PetsCosset G-F37-NEW

PetsCosset Outdoor Garage Cabinet User Manual

Model: G-F37-NEW

INTRODUCTION

Thank you for choosing the PetsCosset Outdoor Garage Cabinet. This manual provides detailed instructions for the assembly, operation, and maintenance of your new storage cabinet. Please read all instructions carefully before assembly and use to ensure safe and proper functionality.

SAFETY INFORMATION

Always follow the assembly instructions carefully. Use appropriate tools and be cautious when handling heavy components. Keep the lock away from children to prevent accidental injury.

- Ensure all parts are present before beginning assembly.
- Assemble on a flat, stable surface.
- Do not overtighten screws to avoid damaging materials.
- Secure the cabinet to a wall or ground using appropriate anchors if in a windy area (anchors may not be included).
- Do not overload shelves; distribute weight evenly.
- Keep children and pets away from the assembly area.

PACKAGE CONTENTS

Please verify that all components listed below are included in your package. If any parts are missing or damaged, please contact customer support.

- Back Panel(s)
- Side Panels (Left & Right)
- Front Down Rods

- Front Upper Rods
- Front Pillars
- Roof Panel
- Connecting Rods
- Back Down Rods
- Bottom Panels
- Shelf Panels
- Doors with Handles
- Foot Pads
- Screws and Hardware (various types)
- Angle Irons (for securing)

SETUP AND ASSEMBLY

Follow these step-by-step instructions for assembling your PetsCosset Outdoor Garage Cabinet. It is recommended to have at least two people for assembly.

Step 1: Prepare the Base

Lay the back panel on a flat surface. Attach the back down rods to the back panel using screws. Ensure the rods are securely fastened.

Step 2: Assemble Side Panels

Attach the left and right side panels to the back panel. Secure them with screws. Then, attach the front down rods and front pillars to form the basic frame.

OPERATING INSTRUCTIONS

Adjusting Shelves

The cabinet features three adjustable shelves. To adjust a shelf, carefully lift it from its current position and place it onto the desired support brackets. Ensure it is level and securely seated before placing items on it.

Image: An open cabinet showcasing its adjustable shelves and magnetic door closures, highlighting its versatile storage options.

Lockable Doors

The cabinet doors are equipped with magnetic closures for easy access and lockable holes for added security. To secure your belongings, align the holes on the doors and insert a padlock (not included). Ensure the padlock is properly engaged.

MAINTENANCE

- **Cleaning:** Wipe down the cabinet surfaces with a damp cloth and mild soap. Avoid harsh chemicals that may damage the wood or metal finish.
- **Wood Care:** Periodically inspect the wood components for signs of wear or weather damage. Applying a wood sealant or stain annually can help prolong its lifespan and maintain its weather-resistant properties.
- **Metal Components:** Check hinges and latches for rust or corrosion. Lubricate moving parts as needed.
- **Roof Inspection:** Ensure the asphalt roof remains intact and free of damage to maintain its waterproof capabilities.
- **Stability:** Regularly check that all screws and fasteners are tight. Re-secure ground anchors if the cabinet shows signs of instability.

TROUBLESHOOTING

- **Doors not closing properly:** Check hinges for alignment or damage. Ensure the cabinet is on a level surface. Adjust foot pads if necessary.
- **Shelves are wobbly:** Ensure shelves are correctly seated on all support brackets. Tighten any loose screws on the connecting rods.
- **Water leakage:** Inspect the roof for cracks or gaps. Ensure all panels are tightly joined and sealed. Apply a waterproof sealant if needed.
- **Cabinet feels unstable:** Verify that the cabinet is on a firm, level surface. Utilize the provided angle irons and ground anchors to secure it firmly.
