - Anona Pano Sleeps

Activate the privacy mode via just one click on your app and the security camera will stop live view & recording - no need to unplug the camera.

Item Dimensions	3.23 x 3.11 x 4.77 inches
Item Weight	0.93 Pounds

MAINTENANCE

To ensure optimal performance and longevity of your Anona Pano camera, follow these maintenance guidelines:

- **Cleaning:** Gently wipe the camera lens and body with a soft, dry cloth. Avoid using harsh chemicals or abrasive materials.
- **Firmware Updates:** Regularly check the Anona Security app for available firmware updates. Keeping

your camera's firmware up-to-date ensures access to the latest features, security patches, and performance improvements.

- **Placement:** Ensure the camera is placed in a stable location, away from direct sunlight, heat sources, and excessive moisture.
- **Power Supply:** Use only the provided power adapter to prevent damage to the device.

TROUBLESHOOTING

If you encounter issues with your Anona Pano camera, consider the following troubleshooting steps:

- **No Power/Indicator Light Off:** Ensure the power adapter is securely plugged into both the camera and a working power outlet. Try a different outlet if necessary.
- **Cannot Connect to Wi-Fi:** Verify that your Wi-Fi network is active and you are entering the correct password. Ensure the camera is within range of your router. The camera supports both 2.4GHz and 5GHz bands. If issues persist, try resetting the camera (refer to Setup section).
- **Poor Video Quality:** Check your internet connection speed. A stable and fast connection is crucial for 4K streaming. Ensure the camera lens is clean and free from obstructions.
- **Motion Detection Not Working:** Review the AI detection settings in the Anona Security app to ensure person, pet, or baby crying detection is enabled and sensitivity levels are appropriate.
- **Two-Way Audio Issues:** Check the microphone and speaker settings in the app. Ensure your phone's volume is up and there are no obstructions to the camera's speaker or microphone.
- **Camera Not Responding:** Try restarting the camera by unplugging it for a few seconds and then plugging it back in. If the problem continues, perform a factory reset.

WARRANTY AND SUPPORT
