PRODUCT OVERVIEW

Front View

The front of the projector features the projection lens and an infrared receiver for the remote control.

Rear View (Ports)

The rear panel provides various connectivity options:

- **USB-1, USB-2:** For connecting USB storage devices.
- **HDMI-1, HDMI-2:** For connecting devices via HDMI cable (e.g., laptops, gaming consoles).
- **AV:** For connecting devices using the AV cable.
- **3.5mm Audio Jack:** For connecting external headphones or speakers.
- **Power Input:** For connecting the power cable.

SETUP

1. **Placement:** Position the projector on a stable, flat surface or mount it according to your preference (desktop, ceiling, tripod). Ensure adequate ventilation around the device.
2. **Power Connection:** Connect the power cable to the projector's power input and then to a power outlet.
3. **Initial Power On:** Press the power button on the projector or the remote control to turn on the device.
4. **Focus Adjustment:** The projector features electronic focus. Use the remote control to adjust the focus until the image is clear.
5. **Keystone Correction:** The projector supports automatic keystone correction. If manual adjustment is needed, use the remote control to correct the image shape for a rectangular display.
6. **Network Connection:** Navigate to the settings menu to connect the projector to your Wi-Fi network (Wi-Fi 6 supported).
7. **Content Source:** Select your desired input source (e.g., HDMI, USB, or built-in streaming apps like Netflix).

OPERATING INSTRUCTIONS

Smart Features (Netflix-Licensed)

The Bettdow AC1082 comes with pre-installed and officially licensed streaming applications, including Netflix, Prime Video, YouTube, and Disney+. Access these directly from the home screen using the remote control.

Focus and Keystone Adjustment

For optimal image clarity, use the electronic focus function via the remote control. The projector also features automatic keystone correction to ensure a perfectly rectangular image, even when projected at an angle. Manual keystone adjustments can be made if necessary.

Image: A visual demonstration of automatic focus and keystone correction, showing how the projector adjusts the image for clarity and proper alignment.

Connectivity

- **HDMI:** Connect external devices like laptops, Blu-ray players, or gaming consoles using an HDMI cable.
- **USB:** Insert USB drives to play media files directly.
- **Bluetooth:** Pair with Bluetooth speakers or headphones for enhanced audio.
- **Wi-Fi:** Connect to your home network for streaming and online content.

Usage Scenarios

The Bettdow AC1082 projector is designed for a variety of environments:

- **Home Cinema:** Enjoy movies and TV shows on a large screen.
- **Outdoor Camping:** Portable design allows for entertainment outdoors.
- **Educational & Business Meetings:** Suitable for presentations in classrooms or offices.

MAINTENANCE

- **Lens Cleaning:** Use a soft, lint-free cloth and lens cleaning solution to gently wipe the projector lens. Avoid abrasive materials.
- **Ventilation:** Ensure the projector's ventilation ports are clear of dust and obstructions to prevent overheating.
- **Storage:** When not in use, store the projector in a cool, dry place, ideally in its protective bag, to prevent dust accumulation and damage.
- **Software Updates:** Regularly check for and install software updates to ensure optimal performance and access to the latest features.

TROUBLESHOOTING

Problem	Possible Cause	Solution
No image projected	Power cable disconnected, incorrect input source, lens cap on.	Check power connection, select correct input source, remove lens cap.
Blurry image	Out of focus, incorrect keystone setting.	Adjust electronic focus using the remote, correct keystone settings.
No sound	Volume too low, external audio device not connected properly, incorrect audio output selected.	Increase volume, check audio cable connections, ensure correct audio output is selected in settings.
Remote control not working	Batteries depleted, obstruction between remote and projector.	Replace batteries, ensure clear line of sight to the projector's IR receiver.
