Holoswim Holoswim 2pro/2go

Holoswim Swim Goggles Premium Silicone Strap User Manual

Model: Holoswim 2pro/2go Strap

Brand: Holoswim

INTRODUCTION

This manual provides instructions for the Holoswim Premium Silicone Strap, designed as a replacement or accessory for Holoswim 2pro and Holoswim 2go AR smart swim goggles. This strap is engineered for durability, comfort, and seamless integration with your Holoswim goggles, ensuring a stable and secure fit during swimming activities.

KEY FEATURES

- **Modular & Cost-Efficient Design:** The strap is easily replaceable, allowing for individual part refreshment without needing to replace the entire goggle system.
- **Optimized for Holoswim 2pro/2go:** Specifically engineered for perfect compatibility and stable support with Holoswim 2pro and 2go AR smart swim goggles.
- **Superior Silicone Material:** Constructed from top-grade, skin-friendly silicone for flexibility, softness, and long-lasting comfort.
- **Secure & Comfortable Fit:** Features an ergonomic tension balance design to hold goggles firmly without excessive pressure, preventing slippage.
- **Enhanced AR Stability:** Designed to minimize vibration and shifting, ensuring the AR display and swimming data remain accurate and distraction-free.

COMPATIBILITY

This silicone strap is specifically designed for use with the following Holoswim AR smart swim goggles:

- Holoswim 2pro
- Holoswim 2go

It ensures optimal performance and fit when used with these models.

SETUP AND INSTALLATION

Follow these steps to properly attach the silicone strap to your Holoswim goggles:

1. **Prepare Goggles:** Ensure your Holoswim 2pro or 2go goggles are clean and free from any debris. If replacing an old strap, carefully remove it from the goggle frame.
2. **Identify Strap Ends:** The Holoswim silicone strap has two distinct ends, each designed to connect to a specific side of the goggle frame. Observe the attachment points on your goggle frame.
3. **Attach First End:** Gently thread one end of the silicone strap through the designated loop or slot on one side of the goggle frame. Pull it through until it is securely seated. Ensure the strap is not twisted.
4. **Attach Second End:** Repeat the process for the other end of the strap, threading it through the corresponding loop or slot on the opposite side of the goggle frame.
5. **Verify Connection:** Once both ends are attached, gently pull on the strap to ensure it is firmly connected to both sides of the goggle frame. The strap should sit flush and securely.

Image 1: The Holoswim silicone strap laid flat, showing the central buckle mechanism. This image illustrates the strap's design, including the Holoswim branding and the adjustable buckle, which is crucial for understanding how to properly secure and adjust the goggles.

Image 2: The Holoswim silicone strap coiled, displaying its flexible and durable material. This view provides a general impression of the strap's texture and overall length, indicating its premium quality and readiness for installation.

OPERATING AND ADJUSTMENT

Once the strap is attached, proper adjustment is key for comfort and performance:

1. **Positioning:** Place the goggles over your eyes, ensuring the eye seals create a comfortable suction around your eye sockets.
2. **Strap Placement:** Position the silicone strap around the back of your head, ideally slightly above your ears, for optimal stability.
3. **Adjusting Tension:** Use the buckle mechanism on the strap to adjust the tension. Pull the strap ends evenly to tighten, or lift the buckle to loosen. Adjust until the goggles feel secure without causing discomfort or excessive pressure. The goal is a snug fit that prevents water leakage and keeps the AR display stable.
4. **Testing Fit:** Before entering the water, perform a quick test by gently pressing the goggles to your face and releasing. They should stay in place for a moment due to suction. If they fall off immediately, readjust the strap tension.

MAINTENANCE

Proper care extends the life of your Holoswim silicone strap:

- **Rinsing:** After each use, rinse the strap and goggles with fresh, cool water to remove chlorine, salt, and other residues.
- **Drying:** Allow the strap to air dry completely in a cool, shaded area. Avoid direct sunlight or high heat, which can degrade silicone over time.
- **Storage:** Store the strap and goggles in a protective case or pouch to prevent scratches and damage when not in use.
- **Avoid Harsh Chemicals:** Do not use harsh detergents, solvents, or abrasive cleaners on the silicone strap, as these can damage the material.
- **Inspection:** Periodically inspect the strap for any signs of wear, tears, or damage. Replace the strap if significant wear is observed to maintain optimal performance and safety.

TROUBLESHOOTING

If you encounter issues with your Holoswim silicone strap, consider the following:

- **Goggles Slipping:**
 - Ensure the strap is tightened sufficiently.
 - Verify the strap is positioned correctly around the back of your head, not too high or too low.
 - Check if the goggle eye seals are properly seated on your face.
- **Discomfort/Pressure:**
 - Loosen the strap slightly using the buckle mechanism.
 - Adjust the strap's position on your head to distribute pressure evenly.
- **Strap Detaching:**
 - Re-check that both ends of the strap are fully threaded and secured into the goggle frame's attachment points.
 - Inspect the strap ends and goggle attachment points for any damage that might prevent a

secure connection.

SPECIFICATIONS

Material	Superior Silicone Material
Compatibility	Holoswim 2pro, Holoswim 2go AR Smart Swim Goggles
Care Instructions	Rinse with fresh water, air dry. Avoid harsh chemicals.
Origin	Imported
