UPHA 42-inch Outdoor Propane Gas Fire Pit Table Instruction Manual

Model: B0FT38LRFB | Brand: UPHA

1. INTRODUCTION

This manual provides essential information for the safe and efficient operation, maintenance, and setup of your UPHA 42-inch Outdoor Propane Gas Fire Pit Table. Please read all instructions carefully before assembly and use.

2. IMPORTANT SAFETY INFORMATION

WARNING: For outdoor use only. Improper installation, adjustment, alteration, service, or maintenance can cause injury or property damage. Read the installation, operating, and maintenance instructions thoroughly before installing or servicing this equipment.

- Ensure the fire pit table is placed on a stable, non-combustible surface.
- Keep children and pets away from the fire pit during operation.
- Do not store or use gasoline or other flammable vapors and liquids in the vicinity of this or any other appliance.
- Always connect the propane hose to a standard 20-pound tank (not included).
- If using natural gas, ensure proper conversion with appropriate accessories (not included).
- The fire pit table is CSA certified for safety.
- Always use the included oxford rain cover when not in use or during inclement weather to protect the table and prolong its lifespan.

3. PACKAGE CONTENTS

Your UPHA fire pit table is shipped in two packages. Please verify all components are present:

- Concrete Fire Pit Table (1 pc)
- Propane Tank Cover Table (1 pc)

- Propane Tank Base Ring (1 pc)
- Rain Cover (1 pc)
- Propane Hose (1 pc)
- Glass Rocks (1 bag)
- User Manual (1 pc)
- Adjustable Feet (6 pcs)

What You Will Get From This Set?

PACKED IN 2 BOXES

You may get all your packages delivered at different times.

BOX1

Fire Table

Rain Cover

Adjustable Feet

Fire Glass

Propane Hose

Propane Tank Stand

BOX2

Tank Table

Rain Cover

4. SETUP INSTRUCTIONS

1. **Unpacking:** Carefully remove all components from the two packages. Place them on a soft, clean surface to prevent scratches.
2. **Positioning:** Place the fire pit table in your desired outdoor location, ensuring it is on a level, stable surface. The adjustable balance feet can be used to stabilize the unit.

3. **Propane Tank Placement:** Position the propane tank cover table near the fire pit. Open the cover and place a standard 20-pound propane tank (not included) inside, securing it with the propane tank base ring.
4. **Connect Propane Hose:** Connect the provided propane hose from the fire pit table to the propane tank. Ensure all connections are tight and secure.
5. **Add Glass Rocks:** Carefully distribute the blue glass rocks over the burner area of the fire pit table. Ensure the igniter and burner holes are not completely covered to allow for proper ignition and flame distribution.
6. **Optional Wind Guard:** If using a wind guard (not included with this specific model but shown in some product images), place it around the burner area according to its instructions.

Product Dimensions

Outdoor Fire Pit Weight Capacity: **200LBS**

Tank Table Weight Capacity: **150LBS**

5. OPERATING INSTRUCTIONS

1. **Open Propane Tank Valve:** Slowly open the valve on your propane tank.
2. **Ignition:** Locate the electronic ignition system on the side of the fire pit table. Press and hold the ignition button while slowly turning the control knob to the "LOW" position. You should hear a click and see the flame ignite.
3. **Adjust Flame:** Once ignited, continue to hold the ignition button for a few seconds, then release. Rotate the control knob to adjust the flame height and heat output (up to 50,000 BTUs) to your desired level.
4. **To Turn Off:** Turn the control knob to the "OFF" position. Close the valve on the propane tank.

6. MAINTENANCE

- **Cleaning:** When stains or dirt are noticed, wipe them away with a soft, damp cloth for quick cleaning. Do not use abrasive cleaners.
- **Storage/Protection:** For periods of non-use or during inclement weather, it is recommended to utilize the included oxford rain cover to protect the table and prolong its lifespan.
- **Inspection:** Regularly inspect the propane hose and connections for any signs of wear, damage, or leaks.

7. TROUBLESHOOTING

Problem	Possible Cause	Solution
Fire pit does not ignite.	Propane tank valve is closed. Igniter not sparking. Low propane level.	Open propane tank valve fully. Check igniter battery (if applicable) or ensure igniter is clean. Replace or refill propane tank.

Problem	Possible Cause	Solution
Low flame or inconsistent flame.	Low propane level. Obstruction in burner holes. Gas pressure issue.	Replace or refill propane tank. Clear any debris from burner holes. Consult a qualified technician.
Gas smell detected.	Gas leak.	Immediately turn off gas at the tank. Check all connections for leaks using soapy water. If smell persists, do not operate and contact emergency services.
