6. MAINTENANCE

- **Cleaning:** Wipe surfaces with a soft, damp cloth. Avoid harsh chemicals or abrasive cleaners that may damage the finish.
- **Hardware Check:** Periodically inspect all bolts, screws, and connections to ensure they remain tight. Retighten as necessary to maintain stability and safety.
- **Structural Integrity:** Regularly check for any signs of wear, damage, or loose components. Address any issues promptly.

7. TROUBLESHOOTING

If you encounter issues during assembly or use, consider the following:

- **Mislabeled Parts/Holes Not Aligning:** Double-check part numbers against the assembly guide. Sometimes, similar-looking parts may be easily confused. If holes do not align, ensure components are oriented correctly. Do not force parts together.
- **Loose Connections:** If the bed feels wobbly, re-check and tighten all hardware. Over time, screws can loosen with use.
- **Missing Parts:** If any parts are missing from your package, refer to the contact information in the Support section.
