5. MAINTENANCE

5.1. Charging the Battery

Connect the charger to the charging port, typically located near the battery compartment. The car is protected while charging and cannot be started. The average battery life is 2 hours per full charge.

5.2. Cleaning

Wipe the vehicle with a damp cloth. Avoid using harsh chemicals or abrasive cleaners that could damage the finish.

5.3. Storage

Store the vehicle in a dry, cool place away from direct sunlight and moisture when not in use. Ensure the battery is fully charged before long-term storage.

6. TROUBLESHOOTING

If you encounter any issues, please check the following common problems:

- **Vehicle not starting:** Check battery connection, ensure the power button is on, and verify the battery is charged.
- **Remote control not working:** Ensure the remote control has fresh batteries and is properly paired with the vehicle.
- **Reduced speed/power:** The battery may be low and require charging.

If problems persist, please contact customer support.
